Becoming Gentlemen Lani Guinier, 1997-12-10 The challenge then is not to invent new victims or new scapegoats but to mobilize America for the future What would it take to ensure that all of us can succeed at getting the job done the problem solved and the future more secure As a student at Yale Law School in 1974 Lani Guinier attended a class with a white male professor who addressed all the students male and female as gentlemen To him the greeting was a form of honorific evoking the values of traditional legal education To her it was profoundly alienating Years later Guinier began a study of female law students with her colleagues Michelle Fine and Jane Balin to try to understand the frustrations of women law students in male dominated schools Women are now entering law schools in large numbers but too often many still do not feel welcome As one says I used to be very driven competitive Then I started to realize that all my effort was getting me nowhere I just stopped caring I am scarred forever After interviewing hundreds of women with similar stories the authors conclude that conventional one size fits all approaches to legal education discourage many women who could otherwise succeed and even more fail to help all students realize their full potential as legal problem solvers In *Becoming Gentlemen* Guinier Fine and Balin dare us to question what it means to become qualified what a fair goal in education might be and what we can learn from the experience of women law students about teaching and evaluating students in general Including the authors original study and two essays and a personal afterword by Lani Guinier the book challenges us to work toward a more just society based on ideals of cooperation the resources of diversity and the values of teamwork

The Palgrave International Handbook of Women and Outdoor Learning Tonia Gray, Denise Mitten, 2018-05-12 This Handbook serves as a starting point for critical analysis and discourse about the status of women in outdoor learning environments OLEs Women choose to participate actively in outdoors careers many believing the profession is a level playing field and that it offers alternatives to traditional sporting activities They enter outdoor learning primarily on the strength of their enthusiasm for leading and teaching in natural

environments and assume the field is inclusive rewarding excellence regardless of age gender socioeconomic status disability or ethnicity However both research and collective experiences in OLEs suggest that many women feel invisible relegated marginalized and undervalued In response to this marginalization this Handbook celebrates the richness of knowledge and practices of women practitioners in OLEs Women scholars and practitioners from numerous fields such as experiential outdoor education adventure education adventure therapy and gender studies explore the implications of their research and practice using poignant examples within their own disciplines These insights emerge from similar life experiences as women and outdoor leaders in the 1970s to the present Social inequalities still abound in OLEs and the Handbook ensures that the contributions of women are highlighted as well as the work that needs to be done to make these spaces inclusive Global in perspective and capacious in content this one stop volume is an indispensable reference resource for a diverse range of academics including students and researchers in the fields of education psychology sociology gender studies geography and environment studies as well as the many outdoors fields
