**On Secret Service East of Constantinople** Peter Hopkirk, 2011-09-15 Under the banner of a Holy War masterminded in Berlin and unleashed from Constantinople the Germans and the Turks set out in 1914 to foment violent revolutionary uprisings against the British in India and the Russians in Central Asia It was a new and more sinister version of the old Great Game with world domination as its ultimate aim Here told in epic detail and for the first time is the true story behind John Buchan's classic wartime thriller *Greenmantle* recounted through the adventures and misadventures of the secret agents and others who took part in it It is an ominously topical tale today in view of the continuing turmoil in this volatile region where the Great Game has never really ceased

**The Berlin-Baghdad Express** Sean McMeekin, 2012-05-07 The modern Middle East was forged in the crucible of the First World War but few know the full story of how war actually came to the region As Sean McMeekin reveals in this startling reinterpretation of the war it was neither the British nor the French but rather a small clique of Germans and Turks who thrust the Islamic world into the conflict for their own political economic and military ends *The Berlin Baghdad Express* tells the fascinating story of how Germany exploited Ottoman pan Islamism in order to destroy the British Empire then the largest Islamic power in the world Meanwhile the Young Turks harnessed themselves to German military might to avenge Turkey's hereditary enemy Russia Told from the perspective of the key decision makers on the Turco German side many of the most consequential events of World War I Turkey's entry into the war Gallipoli the Armenian massacres the Arab revolt and the Russian Revolution are illuminated as never before Drawing on a wealth of new sources McMeekin forces us to re-examine Western interference in the Middle East and its lamentable results It is an epic tragicomedy of unintended consequences as Turkish nationalists give Russia the war it desperately wants jihad begets an Islamic insurrection in Mecca German sabotage plots upend the Tsar delivering Turkey from Russia's yoke and German Zionism midwives the Balfour Declaration All along the story is interwoven with the drama surrounding German efforts to complete the Berlin to Baghdad railway the weapon designed to win the war and assure German hegemony over the Middle East

*British Imperialism in Qajar Iran* H. Lyman Stebbins, 2016-12-18 In 1888 there were just four British consulates in the country by 1921 there were twenty three H Lyman Stebbins investigates the development and consequences of British imperialism in Iran in a time of international rivalry revolution and world war While previous narratives of Anglo Iranian relations have focused on the highest diplomatic circles in Tehran London Calcutta and St Petersburg this book argues that British consuls and political agents made the vast southern borderlands of Iran the real centre of British power and influence during this period Based on British consular archives from Bushihr Shiraz Sistan and Muhammarah this book reveals that Britain India and Iran were linked together by discourses of colonial knowledge and patterns of political military and economic control It also contextualizes the emergence of Iranian nationalism as well as the failure and collapse of the Qajar state during the Iranian Constitutional Revolution and the First World War

*Mavericks of War* Jason S Ridler, 2023-06-14 A

military historian sheds light on the maverick thinkers who hatched outlandish plots and shaped warfare from WWI to Vietnam and beyond During World War I Oxford trained archeologist Lawrence of Arabia used his knowledge of the Middle East to help organize the Arab revolt against the Ottoman Empire In this entertaining and insightful book Jason Ridler profiles the intellectuals outsiders and eccentrics who followed in Lawrence s footsteps across the next hundred years of warfare those who relied on creativity curiosity and outside the box thinking to shape battlefields from World War II and Vietnam to Iraq and Afghanistan These men were Ivy Leaguers and Oxford scholars anthropologists and archeologists Among them were an ad executive an international activist a Peace Corps veteran an migr journalist and former teenage member of the French Resistance and a diplomat These mavericks and oddballs both men and women were not always heralded or heeded and sometimes they were hated But they each challenged traditional military thought and helped win wars secure peace and change the face of modern military conflict

Nejad, 2025-08-15 The Caspian World is a wide ranging exploration of the strategic political and commercial significance of the Caspian Sea a site where empires Russian Persian Ottoman and British competed warred and collaborated As with the Mediterranean the Indian Ocean or the Black Sea the geography of the Caspian Sea creates a sphere of unique political dynamics and possibilities and the essays in this volume describe the role of the Caspian as a force of connection as well as a source of threats to the states on its shores Rather than narrating history through binary state to state relationships however The Caspian World uncovers the sea as a space of multi sided exchanges and numerous centers tracing how the Caspian has shaped the commercial intellectual diplomatic and imperial projects throughout the region Contributors Ulfat Abdurasulov Abbas Amanat Elena Andreeva George Bournoutian Iurii Demin Layla S Diba Etienne Forestier Peyrat Kevin Gledhill Guido Hausmann Kayhan A Nejad Matthew P Romaniello Saghar Sadeghian Alisa Shablovskaia Ernest Tucker Denis V Volkov Murat Ya ar Rustin Zarkar

**From Archaeology to Spectacle in Victorian Britain** Shawn Malley, 2016-04-15 In his examination of the excavation of ancient Assyria by Austen Henry Layard Shawn Malley reveals how by whom and for what reasons the stones of Assyria were deployed during a brief but remarkably intense period of archaeological activity in the mid nineteenth century His book encompasses the archaeological practices and representations that originated in Layard s excavations radiated outward by way of the British Museum and Layard s best selling Nineveh and Its Remains 1849 and were then dispersed into the public domain of popular amusements That the stones of Assyria resonated in debates far beyond the interests of religious and scientific groups is apparent in the prevalence of poetry exhibitions plays and dioramas inspired by the excavation Of particular note correspondence involving high ranking diplomatic personnel and museum officials demonstrates that the treasures brought home to fill the British Museum served not only as signs of symbolic conquest but also as covert means for extending Britain s political and economic influence in the Near East Malley takes up issues of class and influence to show how the middle class Layard s celebrity status both advanced and threatened

aristocratic values Tellingly the excavations prompted disturbing questions about the perils of imperial rule that framed discussions of the social and political conditions which brought England to the brink of revolution in 1848 and resurfaced with a vengeance during the Crimean crisis In the provocative conclusion of this meticulously documented and suggestive book Malley points toward the striking parallels between the history of Britain's imperial investment in Mesopotamia and the contemporary geopolitical uses and abuses of Assyrian antiquity in post invasion Iraq History of Central Asia, The: 4-volume set Christoph Baumer, 2018-04-18 This set includes all four volumes of the critically acclaimed History of Central Asia series The epic plains and arid deserts of Central Asia have witnessed some of the greatest migrations as well as many of the most transformative developments in the history of civilization Christoph Baumer's ambitious four volume treatment of the region charts the 3000 year drama of Scythians and Sarmatians Soviets and transcontinental Silk Roads trade routes and the transmission of ideas across the steppes and the breathless and brutal conquests of Alexander the Great and Chinghiz Khan Masterfully interweaving the stories of individuals and peoples the author's engaging prose is richly augmented throughout by colour photographs taken on his own travels This set includes The Age of the Steppe Warriors Volume 1 The Age of the Silk Roads Volume 2 The Age of Islam and the Mongols Volume 3 and The Age of Decline and Revival Volume 4

**Policing Transnational Protest** Daniel Brückenhaus, 2017-03-01 Policing Transnational Protest offers an original perspective on the history of police surveillance of anticolonial activists in France Britain and Germany in the first half of the twentieth century Tracing the undertakings of anticolonial activists from Asia Africa and the Middle East in Europe and reconstructing the reaction of European governments it illuminates the increasing cooperation of the police and secret services to monitor the activities of the oriental revolutionaries and curb their room to maneuver But those efforts had an unintended inflammatory effect provoking both supporters and opponents of colonial rule to understand the conflict in increasingly global and trans imperial terms The surveillance also exacerbated tensions between Europeans friendly to the anticolonial cause and those who prioritized imperial security over civil liberties and national sovereignty Tracking growing levels of transnational government cooperation against anticolonialists this book pays special attention to Germany where many activists were able to carry out their political work in relative safety after escaping surveillance in Britain and France By analyzing the emergence of ever more sophisticated counter terrorism schemes and surveillance apparatuses Brückenhaus also contributes a pre history of similar phenomena characterizing the post 9 11 world He shows how then as now an intensification of a war on terror went hand in hand with concerns about encroachments on civil liberties often expressed in open protest against such governance measures Policing Transnational Protest informs current debates about intelligence gathering and surveillance in several European countries as well as their new cooperative partner the United States **A Ride to Khiva** Fred Burnaby, 1997 He who once enters Khiva abandons all hope as surely as one who enters Hell His prison house is girdled with trackless deserts whose sole inhabitants are the sellers of human flesh In the winter of 1875 a young

British officer set out across central Asia on a strictly unofficial mission to investigate the latest secret Russian moves in the Great Game His goal was the mysterious caravan city of Khiva closed to all European travellers by the Russians following their seizure of it two years earlier His aim was to discover whether as many British strategists feared this remote and dangerous oasis was about to be used as a springboard for an invasion of India Captain Frederick Burnaby was already something of a legend For a start he was reputed to be the strongest man in the British Army standing six foot four and weighting fifteen stone Nor was he simply a Goliath for he spoke no fewer than seven languages including Russian and Turkish and possessed a most vigorous and colourful prose style Unknown to his superiors who would have forbidden the venture he rode for over a thousand miles across steppe and desert struggling through blizzards and snowdrifts to reach forbidden Khiva Ordered home by an alarmed government Burnaby immediately sat down and wrote this best selling account of his adventures which has become a Great Game classic      *Soviet Russia and Tibet* Alexandre Andreyev, 2021-11-22 This is the first investigation into the little known Bolshevik foreign ministry's strenuous efforts to win Lhasa over to the Soviet cause in the 1920s Examining the history of relations between Russia tsarist Soviet and post Soviet and Tibet from the 17th century to the 1990s the author puts at the core of his narrative the previously unknown story of clandestine negotiations between the Soviet government and the 13th Dalai Lama forming part of Moscow's bitter struggle against British imperialism in Asia The book provides insight into Soviet secret diplomacy and draws important conclusions relating to the history of Anglo Russian competition for Tibet and Tibet's status prior to 1951      The Imperial Aircraft Flotilla Margaret Hall, 2017-10-30 A great wave of fundraising patriotic associations followed in the wake of Great Britain's declaration of war on Germany on 4 August 1914 at home but also right across the empire The most successful public campaign of all was launched in London at the beginning of 1915 Known as the Imperial Aircraft Flotilla the scheme aimed to attract contributions towards aircraft production costs from throughout the British Empire Any country locality or community that provided sufficient funds for an entire aeroplane could have it named after them It was promised that when the machine crashed or was shot down the name would be transferred to a new one of the same type Margaret Hall examines the Imperial Aircraft Flotilla as a facet of imperial history She analyzes the fundraising efforts in Canada and Newfoundland the Zanzibar Protectorate Fiji Mauritius and the Caribbean Hong Kong the Malay states and Straits Settlements West Africa especially Gold Coast Southern Rhodesia Basutoland Swaziland and the Union of South Africa the Indian empire and Burma British subjects in independent Abyssinia and Siam in the Shanghai International Settlement and the British community of Argentina Australia and New Zealand This remarkable and detailed book discusses the propaganda and counter subversion usages of the Imperial Aircraft Flotilla and what the support for the imperial war effort reveals about contemporary national and regional identities and aspirations      **Islam and the European Empires** David Motadel, 2014-09-05 At the height of the imperial age European powers ruled over most parts of the Islamic world The British French Russian and Dutch empires

each governed more Muslims than any independent Muslim state European officials believed Islam to be of great political significance and were quite cautious when it came to matters of the religious life of their Muslim subjects In the colonies they regularly employed Islamic religious leaders and institutions to bolster imperial rule At the same time the European presence in Muslim lands was confronted by religious resistance movements and Islamic insurgency Across the globe from the West African savanna to the shores of Southeast Asia Muslim rebels called for holy war against non Muslim intruders Islam and the European Empires presents the first comparative account of the engagement of all major European empires with Islam Bringing together fifteen of the world s leading scholars in the field the volume explores a wide array of themes ranging from the accommodation of Islam under imperial rule to Islamic anti colonial resistance A truly global history of empire the volume makes a major contribution not only to our knowledge of the intersection of Islam and imperialism but also more generally to our understanding of religion and power in the modern world *Strolling About on the Roof of the World* Susan

Farrington, Hugh Leach, 2003-08-29 This book covers the first one hundred years of the Royal Society for Asian Affairs formerly the Royal Central Asian Society It is generously illustrated and includes some of the Society s previously unpublished archival photographs **Quest for Kim** Peter Hopkirk, 2012-02-16 This book is for all those who love Kim that

masterpiece of Indian life in which Kipling immortalized the Great Game Fascinated since childhood by this strange tale of an orphan boy s recruitment into the Indian secret service Peter Hopkirk here retraces Kim s footsteps across Kipling s India to see how much of it remains To attempt this with a fictional hero would normally be pointless But Kim is different For much of this Great Game classic was inspired by actual people and places thus blurring the line between the real and the imaginary Less a travel book than a literary detective story this is the intriguing story of Peter Hopkirk s quest for Kim and a host of other shadowy figures The Russian Origins of the First World War Sean McMeekin, 2013-05-06 The catastrophe of the

First World War and the destruction revolution and enduring hostilities it wrought make the issue of its origins a perennial puzzle Since World War II Germany has been viewed as the primary culprit Now in a major reinterpretation of the conflict Sean McMeekin rejects the standard notions of the war s beginning as either a Germano Austrian preemptive strike or a tragedy of miscalculation Instead he proposes that the key to the outbreak of violence lies in St Petersburg It was Russian statesmen who unleashed the war through conscious policy decisions based on imperial ambitions in the Near East Unlike their civilian counterparts in Berlin who would have preferred to localize the Austro Serbian conflict Russian leaders desired a more general war so long as British participation was assured The war of 1914 was launched at a propitious moment for harnessing the might of Britain and France to neutralize the German threat to Russia s goal partitioning the Ottoman Empire to ensure control of the Straits between the Black Sea and the Mediterranean Nearly a century has passed since the guns fell silent on the western front But in the lands of the former Ottoman Empire World War I smolders still Sunnis and Shiites Arabs and Jews and other regional antagonists continue fighting over the last scraps of the Ottoman inheritance As we seek

to make sense of these conflicts McMeekin's powerful exposé of Russia's aims in the First World War will illuminate our understanding of the twentieth century

**The Decline of Empires in South Asia** Heather A. Campbell, 2022-04-21 The post First World War period was pivotal in global history international relations and geopolitics And no more than in South Asia where for decades the Great Game in geopolitical rivalry of the two greatest modern empires Britain and Russia had dominated international relations But with the advent of Communism in Russia and growing nationalism and pan Islamism in Afghanistan Persia and India Britain's imperial standing was under threat Faced with these problems some in the British government such as Lord Curzon the dominant imperialist in the British Foreign Office fell back on what they knew old patterns of rivalry and high handedness that characterised the Great Game Not all however agreed with Curzon and with war in Afghanistan civil unrest in India and rising tensions in Persia those who opposed this Great Game mindset advocated a new way forward for British foreign relations

Victoria's Madmen C. Bloom, 2016-01-13 Victoria's Madmen is the story of those who were outcasts by temperament and choice the non conformists of the Victorian Age Clive Bloom's readable account of the dark underbelly of Victoria's Britain captures the unrest bubbling under the surface of strait laced Victorian society

**The Cambridge History of the Second World War: Volume 2, Politics and Ideology** Richard Bosworth, Joseph Maiolo, 2015-04-23 War is often described as an extension of politics by violent means With contributions from twenty eight eminent historians Volume 2 of The Cambridge History of the Second World War examines the relationship between ideology and politics in the war's origins dynamics and consequences Part I examines the ideologies of the combatants and shows how the war can be understood as a struggle of words ideas and values with the rival powers expressing divergent claims to justice and controlling news from the front in order to sustain moral and influence international opinion Part II looks at politics from the perspective of pre war and wartime diplomacy as well as examining the way in which neutrals were treated and behaved The volume concludes by assessing the impact of states politics and ideology on the fate of individuals as occupied and liberated peoples collaborators and resisters and as British and French colonial subjects

*Friedrich Rosen* Amir Theilhaber, 2020-09-07 The German lacuna in Edward Said's Orientalism has produced varied studies of German cultural and academic Orientalisms So far the domains of German politics and scholarship have not been conflated to probe the central power knowledge nexus of Said's argument Seeking to fill this gap the diplomatic career and scholarly literary productions of the centrally placed Friedrich Rosen serve as a focal point to investigate how politics influenced knowledge generated about the Orient and charts the roles knowledge played in

political decision making regarding extra European regions This is pursued through analyses of Germans in British imperialist contexts cultures of lowly diplomatic encounters in Middle Eastern cities Persian poetry in translation prestigious Orientalist congresses in northern climes leveraging knowledge in high stakes diplomatic encounters and the making of Germany's Islam policy up to the Great War Politics drew on bodies of knowledge and could promote or hinder scholarship Yet scholars never systemically followed empire in its tracks but sought their own paths to cognition On their own terms or influenced by Oriental savants they aligned with politics or challenged claims to conquest and rule
