On Being Responsible Issues In Personal:

Personal Responsibility and Christian Morality Josef Fuchs, 1983-05-01 In this volume Josef Fuchs has brought together 12 important essays which consider various aspects of the relationship between Christian morality and human behavior Among the subjects he discusses are the connections between moral theology and Christian experience the absolute character of moral norms and the importance of ethical reflection in shaping the future of the human race **On Being Responsible. Issues in Personal Ethics. Edited by James M. Gustafson and James T. Laney** James M. Gustafson, James Thomas LANEY, 1969 **Polarization and the Politics of Personal Responsibility** Mark D. Brewer, Jeffrey M. Stonecash, 2015 Contemporary American politics is highly polarized and it is increasingly clear that this polarization exists at both the elite and mass levels What is less clear is the source of this polarization Social issues are routinely presented by some as the driver of polarization while others point to economic inequality and class divisions Still others single out divisions surrounding race and ethnicity or gender or religion as the underlying source of the deep political divide that currently exists in the United States All of these phenomena are undoubtedly highly relevant in American politics and it is also beyond question that they represent significant cleavages within the American polity We argue however that disagreement over a much more fundamental matter lies at the foundation of the polarization that marks American politics in the early 21st century That matter is personal responsibility Some Americans fervently believe that an individual's lot in life is primarily if not exclusively his or her own responsibility Opportunity is widespread in American society and individuals succeed or fail based on their own talents and efforts Society greatly benefits from such an arrangement and as such government policies should support and reward individual initiative and responsibility Other Americans see personal responsibility while fine in theory as an unjust organizing principle for contemporary American society For these Americans success or failure in life is far too often not the result of personal effort but of large forces well beyond the control of the individual Opportunity is not widespread and is by no means equally available to all Americans In light of these basic facts of American life it is the responsibility of the state to step in and implement policies that alleviate inequality and assist those who fail by no fault of their own These basic differences surrounding the idea of personal responsibility are what separate Republicans and Democrats conservatives and liberals in contemporary American politics **Teaching Personal and Social Responsibility through Physical Activity** Don Hellison, Paul M. On Being Responsible James M. Gustafson, James T. Laney, 1969 **Personal Responsibility Counselling And Therapy** Richard Nelson Jones, 2022-03-01 First Published in 1988 All counselling approaches are means to helping people stand on their own two feet and assume effective responsibility for their lives Thus personal responsibility becomes an obvious integrating focus

Though the concept gets implicitly or explicitly emphasized in all existing theoretical positions none has provided the deserved coverage Focusing on personal responsibility is almost like focusing on one's nose Though right in front of the face the concept is not always easy to observe This book aims at integration in a number of ways It rejects the narrow my theory right or wrong approach to counselling Theoretical concepts and practical interventions are derived from a number of different sources including the research literature The book does not take a one dimensional approach to behaviour in emphasizing people's actions alone Instead it takes a three dimensional approach emphasizing feelings thoughts and actions

Teachers who Teach Teachers Tom Russell, F. A. J. Korthagen, Fred A. J. Korthagen, 1995 *Teachers Who Teach Teachers* is a major contribution to an emerging literature in which teacher educators are beginning to explore the new challenges facing those who care about the quality of teaching in schools and in teacher education programmes In this volume the contributors consider the personal development of both new and experienced teacher educators illustrating just how strongly teacher educators are influenced by their visions and by the challenge to prove themselves in the university setting They look at ways in which teacher educators have acted to promote their own professional development and study their own practices including writing as a tool for reflection Finally the contributors take a broader look at the professional development of teacher educators and the challenge to all teacher educators to consider the tension between rigour and relevance
