Hollywood on Location Joshua Gleich, Lawrence Webb, 2019-01-14 Location shooting has always been a vital counterpart to soundstage production and at times the primary form of Hollywood filmmaking But until now the industrial and artistic development of this production practice has been scattered across the margins of larger American film histories *Hollywood on Location* is the first comprehensive history of location shooting in the American film industry showing how this mode of filmmaking changed Hollywood business practices production strategies and visual style from the silent era to the present The contributors explore how location filmmaking supplemented and later supplanted production on the studio lots Drawing on archival research and in depth case studies the seven contributors show how location shooting expanded the geography of American film production from city streets and rural landscapes to far flung territories overseas invoking a new set of creative financial technical and logistical challenges Whereas studio filmmaking sought to recreate nature location shooting sought to master it finding new production values and production economies that reshaped Hollywood's modus operandi

Murder on Location Sara Rosett, 2017-08-03 **Shot on Location** R. Barton Palmer, 2016-02-18 In the early days of filmmaking before many of Hollywood's elaborate sets and soundstages had been built it was common for movies to be shot on location Decades later Hollywood filmmakers rediscovered the practice of using real locations and documentary footage in their narrative features Why did this happen What caused this sudden change Renowned film scholar R Barton Palmer answers this question in *Shot on Location* by exploring the historical ideological economic and technological developments that led Hollywood to head back outside in order to capture footage of real places His groundbreaking research reveals that wartime newsreels had a massive influence on postwar Hollywood film although there are key distinctions to be made between these movies and their closest contemporaries Italian neorealist films Considering how these

practices were used in everything from war movies like *Twelve O Clock High* to westerns like *The Searchers* Palmer explores how the blurring of the formal boundaries between cinematic journalism and fiction lent a reality effect to otherwise implausible stories *Shot on Location* describes how the period s greatest directors from Alfred Hitchcock to Billy Wilder increasingly moved beyond the confines of the studio At the same time the book acknowledges the collaborative nature of moviemaking identifying key roles that screenwriters art designers location scouts and editors played in incorporating actual geographical locales and social milieus within a fictional framework Palmer thus offers a fascinating behind the scenes look at how Hollywood transformed the way we view real spaces
