On Life And Death:

Our Stories John Martin Fischer, 2010-12-01 In this collection of essays on the metaphysical issues pertaining to death the meaning of life and freedom of the will John Martin Fischer argues against the Epicureans that death can be a bad thing for the individual who dies He defends the claim that something can be a bad thing a misfortune for an individual even if he never experiences it as bad and even if he does not any longer exist Fischer also defends the commonsense asymmetry in our attitudes toward death and prenatal nonexistence we are indifferent to the time before we are born but we regret that we do not live longer Further Fischer argues against the immortality curmudgeons such as Heidegger and Bernard Williams that immortal life could be desirable and shows how the defense of the possible badness of death and the possible goodness of immortality exhibit a similar structure on Fischer's view the badness of death and the goodness of life can be represented on spectra that display certain continuities Building on Fischer's previous book *My Way* a major aim of this volume is to show important connections between issues relating to life and death and issues relating to free will More specifically Fischer argues that we endow our lives with a certain distinctive kind of meaning an irreducible narrative dimension of value by exhibiting free will Thus in acting freely we transform our lives so that our stories matter

Between Life and Death Robert Kastenbaum, Sandra L. Bertman, 1979 Tales of commerce with the dead Reports of strange happenings in the borderlands between the living and the who knows what Concerns as ancient as humankind Robert Kastenbaum renowned writer on the subject of death and dying along with a host of other well known thinkers offers perceptive scholarly insights on those experiences that lie between life and death Near death encounters or perhaps actual returns from death itself are experiences significant to those who have them and to many who hear about them They may also have significant impact on attitudes well beyond the crisis of death situation A keen look at these phenomena challenges both the method and knowledge of science This volume brings the exotic and the everyday closer together with exploration of topics such as communicating with the dead and deliberately induced premortem out of body experiences Here is information responsible criticism and sociohistorical context from a variety of clinical research and humanistic perspectives The authors include a clinical psychologist who works intimately with people who have life threatening illnesses a social psychologist who has studied subcultural differences in attempts to contact the dead a

psychiatrist developmental psychologist humanist educator and several more Most of the contributors participated in the 1977 symposium of the American Psychological Association on communication with the dead These essays are written in the spirit of sustained exploration an approach that is neither relentless debunking nor pipeline to the divine They treat the experiences between life and death as serious believable and worthy of study The volume provides a needed and valuable contribution to the growing literature on death and dying It offers the reader thought provoking stimuli for one s own reflections on life death and the gray areas in between back cover *Reflections on Life and Death* Joseph Chiari,1977-01-01 **The Life and Death of Marie Stuart** Charles à Court Repington,1923 **The Life and Death of Cells** Joseph Gilbert Hoffman,1957 Describes the living process as it is seen in the microscopic realm of tissue cells **The Life and Death of John of Barneveld, Advocate of Holland** Motley,1879 Mortal Thoughts: Reflections on Life and Death Pasquale De Marco,2025-04-05 In the vast expanse of human existence the specter of mortality looms large a poignant reminder of life s transient nature Yet it is in confronting this inevitability that we discover the profound beauty and meaning of our fleeting sojourn on Earth This book embarks on an introspective journey delving into the depths of our relationship with mortality and exploring the myriad ways in which it shapes our lives Through the prisms of literature philosophy psychology and personal narratives we illuminate the intricate dance between life and death unraveling the fears hopes and aspirations that arise from our awareness of finitude We confront the existential quandary of death its sting and its profound impact on the human psyche We examine the ways in which death anxiety can manifest from the subtle unease that colors our daily existence to the paralyzing fear that can grip us in the face of loss Yet we also uncover the potential for growth and transformation that can arise from confronting our mortality the resilience and courage it can foster and the newfound appreciation for life it can ignite Through the exploration of diverse cultural perspectives we discover the myriad ways in which societies have grappled with the enigma of death We delve into ancient rituals and beliefs examining how different cultures have sought to honor the dead comfort the bereaved and make sense of the seemingly senseless These cultural insights shed light on the universality of the human experience of mortality while also highlighting the rich tapestry of beliefs and practices that have emerged in response to it We also explore the ethical and societal dimensions of death and dying examining issues such as euthanasia assisted dying and the right to die with dignity We grapple with the complex questions surrounding end of life care the role of medical technology in prolonging life and the balance between individual autonomy patient well being and societal values Ultimately this book is an invitation to embrace mortality as an integral part of life to confront our fears and anxieties surrounding it and to seek meaning and purpose in the face of the inevitable It is a call to live fully to cherish each moment and to find solace and strength in the interconnectedness of all living beings If you like this book write a review The Life and Death of Trotsky Robert Payne,1977 **Life and Death Under the Pharaohs** Hans D.
