Children and Asceticism in Late Antiquity Ville Vuolanto,2016-03-03 In Late Antiquity the emergence of Christian asceticism challenged the traditional Greco Roman views and practices of family life The resulting discussions on the right way to live a good Christian life provide us with a variety of information on both ideological statements and living experiences of late Roman childhood This is the first book to scrutinise the interplay between family children and asceticism in the rise of Christianity Drawing on texts of Christian authors of the late fourth and early fifth centuries the volume approaches the study of family dynamics and childhood from both ideological and social historical perspectives It examines the place of children in the family in Christian ideology and explores how families in the late Roman world adapted these ideals in practice Offering fresh viewpoints to current scholarship Ville Vuolanto demonstrates that there were many continuities in Roman ways of thinking about children and despite the rise of Christianity the old traditions remained deeply embedded in the culture Moreover the discussions about family and children are shown to have been intimately linked to worries about the continuity of family lineage and of the self and to the changing understanding of what constituted a meaningful life

Foucault's Nietzschean Genealogy Michael Mahon, 1992-01-01 This is the first full length study of the impact of Friedrich Nietzsche s writings on the thought of French philosopher Michel Foucault Focusing on the notion of genealogy in the thought of both Nietzsche and Foucault the author explores the three genealogical axes truth power and the subject as they gradually emerge in Foucault s writings This complex of axes into which Foucault was drawn especially as a result of his early history of madness called forth his explicit adoption of a Nietzschean approach to his future work By interpreting Foucault s *Histoire de la folie* in the light of Nietzsche s genealogy of tragedy Mahon shows how the moral problematization of madness in history provides the historical conditions from which the three axes emerge After tracing the gradual emergence of the three axes through Foucault s writings of the remainder of the 1960s especially *Les Mots et les choses* Mahon turns to Foucault s explicit methodological statements and his notion of genealogy and offers a reading of Foucault s *L archeologie du savoir* arguing that there is no chasm between Foucault s archaeological writings and his genealogies The work concludes with an analysis of Foucault s final writings on the genealogy of modern subjectivity and an examination of how truth power and the subject operate for the modern psychoanalytic subject of desire
