On Or About December 1910 Early Bloomsbury And Its Intimate World:

On Or about December 1910 Peter Stansky,1996 Peter Stansky paints a picture of the changing world in which the Bloomsbury set moved as the watershed to a new and more open society where for example E M Forster could write about love between men and new artforms were in full bloom

Public Speech and the Culture of Public Life in the Age of Gladstone Joseph S. Meisel,2001-12-06 By the last decades of the nineteenth century more people were making more speeches to greater numbers in a wider variety of venues than at any previous time This book argues that a recognizably modern public life was created in Victorian Britain largely through the instrumentality of public speech Shedding new light on the careers of many of the most important figures of the Victorian era and beyond including Gladstone Disraeli Sir Robert Peel John Bright Joseph Chamberlain Winston Churchill Lloyd George Charles Haddon Spurgeon and Canon Liddon the book traces the ways in which oratory came to occupy a central position in the conception and practice of Victorian public life Not a study of rhetoric or a celebration of great oratory the book stresses the social developments that led to the production and consumption of these speeches

Visions of the Press in Britain, 1850-1950 Mark Hampton,2004 Hampton surveys a diversity of sources to demonstrate that British theories of the press were intimately tied to definitions of the public and the emergence of mass democracy in the late nineteenth and early twentieth centuries

Radio Modernism Todd Avery,2006 Weaving together the BBC's institutional history and developments in ethical philosophy Todd Avery shows how the involvement of writers like T S Eliot H G Wells E M Forster and Virginia Woolf with radio helped to shape the ethical contours of literary modernism His book recaptures for a twenty first century audience the interest fascination excitement and often consternation that British radio induced in its literary listeners following its inception in 1922

Modernism and the Architecture of Private Life Victoria Rosner,2005 In the late 19th century the conventions of domesticity came under scrutiny by British writers others intent on bringing a modern spirit into the home Rosner reveals the connections between those who elegantly synthesized modernist literature with architectural plans room designs decorative art

Gender, Labour, War and Empire Philippa Levine,Susan R. Grayzel,2008-12-11 A lively collection of essays on the cultures of nineteenth and twentieth century Britain Topics range from prostitution and slavery to the effect of war on fashion magazine reporting to inter racial marriage in the postwar years Particular areas of focus include the Second World War its legacies and the reactions to postwar decolonization

Empire, State, and Society Jamie L. Bronstein,Andrew T. Harris,2012-02-20 **EMPIRE STATE AND SOCIETY** This book captures the broad sweep of modern British history Bronstein and Harris's narrative is distinguished by its comprehensive coverage readability and sure judgment It is an excellent book James Epstein Vanderbilt University This is a well structured and gracefully written textbook that undergraduates at American universities and colleges should find highly accessible It integrates recent scholarly trends into a compelling narrative that brings together metropolitan and imperial themes These themes are illuminated by well chosen anecdotes that

make them come alive Bronstein and Harris have provided an excellent introduction to modern Britain and its Empire and one that deserves a wide readership Phil Harling University of Kentucky In the nineteenth century Great Britain was a world recognized superpower Tremendous economic growth fostered a daunting formal empire global networks of trade and investment and a formidable military By the late twentieth century this position of dominance had eroded significantly under the stress of two world wars rising nationalist movements shifting geopolitics and the transformation to a post industrial economy As Britain adjusts to her new place in the post colonial world Empire State and Society assesses the external and internal forces behind these transformations The authors draw on the most recent scholarship to give due importance to social economic and cultural changes as well as politics and international diplomacy Divided into chapters both chronologically and thematically Empire State and Society enables detailed exploration of issues such as race gender religion and the environment In doing so the book provides an accessible comprehensive and balanced introduction to British history

The Imagist Poets Andrew Thacker, 2011 A clear and incisive account of the Imagists the first significant group of modernist poets writing in English **The Place of Enchantment** Alex Owen, 2006-12-15 By the end of the nineteenth century Victorians were seeking rational explanations for the world in which they lived The radical ideas of Charles Darwin had shaken traditional religious beliefs Sigmund Freud was developing his innovative models of the conscious and unconscious mind And anthropologist James George Frazer was subjecting magic myth and ritual to systematic inquiry Why then in this quintessentially modern moment did late Victorian and Edwardian men and women become absorbed by metaphysical quests heterodox spiritual encounters and occult experimentation In answering this question for the first time *The Place of Enchantment* breaks new ground in its consideration of the role of occultism in British culture prior to World War I Rescuing occultism from its status as an irrational indulgence and situating it at the center of British intellectual life Owen argues that an involvement with the occult was a leitmotif of the intellectual avant garde Carefully placing a serious engagement with esotericism squarely alongside revolutionary understandings of rationality and consciousness Owen demonstrates how a newly psychologized magic operated in conjunction with the developing patterns of modern life She details such fascinating examples of occult practice as the sex magic of Aleister Crowley the pharmacological experimentation of W B Yeats and complex forms of astral clairvoyance as taught in secret and hierarchical magical societies like the Hermetic Order of the Golden Dawn Through a remarkable blend of theoretical discussion and intellectual history Owen has produced a work that moves far beyond a consideration of occultists and their world Bearing directly on our understanding of modernity her conclusions will force us to rethink the place of the irrational in modern culture An intelligent well argued and richly detailed work of cultural history that offers a substantial contribution to our understanding of Britain Nick Freeman Washington Times **English as a Vocation** Christopher Hilliard, 2012-05-31 This book explores how a small circle of Cambridge literary critics turned into a movement that revolutionized the way English was taught and

brought popular culture into classrooms The leader F R Leavis was a well known and controversial writer The focus of this book is not on Leavis but on the people who put his ideas into practice *Modernism* Michael H. Whitworth,2008-04-15 This guide helps readers to engage with the major critical debates surrounding literary modernism A judicious selection of key critical works on literary modernism Presents a critical history from the earliest reviews to the most recent theoretical assessments Shows how modernist writers understood and constructed modernism Shows how succeeding generations have developed those constructions and brought new interpretations to bear on the subject Discusses how modernism relates to modernity and modernization and to other literary and cultural movements Texts have been selected for their relevance to the questions surrounding modernism and for their accessibility to readers with a limited knowledge of the modernist canon Includes a glossary and an annotated bibliography Popular Culture in London C.1890-1918 Andrew Horrall,2001-12-07

evoke the social and cultural worlds that gave rise to those expeditions Secular Foundations of the Liberal State in Victorian Britain William C. Lubenow, 2024 Examines the entanglement of secularity and liberality in the foundation of the modern state in Britain Modern Britain emerged from the outcome of the French Revolution and the Napoleonic Wars The rather standard Whig account of the long nineteenth century is one of growing stability progress and improvement And yet nothing was preordained or inevitable about the period s stability Ruling elites felt the constant anxieties of revolutionary terrorism As Lubenow argues it was a period of disorganization seeking organization The great nineteenth century reform acts against religious monopoly were aspects of this process of political organization While religion did not disappear these political actions gradually changed the constitutional position of religion As a result a political vacuum was created which was then filled by a secular clerisy These fit and proper persons educated in the reformed universities qualified by success in competitive examinations began to fill positions in the Civil Service and in the professions The effect was to replace the eighteenth century system of confessional loyalties with a liberal political culture based on merit Lubenow s latest study examines the work of these intertwining nineteenth century secular liberal processes Steeped deeply in archival research this book considers biographical characteristics such as education political connections and social associations but it is equally conceptually guided by categories such as liberalism and secularism It fills an important gap in the political history of nineteenth century British liberalism by taking up the question of entanglement of secularity and liberality in the foundation of the modern state **Eco-Modernism** Jeremy Diaper, 2022-11-17 In drawing together contributions from leading and emerging scholars from across the UK and America Eco Modernism offers a diverse range of environmental and ecological interpretations of modernist texts and illustrates that ecocriticism can offer fresh and provocative ways of understanding literary modernism **Practical Utopia** Anna Neima, 2022-04-28 Dartington Hall was a social experiment of kaleidoscopic vitality set up in Devon in 1925 by a fabulously wealthy American heiress Dorothy Elmhirst nee Whitney and her Yorkshire born husband Leonard It quickly achieved international fame with its progressive school craft production and wide ranging artistic endeavours Dartington was a residential community of students teachers farmers artists and craftsmen committed to revivifying life in the countryside It was also a socio cultural laboratory where many of the most brilliant interwar minds came to test out their ideas about art society spirituality and rural regeneration To this day Dartington Hall remains a symbol of countercultural experimentation and a centre for arts ecology and social justice Practical Utopia presents a compelling portrait of a group of people trying to live out their ideals set within an international framework and demonstrates Dartington s tangled affinities with other unity seeking projects across Britain and in India and America The Politics of Penal Reform Anne Logan, 2017-10-30 In the context of recent media scrutiny on the state of prisons in the UK the efficacy of incarcerating large numbers of offenders is an issue which is rising steadily up the political agenda In 2016 the Howard League for Penal Reform an organization that has energetically lobbied for improvements in the treatment of offenders throughout its lifetime

celebrated its 150th anniversary This book considers the life and work of Margery Fry the woman who created the modern Howard League and dominated it from 1918 until her death in 1958 and places the UK s oldest surviving penal reform pressure group and its current work into their historical context It examines Fry s legacy as a campaigner for an international standard of prisoners minimum rights which resulted in a United Nations charter for the introduction of compensation for victims of criminal injuries and for the abolition of the death penalty and also considers her role in the establishment of criminology as an academic discipline and her organization of the first criminology lectures in Great Britain It is essential reading for all those engaged in prisons research penal reform and criminal justice history **Learned Lives in England, 1900-1950** William C. Lubenow, 2020 If objectivity was the great discovery of the nineteenth century uncertainty was the great discovery of the twentieth century
