JOHN PATRICK DIGGINS

ABRAHAM LINCOLN AND THE FOUNDATIONS OF AMERICAN HISTORY

Anthony Hutchison

On Hallowed Ground John P. Diggins, 2000-01-01 Contests the validity of Marxist and poststructuralist theory in a review of the life and legacy of Abraham Lincoln The Cambridge Companion to Abraham Lincoln Shirley Samuels, 2012-07-23 Emphasizing the significance of his political and historical engagement this work casts Abraham Lincoln Theorizing Foreign Policy in a Globalized World Knud Erik Jørgensen, 2015-04-29 In this as a cultural figure collection of refreshing and provocative essays the contributors to Theorizing Foreign Policy in a Globalized World reflect on the game changing political impact of globalization outlining the situation as it currently stands and suggesting strategies for analyzing foreign policy and global governance Upon the Altar of the Nation Harry S. Stout, 2007-03-27 A profound and timely examination of the moral underpinnings of the War Between the States The Civil War was not only a war of armies but also a war of ideas in which Union and Confederacy alike identified itself as a moral nation with God on its side In this watershed book Harry S Stout measures the gap between those claims and the war s actual conduct Ranging from the home front to the trenches and drawing on a wealth of contemporary documents Stout explores the lethal mix of propaganda and ideology that came to justify slaughter on and off the battlefield At a time when our country is once again at war Upon the Altar of the Nation is a deeply necessary book The Rise of Western Power Jonathan Daly, 2021-01-14 In this second edition of The Rise of Western Power Ionathan Daly retains the broad sweep of his introduction to the history of Western civilization as well as introducing new material into every chapter enhancing the book s global coverage and engaging with the latest historical debates. The West's history is one of extraordinary success no other region empire culture or civilization has left so powerful a mark upon the world Daly charts the West's achievements representative government the free enterprise system modern science and the rule of law as well as its misdeeds two World Wars the Holocaust imperialistic domination and the Atlantic slave trade Taking us through a series of revolutions he explores the contributions of other cultures and civilizations to the West's emergence weaving in historical geographical and cultural factors. The new edition also contains more material on themes such as the environment and gender and additional coverage of India China and the Islamic world Daly's engaging narrative is accompanied by timelines maps and further reading suggestions along with a companion website featuring study questions over 100 primary sources and 60 historical maps to enable further study

<u>Civic Revolutionaries</u> Douglas Henton, John G. Melville, Kimberly Walesh, 2004-01-16 Civic Revolutionaries offers a practical guide for renewing the great American tradition of spirited breakthrough community leadership By their very nature revolutionary leaders help their communities reconcile the competing values on which our nation was built individualism and community freedom and responsibility trust and accountability economy and society Like the Founders today s civic revolutionaries are extraordinary leaders who are deeply committed to place not just to specific issues or constituencies They provide the vital spark inspiring others who must ultimately own the revolution if it is to be successful

Written for leaders in business government education and community Civic Revolutionaries features practical guidance and in depth case studies from communities across the country The book provides tested advice to both new and seasoned leaders and draws essential lessons from the American revolutionary tradition to demonstrate how to become an effective leader within the community Read a Charity Channel review http charitychannel com publish templates a 294 z 25

Writing the Republic Anthony Hutchison, 2007-08-21 In this provocative book Anthony Hutchison challenges the belief that the American novel is antipolitical and condemns the relative absence of American literature in studies of the political novel In Hutchison's view our fiction is always informed by the complexities of the American political tradition and to acknowledge this is to introduce a new rewarding chapter of critical inquiry into the study of American literature Focusing on the works of Herman Melville Gore Vidal Russell Banks Lionel Trilling and Philip Roth Hutchison finds a critique of liberalism put forth by classical republicanism transcendentalism Marxism and neoconservatism at their respective moments of historical ascent He shows how these authors take very specific historical periods and episodes for their subject matter and interrogate critique and contextualize pivotal moments in the intellectual history of American liberalism In their work liberalism reconstitutes itself in the face of competing ideological pressures demonstrating that the novel is very much characterized by a republican concern with the health of the polity Considering such artists philosophers and theorists as Ralph Waldo Emerson Fyodor Dostoevsky Hannah Arendt and John Dewey alongside numerous contemporary commentators and historians Hutchison repositions American novelists as serious political thinkers He reveals Melville s Moby Dick to be the formal template for the American political novel and compares and contrasts its embodiment of republican fiction with the democratic mode Mikhail Bakhtin associates with Dostoevsky He especially draws attention to the meaning of republicanism in the early national period the place of abolitionism in the Civil War and the post 1930s liberal retreat from Left radicalism By concentrating on the tension between issues of liberalism and morality in the political thought of these American novelists Hutchison hopes to advance a more nuanced and textured understanding of the U S political tradition He scrutinizes a number of critical studies and makes a cogent case for a more interdisciplinary approach to the American political novel that focuses less on the politics of representation and more on the representation of politics **Iohn Adams** John P. Diggins, 2003-06-11 Publisher Description The Political Thought of Frederick Douglass Nicholas Buccola, 2013-07 Frederick Douglass one of the most prominent figures in African American and United States history was born a slave but escaped to the North and became a well known anti slavery activist orator and author In The Political Thought of Frederick Douglass Nicholas Buccola provides an important and original argument about the ideas that animated this reformer statesman Beyond his role as an abolitionist Buccola argues for the importance of understanding Douglass as a political thinker who provides deep insights into the immense challenge of achieving and maintaining the liberal promise of freedom Douglass Buccola contends shows us that the language of rights must be coupled with a robust understanding of social

responsibility in order for liberal ideals to be realized Truly an original American thinker this book highlights Douglass s rightful place among the great thinkers in the American liberal tradition Pub website The Specter of Democracy Dick Howard, 2006-04-18 In this rethinking of Marxism and its blind spots Dick Howard argues that the collapse of European communism in 1989 should not be identified with a victory for capitalism and makes possible a wholesale reevaluation of democratic politics in the U S and abroad The author turns to the American and French Revolutions to uncover what was truly revolutionary about those events arguing that two distinct styles of democratic life emerged the implications of which were misinterpreted in light of the rise of communism Howard uses a critical rereading of Marx as a theorist of democracy to offer his audience a new way to think about this political ideal He argues that it is democracy rather than Marxism that is radical and revolutionary and that Marx could have seen this but did not In Part I Howard explores the attraction Marxism held for intellectuals particularly French intellectuals and he demonstrates how the critique of totalitarianism from a Marxist viewpoint allowed these intellectuals to see the radical nature of democracy Part II examines two hundred years of democratic political life comparing America's experience as a democracy to that of France Part III offers a rethinking of Marx s contribution to democratic politics Howard concludes that Marx was attempting a philosophy by other means and that paradoxically just because he was such an astute philosopher Marx was unable to see the radical political implications of his own analyses The philosophically justified revolution turns out to be the basis of an anti politics whose end was foreshadowed by the fall of European communism in 1989 The Claims of Kinfolk Dylan C. Penningroth, 2004-07-21 In The Claims of Kinfolk Dylan Penningroth uncovers an extensive informal economy of property ownership among slaves and sheds new light on African American family and community life from the heyday of plantation slavery to the freedom generation of the 1870s By focusing on relationships among blacks as well as on the more familiar struggles between the races Penningroth exposes a dynamic process of community and family definition He also includes a comparative analysis of slavery and slave property ownership along the Gold Coast in West Africa revealing significant differences between the African and American contexts Property ownership was widespread among slaves across the antebellum South as slaves seized the small opportunities for ownership permitted by their masters While there was no legal framework to protect or even recognize slaves property rights an informal system of acknowledgment recognized by both blacks and whites enabled slaves to mark the boundaries of possession In turn property ownership and the negotiations it entailed influenced and shaped kinship and community ties Enriching common notions of slave life Penningroth reveals how property ownership engendered conflict as well as solidarity within black families and communities Moreover he demonstrates that property had less to do with individual legal rights than with constantly negotiated extralegal social ties **The Purpose of the Past** Gordon S. Wood, 2008 Wood examines how the historian's craft has changed radically over the past 40 years. This work offers insight into what great historians do how they can stumble and what strains of thought have dominated the marketplace of ideas in historical scholarship

Sovereignty or Submission John Fonte, 2011-09-06 The Twenty First Century is witnessing an epic struggle between the forces of global governance and American constitutional democracy Transnational progressives and pragmatists in the UN EU post modern states of Europe NGOs corporations prominent foundations and most importantly in America's leading elites seek to establish global governance Further they understand that in order to achieve global governance American sovereignty must be subordinated to the global rule of law The U S Constitution must incorporate evolving norms of international law Sovereignty or Submission examines this process with crystalline clarity and alerts the American public to the danger ahead Global governance seeks legitimacy not in democracy but in a partisan interpretation of human rights It would shift power from democracies U S Israel India to post democratic authorities such as the judges of the International Criminal Court Global governance is a new political form a rival to liberal democracy that is already a significant actor on the world stage America faces serious challenges from radical Islam and a rising China Simultaneously it faces a third challenge global governance that is internal to the democratic world is non violent but nonetheless threatens constitutional self government Although it seems unlikely that the utopian goals of the globalists could be fully achieved if they continue to obtain a wide spread influence over mainstream elite opinion they could disable and disarm democratic self government at home and abroad The result would be the slow suicide of American liberal democracy Whichever side prevails the existential conflict of global governance versus American sovereignty and democratic self government in general will be at the heart of world politics as far as the eye can see The Cloaking of Power Paul O. Carrese, 2010-02-15 How did the US judiciary become so powerful powerful enough that state and federal judges once vied to decide a presidential election What does this prominence mean for the law constitutionalism and liberal democracy In The Cloaking of Power Paul O Carrese provides a provocative analysis of the intellectual sources of today s powerful judiciary arguing that Montesquieu in his Spirit of the Laws first articulated a new conception of the separation of powers and strong but subtle courts Montesquieu instructed statesmen to cloak power by placing judges at the center of politics while concealing them behind juries and subtle reforms Tracing this conception through Blackstone Hamilton and Tocqueville Carrese shows how it led to the prominence of judges courts and lawyers in America today But he places the blame for contemporary judicial activism squarely at the feet of Oliver Wendell Holmes Jr and his jurisprudential revolution which he believes to be the source of the now prevalent view that judging is merely political To address this crisis Carrese argues for a rediscovery of an independent judiciary one that blends prudence and natural law with common law and that observes the moderate jurisprudence of Montesquieu and Blackstone balancing abstract principles with realistic views of human nature and institutions He also advocates for a return to the complex constitutionalism of the American founders and Tocqueville and for judges who understand their responsibility to elevate citizens above individualism instructing them in law and right **American Hysteria** Andrew Burt, 2015-05-15 This debut book from Andrew Burt details the pivotal moments in American political history when outliers moved to the center

capturing the national spotlight and turning fringe politics mainstream American Hysteria puts readers at the center of the nation's most prominent periods of political extremism from the Anti Illuminati movement of the 1790s to McCarthyism in the 1950s to the Anti Sharia movement of today Both a deep dive into American history and a riveting narrative account this is book is as much history lesson as it is drama Burt argues that political hysteria arises in periods of deep uncertainty about American identity and that when Americans lose their sense of who they are they lash out against perceived threats with blacklists scapegoating conspiracies cover ups and more By exploring the infamous and sometimes forgotten movements and characters of our nation's past this fascinating book provides a unique view into America's history its identity and ultimately Christian Nation? T. Adams Upchurch, 2010-05-26 This fascinating study examines America's complex and confusing history of arguing with itself over religion and secularism God and politics church and state Hundreds of books are devoted to the ever timely subject of the separation of church and state in America but none does exactly what Christian Nation The United States in Popular Perception and Historical Reality does Unlike other studies this intriguing examination asks the right questions defines the terms of the debate explores the widely diverging points of view with equal respect for all sides and provides insightful commentary and factual conclusions that cut through the clutter The book begins with several questions Is the United States a Christian Nation Has it ever been Was it ever meant to be What did the Founding Fathers say How has this issue been interpreted by various individuals and factions over the centuries The author then surveys the vast literature on this topic including the U S Constitution and Declaration of Independence and the competing and or complimentary views of various Founding Fathers to arrive at the answers and at long last the truth Americans Mary E. Stuckey, 2023-03-17 Andrew Jackson spoke to Americans in ways that reflected the concerns of a young nation Grover Cleveland helped citizens redefine themselves after the havoc of the Civil War era FDR confronted widespread hardship with hope and determination while Eisenhower spoke to our fears of the Communist menace Throughout our history presidents by their very utterances have shaped our sense of who we are as Americans As Mary Stuckey observes presidents embrace articulate and reinvigorate our sense of national identity They define who Americans are often by declaring who they aren t In this book she shows how presidential speech has served to broaden the American political community over the past two centuries while at the same time excluding others Ranging broadly from Andrew Jackson to Bill Clinton and George W Bush Stuckey demonstrates how presidents accomplish the dual enactment of inclusion and exclusion through their rhetorical and political choices Our early leaders were preoccupied with balancing the growing nation later presidents were concerned with the nature and definitions of citizenship By examining the political speeches of presidents exemplifying distinctly different circumstances she presents a series of snapshots which when taken together reveal both the continuity and the changes in our national self understanding Ambitious and sweeping Stuckey's work documents the tactics that have naturalized and legitimated inclusion and exclusion tracing the progress of groups such as women and African Americans

from political invisibility to partial visibility and eventual inclusion She also shows how the terms of inclusion have varied with changing political winds helping us understand how depictions of the powerless by the powerful reflect and influence the status of various groups Stuckey's analysis shows how presidents use language rooted in their times and circumstances to frame and influence contemporary definitions of citizenship A provocative book that documents the changes in our understanding of who is and who isn t one of us Defining Americans reveals that all presidents draw upon the same set of national ideals values and events but not all use those ideas in precisely the same ways Leo Strauss and His Legacy John Albert Murley, 2005-01-01 With over 10 000 entries identifying work of hundreds of Strauss's students and their students students this bibliography is the most indeed the only comprehensive guide to published writing in the tradition of Leo Strauss Murley includes Strauss s own complete bibliography and that of one of his most revered students George Anastaplo The Scottish Invention of America, Democracy and Human Rights Alexander Leslie Klieforth, Robert John Munro, 2004-03-02 The Scottish Invention of America Democracy and Human Rights is a history of liberty from 1300 BC to 2004 AD The book traces the history of the philosophy and fight for freedom from the ancient Celts to the creation of America asserting the roots of liberty originated in the radical political thought of the ancient Celts the Scots struggle for freedom John Duns Scotus and the Arbroath Declaration 1320 a tradition that influenced Locke and the English Whig theorists as well as our Founding Fathers particularly Jefferson Madison Wilson and Witherspoon Author Alexander Klieforth argues the Arbroath Declaration 1320 and its philosophy was the intellectual foundation of the American Revolution and Declaration of Independence 1776 Thus the work is a revolutionary alternative to the traditional Anglocentric view that freedom democracy and human rights descended only from John Locke and England of the 1600s The work is the first historical analysis to locate and document the origin of the doctrine of the consent of the governed in the medieval scholar John Duns Scotus c 1290s four centuries before Locke and the English Whigs and in the evolutionary progress of mankind The work contends that the Arbroath Declaration 1320 and its philosophy was the intellectual foundation of the American Revolution and Declaration of Independence 1776 After showing the Scottish influence on the U S Constitution Bill of Rights and the new Federal government the Braudelian style work traces the development of Scottish style freedom and human rights through the French Declaration of the Rights of Man and of the Citizen influenced by Jefferson Lincoln's Gettysburg Address that transformed Jefferson's Declaration and Eleanor Roosevelt's role in creating the U N Universal Declaration of Human Rights the foundation of the modern human rights struggle More information about this book is available at the authors website The Radical Middle Class Robert D. Johnston, 2013-10-31 America has a long tradition of middle www braveheartsoul com class radicalism albeit one that intellectual orthodoxy has tended to obscure The Radical Middle Class seeks to uncover the democratic populist and even anticapitalist legacy of the middle class By examining in particular the independent small business sector or petite bourgeoisie using Progressive Era Portland Oregon as a case study Robert Johnston shows that

class still matters in America But it matters only if the politics and culture of the leading player in affairs of class the middle class is dramatically reconceived This book is a powerful combination of intellectual business labor medical and above all political history Its author also humanizes the middle class by describing the lives of four small business owners Harry Lane Will Daly William U Ren and Lora Little Lane was Portland's reform mayor before becoming one of only six senators to vote against U S entry into World War I Daly was Oregon's most prominent labor leader and a onetime Socialist U Ren was the national architect of the direct democracy movement Little was a leading antivaccinationist The Radical Middle Class further explores the Portland Ku Klux Klan and concludes with a national overview of the American middle class from the Progressive Era to the present With its engaging narrative conceptual richness and daring argumentation it will be welcomed by all who understand that reexamining the middle class can yield not only better scholarship but firmer grounds for democratic hope

If you ally craving such a referred **On Hallowed Ground Abraham Lincoln And The Foundations Of American History** book that will meet the expense of you worth, get the certainly best seller from us currently from several preferred authors.
