On Poetry: Collected Talks and Essays Robert Graves,1969 Collected Writings on Poetry Robert Graves,1995 Robert Graves was born on 24 July 1895 into a richly literary environment His father was a poet and a schools inspector He followed with firmer tread in his father s footsteps As a scholarship boy he went to Charterhouse and then to Oxford His course was interrupted by the First World War in which his poetry began to mature and in which he was famously reported slain in action in 1916 Shell shocked he went on to St John s Oxford There in 1918 his hugely prolific writing life began in earnest

The Art of Restraint Richard Hoffpauir, 1991 Richard Hoffpauir argues that the works of the best poets have found ways of not capitulating to contemporary reality and outlines the terms of the debate by setting the weaknesses of Yeats against the strenghts of Hardy Subsequent chapters discuss the nature poetry of Edward thomas the war poetry of Graves Blunden and Gurney the love poetry of Bridges Lawrence and Graves and the political and social verse of Rickword Daryush Betjeman and Larkin The New Cambridge Bibliography of English Literature: Volume 4, 1900-1950 George Watson, I. R. Willison, 1972-12-07 More than fifty specialists have contributed to this new edition of volume 4 of The Cambridge Bibliography of English Literature The design of the original work has established itself so firmly as a workable solution to the immense problems of analysis articulation and coordination that it has been retained in all its essentials for the new edition The task of the new contributors has been to revise and integrate the lists of 1940 and 1957 to add materials of the following decade to correct and refine the bibliographical details already available and to re shape the whole according to a new series of conventions devised to give greater clarity and consistency to the entries Poetry, Symbol, and Allegory Simon Brittan, 2003 Dealing with poetry is frequently problematic for the university teacher and student although undergraduates are usually responsive to discussions about drama and prose poetry often silences the classroom Unless a poem provides references easily applicable to their own lives many students feel they can t relate to the piece and are stymied In particular allegorical poetry produces tensions among the desire to find the meanings of the poet s symbolism the fear of voicing a wrong interpretation and a natural objection to perceived restrictions on interpretive freedom Poetry Symbol and Allegory eases that dilemma by providing a historical overview of theories of interpretation as they apply to symbol and allegory in poetry thereby reclaiming valuable and useful methods of analyzing poems Beginning with Plato and Aristotle Simon Brittan moves from classical theory to the lesser known medieval exegetical theories of such notables as Augustine Aquinas and Origen addresses theory pertaining to Renaissance Italy and Dante English theory of the Middle Ages the sixteenth and seventeenth centuries and the Romantic period and concludes by weighing the poetry of T E Hulme T S Eliot and Ezra Pound on the larger historical scale of literary theory By acknowledging interpretive theories of the past Brittan provides a proper historical frame of reference in which today s student can better understand figurative language in poetry Simon Brittan is an independent scholar who divides his time between England and Michigan He has taught at the

The reasons for the modern adaptations depend variously on an individual author's personal perspectives the worldview of his or her society and the individual splace in it. The various chapters therefore address issues such as why a particular model was chosen and how its retelling depends on the modern author auteur's misreading or rereading of medieval chivalric conventions. This book compliments numerous existing studies of medievalism in the Enlightenment and Victorian eras by examining more recent adaptations of the much studied Arthurian romances but primarily extends the discussion on the nature of revivals to other medieval or Renaissance chivalric texts especially the Carolingian cycle epic. The collection includes not only literary retellings of medieval texts but also some in different media such as theatre and cinema.
