Efficiency in the Public Sector Kevin J. Fox, 2013-04-17 Regardless of where we live the management of the public sector impacts on our lives Hence we all have an interest one way or another in the achievement of efficiency and productivity improvements in the activities of the public sector For a government agency that provides a public service striving for unreasonable benchmark targets for efficiency may lead to a deterioration of service quality along with an increase in stress and job dissatisfaction for public sector employees Slack performance targets may lead to gross inefficiency poor quality of service and low self esteem for employees In the case of regulation inappropriate policies can lead to unprecedented disasters Examples include the decimation of fish stocks through mismanagement of fisheries and power blackouts through inappropriate restrictions on electricity generators and distributors Efficient taxation policies minimise the tax bill for citizens In all of these cases efficient management is required although it is often unclear how to assess this efficiency In this volume several authors consider various aspects and contexts of performance measurement Hence this volume represents a unique collection of advances in efficiency assessment for the public sector by leading researchers in the field Efficiency in the Public Sector is divided into two sections The first is titled Issues in Public Sector Efficiency Evaluation and comprises of chapters 1 4 The second section is titled Efficiency Analysis in the Public Sector Advances in Theory and Practice This division is somewhat arbitrary in the sense there are significant overlapping themes in both sections However it serves to separate chapters that can be characterised as dealing with broader issues Section I from chapters that can be characterised as focusing on specific theoretical problems and empirical cases Section II

Privatising Border Control Mary Bosworth, Lucia Zedner, 2022 Policing and punishment once regarded as central to the state s power and its monopoly

on violence are increasingly outsourced to private providers This collection of essays explores the growing use of the private sector and private actors in border control and its implications for our understanding of state sovereignty and citizenship

Privatisation in India T.T. Ram Mohan, 2013-01-11 Over the past decade India has been undertaking a programme of economic reform and at the same time the economy has been growing at a high rate As part of the reform programme and in line with prevailing economic thinking India has been privatising its large ungainly public sector One assumption underlying this programme is the dogma that public sector enterprises are doomed to inefficiency and that competitive market forces can be relied on to make firms more efficient once they are privatised But is this really true Combining rigorous data analysis with case studies to provide a balanced evaluation of the process of deregulation and privatisation within the overall context of economic reforms the author demonstrates remarkably that contrary to the prevailing view private sector firms do not outperform public sector firms across all sectors He also shows that revenue raising considerations have weighed more heavily with the government than efficiency objectives Overall this study of the reform process in India with its unique longstanding mix of private and public sectors will be of great interest to all those studying reform and transition worldwide

Research Handbook on Privatisation Graeme A. Hodge, Carsten Greve, Eoin Reeves, 2025-06-09 Graeme A Hodge Carsten Greve and Eoin Reeves bring together expert authors to explore 50 years of research and analysis in the complex field of privatisation The Research Handbook highlights current issues and challenges in privatisation through relevant contemporary examples to further our understanding of this economic concept and how it is shaping global policies

Constitutional Aspects of the Transition to a Market Economy European Commission for Democracy through Law, 1994-01-01 On cover title page Collection Public Enterprise Management and Privatisation Laxmi Narain, 2005 A number of public enterprise PE executives have long felt the need for a book which would provide necessary information and analysis of various dimensions of PE management and privatisation The book provides at one place a precise and authoritative account of the concept policy and analysis of major issues confronting PEs Public ownership per se does not make PE performance sub optimal The operation of the Government system of which PE is a sub system has not been conducive to performance During the last six decades inadequate political will and vested interests have come in the way of freeing PEs from excessive and throttling controls and demoralising accountability Not letting the managers manage with the freedom required in the liberalised and globalised set up is the problem The multifarious and complex managerial problems of PEs which get compounded by faltering moves towards privatisation cannot be wished away These have been considered in the book at some length The book first published in 1980 continues to be a standard work on the subject This latest edition has been revised by Dr R K Mishra Director Institute of Public Enterprise Hyderabad The Impact of Privatisation Stephen Martin, David Parker, 1997 The penultimate chapter discusses the restructuring that has followed each company's move into the private sector and the final chapter summarises the results ITF Round Tables Privatisation and Regulation of Urban

Transit Systems International Transport Forum,2008-10-23 Examines experience in integrating private management and capital with public transport policy objectives in a number of developed economies **The Cambridge Handbook of**

Privatization Avihay Dorfman,Alon Harel,2021-09-16 This volume explores the questions of what makes some goods and services fundamentally public and why **Privatisation, Competition and Regulation** OECD,2000-02-08 This volume

brings together a number of papers discussing the interrelationship among privatisation competition and regulation The papers make reference to the experience of different countries with privatisation in a wide range of infrastructure sectors

The Impact of Privatization Stephen Martin,David Parker,1997-02-13 Are resources allocated more efficiently through private ownership than through the public sector The experiences of eleven newly privatised companies are examined to evaluate this hypothesis With the Government's pro privatization policies in place for over a decade this is a prime time to evaluate theory versus reality Global Privatization Programs and Opportunities Handbook Volume 6 Europe - Part 1 UK

Privatization Strategy and Regulations IBP USA, *Microeconomics* R. Glenn Hubbard,Anne M. Garnett,Philip Lewis,Anthony Patrick O'Brien,2014-09-01 Microeconomics is the most engaging introductory economics resource available to students today Using real businesses examples to show how managers use economics to make real decisions every day the subject is made relevant and meaningful Each chapter of the text opens with a case study featuring a real business or real business situation refers to the study throughout the chapter and concludes with An Inside Look a news article format which illustrates how a key principle covered in the chapter relates to real business situations or was used by a real company to make a real business decision Solved problems in every chapter motivate learners to confidently connect with the theory to solve economic problems and analyse current economic events **Contractual Certainty in International Trade** Volkmar

Gessner,2008-12-19 Global business interacts efficiently despite the heterogeneity of social economic and legal cultures which according to widespread assumptions cause insecurities and uncertainties Breaches of contracts may occur more frequently and business relationships may be terminated more often in international than in domestic trade But most business people engaged in exporting or importing products or services seem to operate in a sufficiently predictable environment allowing successful ventures into the global market The apparent paradox presented by cultural institutional diversity and contractual efficiency in cross border business transactions is the focus of this volume of essays The wide range of approaches adopted by contributors to the volume include the Weberian concept of law as a tool for avoiding the risk of opportunism economic sociology which treats networks and relationships between contractual parties as paramount representatives of new institutional economics who discuss law as well as private governance institutions as most efficient responses to risk comparative economic sociologists who point to the varieties of legal cultures in the social organisation of trust and national and international institutions such as the World Bank which try to promote legal certainty in the economy The purpose of the volume is to build on this interdisciplinary exercise by adding empirical evidence to ongoing debates

regarding enabling structures for international business and by critically reviewing and discussing some of the propositions in the literature which contain interesting hypotheses on the effects of the internationalization of markets on market coordination institutions and on the role of the state in the globalising economy

Global Governance and the Quest for Justice - Volume III Peter Odell, Chris Willett, 2008-11-24 This book one in the four volume set *Global Governance and the Quest for Justice* focuses on themes of citizen organisation and empowerment set in the context of globalising legal processes Chapter One sets the scene Chapters Two Three and Four focus on various challenges that globalisation poses for private law How does substantive contract and tort doctrine that has been developed mainly for use within national legal systems adapt to more globalised dealings and wrongdoings Should the source of regulation be private international law harmonised national law international accords or some combination Chapters Five Six and Seven focus on issues relating to access to justice as a mode of empowerment and its impact on the functioning of civil society These chapters highlight a variety of procedural professional and institutional challenges for access to justice in a globalised world Chapter Eight considers how we are to reconcile the competing visions of the basis on which essential services are to be provided In a global marketplace is there any room for local values or for values other than those of free market thinking Finally Chapter Nine focuses on the question of democracy in a globalised world If civil society is to retain its political vitality how are citizens to remain engaged and enfranchised as a new global politico legal order takes shape

Growth, Unemployment, Distribution and Government V. Borooah, 1996-08-09 The purpose of this book is to set out in a comprehensive but succinct manner the key points surrounding four economic issues that generate today much discussion and debate These are the issues of growth unemployment distribution and government It is aimed at an audience that is sufficiently interested in economic issues to read a book that sets out these issues clearly comprehensively and above all seriously This has implications for both the style and the content of the book Clarity requires that the arguments be presented coherently without resort to jargon Comprehensiveness requires a wide perspective embracing theoretical empirical and policy matters Lastly seriousness requires that the most up to date thinking on economic matters is presented in digestible form but without violence to the integrity of the original arguments Achieving this trinity of objectives has been the primary aim of this book

Privatization and Foreign Investments in Nigeria Lawrence Okechukwu Azubuike, 2009 Nigeria's political economy has straddled the ideological divide between socialism and capitalism The country produces oil and at some point in its existence it embarked on robust state involvement in the economy This was marked by the acquisition or establishment of numerous state enterprises Over the years the performance of these enterprises was found to be dismal and as part of the overall reform of the economy Nigeria has joined the global trend toward reduction in direct state ownership of enterprises Indeed it has embarked on massive divestment of state interests in once publicly owned firms Besides the universal rationale of efficiency one of the objectives of the privatization exercise in Nigeria is the attraction and retention of foreign

investments This work examines the direct and indirect linkage between the government's divestiture of its interests in firms on the one hand and foreign investments in the country on the other hand The book is divided into seven chapters Chapter 1 reviews the political and economic history of Nigeria to set the background and context that necessitated the introduction of the reform package of which privatization is just an aspect Chapter 2 is a discussion of various natures of state involvement in an economy This ranges from mere regulation to active participation The chapter discusses the competing conceptual and ideological theories and tries to situate the Nigerian experience within the broader conceptual dichotomies of capitalism socialism and the via media of mixed economy Chapter 3 is an examination of the meaning and rationales for privatization of state owned enterprises generally and the Nigerian attempts in particular Nigeria's privatization program is an ongoing exercise Yet two distinct attempts are identifiable one which started in 1988 and the reinvigoration of the exercise albeit with new constitutive frameworks in 1999 Thus Chapters 4 and 5 review the legal and institutional frameworks for these two exercises Chapter 6 deals with foreign investments in Nigeria The discussion encapsulates the pros and cons of foreign investments especially in Nigeria Chapter 7 explores the direct and indirect linkages between the privatization program in Nigeria and foreign investments in the country This is particularly apposite because one of the touted objectives of the privatization exercise is the attraction of foreign investments A conclusion follows The work finds that although foreign investments appear to have been indirectly boosted by the privatization exercise foreign investors initially did not show interest in direct acquisition of the shares and other interests being relinquished by the government but that that attitude has been changing gradually
