Statistics of Land-grant Colleges and Universities United States. Office of Education, 1913 A Catalog of Books Belonging to the Lower Hall of the Central Department, in the Classes of History, Biography, and Travel Boston Public Library, 1873 *Luise Gottsched the Translator* Hilary Brown, 2012 Critics have paid increasing attention to the oeuvre of Luise Gottsched 1713-62 Germany's first prominent woman of letters but have neglected her lifelong work of translation which encompassed over fifty volumes and an extraordinary range from drama and poetry to philosophy history archeology even theoretical physics This first comprehensive overview of Gottsched's translations places them in the context of eighteenth century intellectual literary and cultural history showing that they were part of an ambitious progressive program undertaken with her famous husband to shape German culture during the Enlightenment In doing so it casts Gottsched and her work in an entirely new light Including chapters on all the main subject areas and genres from which Gottsched translated it also explores the relationship between her translations and her original works demonstrating that translation was central to her oeuvre A bibliography of Gottsched's translations and source texts concludes the volume *Giving People Ideas - Text and Concept* Godela Weiss-Sussex, 2017-12-02 A special double issue of Publications of the English Goethe Society to celebrate the 70th birthday of Professor Martin Swales UCL UK This volume collects papers from a conference held at the Institute of Germanic and Romance Studies in October 2010 The conference aimed to analyse how literary texts articulate and give voice to ideas and ideologies In contrast to most philosophy literature rarely makes claims to systematic conceptual rigour Literary statements are always conjectural they are also conditioned by the conventions of the genre in which they are made Because literature is such a hypothetical medium of expression it is uniquely suited to philosophical experimentation Indeed because literature invokes imagined or remembered experience it functions as a laboratory in which ideas may be tested against experience Literature's formal qualities which allow for statement and counter statement move and counter move make it a highly sophisticated mode of discourse in which to test out ideas Concepts can be played against each other and genre conventions may be adhered to or subverted in order to create multiple layers of signification The papers presented are published here in this special issue of Publications of the English Goethe Society and take account of German or European poetry drama or prose literature from 1750 to the present day **Divergent Paths** Norman Levine, 2006-02-13 *Divergent Paths* is the first volume of a groundbreaking three volume work Its purpose is to explore the relationship between Hegel and Marx to define the relationship between Hegel and Engels and to distinguish between the theories of Marxism and Engelsism Marx used Feuerbach towards the critique and ultimate transformation of Hegel's phenomenology and humanism This transformation which cut out Hegel's idealism by identifying the environment in which people produced their sustenance as the subject of history marks the genesis of historical materialism Marx continued to use Hegel's logical categories In chapter three of *Divergent Paths* Norman Levine conducts an in depth study of Marx's 1841 doctoral dissertation *The Difference Between Democritus and Epicurus* Philosophy of Nature It is the center of gravity and

controversy of Levine's study. Placed alongside Hegel's Philosophy of History, Levine isolates the categories Marx appropriated from Hegel to show conclusively that Marx was not a dialectical materialist. Levine then claims that Engels totally distorted the Hegelian legacy and this debasement is enshrined in his 1887 essay *Ludwig Feuerbach and The End of Classical German Philosophy*. Levine brilliantly locates Marxism as the theory of Marx and Engelsism the theory of Engels. According to Levine, both embodied a separate view of history and society and their contradictions are expressive in part of their divergent receptions of Hegel. This is an analysis like no other published to date with two more volumes planned. Philosophers, sociologists, anthropologists, and historiographers of Marx and Engels cannot afford to miss this study.

Beyond 1989 K. Bullivant, 1997-09-01. With the fall of the Berlin Wall in November 1989, four decades of separation seemed to have been brought to an end. In the literary arena, as in many others, this seemed to be the surprising but ultimately logical end to the situation in which, after the extreme separation of the two Germanies, literatures during most of the period up to 1980, an increasing closeness could be observed. During the 1980s, as relations between the two German states normalized, with the opening up of the East in the Autumn of 1989, claims were being made on the one hand that German literature had never in fact been divided while others were proclaiming the end of East and West German literatures as they had existed and the beginning of a new era. This volume examines these claims and other aspects of literary life in the two Germanies since 1945, with the hindsight born of unification in 1990, as well as looking at certain aspects of developments since the fall of the Wall when, as on East German soil, it in 1996, rapprochement came to an end. **A**

Literary drafts are a constant in literatures of all ages and linguistic areas, and yet their role in writing processes in various traditions has seldom been the subject of systematic comparative scrutiny. In 38

chapters written by leading experts in many different fields this book charts a comparative history of the literary draft in Europe and beyond It is organised according to eight categories of comparison distributed over the volume s two parts devoted respectively to Text i e the textual aspects of creative processes and Beyond Text i e aspects of creative processes that are not necessarily textual Across geographical temporal linguistic generic and media boundaries to name but a few this book uncovers idiosyncrasies and parallels in the surviving traces of human creativity while drawing the reader s attention to the materiality of literary drafts and the ephemerality of the writing process they capture
