MEDLARS and Health Information Policy United States. Congress. Office of Technology Assessment,1982 The objectives of this technical memorandum are 2 fold to examine the US National Library of Medicine s NLM role in the creation and distribution of computerized health related bibliographic information in light of the private sector s presence in this field and the public interest and to examine MEDLARS effectiveness in disseminating bibliographic health related information 5 chapters describe the development current status and future plans for MEDLARS databases and online services discuss system issues related to the effectiveness of MEDLARS in disseminating bibliographic health related information review private sector health related databases and commercial information services focus on the considerations underlying the current debate on the appropriate role of the government in information transfer and analyze the domestic and international implications of

changing the range and pricing structure of MEDLARS computerized products and services Since its inception MEDLARS has become more sophisticated accessible and inclusive and MEDLARS 2 the library's current system is utilized more than any other system by health communities in the US and abroad The development of MEDLARS parallels the evolution in medical bibliography that began in the 1950s with the 1st attempt to apply computer technologies to information processing The system's 1st database MEDLINE was a byproduct of the computerized production of the printed Index Medicus Index Medicus continues to provide physicians and other health professionals the major access to biomedical literature worldwide NLM is continuously refining MEDLARS 2 to extend its capabilities The system has evolved into a complex multiprocessing system that maintains data files provides online retrieval services and produces computer photocomposed publications MEDLARS 2 contains almost 20 databases The machine readable data tape that is the source of data for MEDLINE is used to produce Index Medicus and other publications MEDLINE with its related backfiles is the largest database in MEDLARS and is the most extensively used Literature selection is used as a quality filter for the indexed biomedical literature database The selection process is highly structured and involves a critical review of the literature by a panel of expert consultants In fiscal year 1981 NLM conducted over 2 million online searches fully 1/3 of all such searches performed in the US MEDLARS 2 allows for direct communication with the computer in online interactive fashion

Positive or Negative? The Effect of Emerging Technologies and Products on Mental Health Chao Guo, Stuart Gilmour, Peige Song, Aiping Fang, 2023-11-02

Emerging technologies and products such as digital health technology computing platforms wearable devices smartphone sensors and electronic gadgets have the potential to transform and empower society while simultaneously presenting unprecedented challenges in our life Some like electronic cigarettes e-cigarettes are for entertainment some like online conference platforms are for convenience and some like social media have become a life necessity However there is an ongoing debate about whether the use of physical and virtual digital technology products can do harm to mental health Some evidence based research shows that frequent use of social media may cause depression and anxiety and derived behavioral phenomena like cyberbullying and game addiction which negatively affect people's lives Other scholars think digital technology products could provide insights into timely personalized engaging and accessible intervention promotion and improvement of mental health Given the ubiquity of digital devices and their complex and subtle associations with mental health more research is needed to bring benefits to both research and daily life practices

stoichiometry lab the reaction of iron with copper ii sulfate - Oct 05 2022

web stoichiometry lab the reaction of iron with copper ii sulfate the study of stoichiometry deals with the calculation of quantities in a chemical reaction how much product will be produced how much reactant do you need to make that much product

stoichiometry lab iron and copper ii sulfate ppt - Feb 26 2022

web description great lab for use during stoichiometry unit in chemistry reinforces ideas of mole ratios and stoichiometry calculations by measuring the mass of iron that reacts and the mass of copper metal produced students can calculate the ratio of moles of reactant to moles of product this experimental mole ratio from lab can be compared

stoichiometry the reaction of iron with copper ii sulfate - Jun 13 2023

web in this experiment we will use stoichiometric principles to deduce the appropriate equation for the reaction between metallic iron and a solution of copper ii sulfate this reaction produces metallic copper which is seen precipitating as a finely divided red powder

lab stoichiometry iron with copper ii sulfate pdf scribd - Nov 06 2022

web in this lab we will use experimental evidence and the principles of stoichiometry to determine which ion is formed in a single replacement reaction between iron and copper ii sulfate pre lab assignment in preparation for the lab activity we will investigate another single replacement reaction between copper and silver nitrate

lab report 4 iron copper ii sulfate studocu - Aug 15 2023

web through this experiment we sought to use stoichiometric principles which derive from stoichiometry the study of substance quantities in ratio or proportion in a chemical reaction in this lab experiment the principles help distinguish the equation between iron powder and aqueous copper ii sulfate in the iron copper ii sulfate redox reaction

lab 4 lab 4 stoichiometry of iron copper ii sulfate redox - Jan 08 2023

web this experiment is focused on a reaction between iron metal and a solution of copper ii sulfate we are able to figure out the chemical equation between the two by using stoichiometric principles the iron displaces the copper ii sulfate ions the copper ii is then reduced and gains electrons

lab report 4 stoichiometry of iron copper ii sulfate - Dec 07 2022

web stoichiometry can be defined as the relationship between the relative quantities of substances taking part in a reaction or forming a compound stoichiometric principles can be used to deduce the appropriate chemical equation for a reaction in our experiment we used solid iron in the form of powder was added to a solution of copper ii sulfate

lab report 4 stoichiometry of iron copper ii sulfate - Feb 09 2023

web stoichiometric principles can be used to determine the chemical equation between iron powder and aqueous copper ii sulfate in the iron copper ii sulfate redox reaction the iron ions dissolve in the copper ii sulfate solution to produce copper ii ions

stoichiometry reaction of iron with copper ii sulfate - Apr 11 2023

web lab 4 stoichiometry the reaction of iron with copper ii sulfate revised 8 19 2009 1 introduction in this experiment we will use stoichiometric principles to deduce the appropriate equation for the reaction between metallic iron and a solution of copper ii sulfate this reaction produces

lab report copper iron stoichiometry 1522 words cram lab report - Mar 30 2022

web under the finalize of the experiment it was found that iron was the limiting reactant and iron ii sulfate was a product of the reaction between 7 0002g away cooper ii sulfate and 2 0101g iron metal which produced 2 3037g of copper product with a percent yield of 100 72 introduction

lab report stoichiometry the reaction of iron with copper ii sulfate - Aug 03 2022

web stoichiometry lab report the reaction of iron with copper ii sulfate period 5 in this experiment i observed the reaction of iron with copper ii sulfate i obtained the results to this experiment through adding heated CuSO_4 solution to the iron powder stirring the solution adding water then removing water adding acetone heating the acetone on low
