On Political Means And Social Ends:

Consciousness, Reality and Value Pierfrancesco Basile, Leemon B. McHenry, 2013-05-02 Timothy Sprigge has been a major player on the philosophical scene contributing to discussions as diverse as consciousness the ontology of time personal identity animal rights punishment censorship and wider issues in metaphysics ethics and the history of philosophy He is however less well known for his own highly original system of metaphysics and ethics a synthesis of Absolute Idealism panpsychism and utilitarianism The contributions gathered in this volume written by philosophers of international reputation or by acknowledged scholars in their specialized fields of inquiry engage themes in his metaphysics and ethics and provide a critical assessment of his ideas and arguments In a concluding essay Sprigge answers the most significant objections raised by his critics the final result is an engaging dialogue on the perennial and most fundamental questions of philosophy

After the Terror Ted Honderich, 2003 Did we have a responsibility for what took place on September 11 Did we respond to it as we should have What are we to do now *After the Terror* inquires into the natural fact of morality and the worked out moralities of philosophers It reaches to the moral core of our lives

The Making of British Socialism Mark Bevir, 2011-08-22 A compelling look at the origins of British socialism *The Making of British Socialism* provides a new interpretation of the emergence of British socialism in the late nineteenth century demonstrating that it was not a working class movement demanding state action but a creative campaign of political hope promoting social justice personal transformation and radical democracy Mark Bevir shows that British socialists responded to the dilemmas of economics and faith against a background of diverse traditions melding new economic theories opposed to capitalism with new theologies which argued that people were bound in divine fellowship Bevir utilizes an impressive range of sources to illuminate a number of historical questions Why did the British Marxists follow a Tory aristocrat who dressed in a frock coat and top hat Did the Fabians develop a new economic theory What was the role of Christian theology and idealist philosophy in shaping socialist ideas He explores debates about capitalism revolution the simple life sexual relations and utopian communities He gives detailed accounts of the Marxists Fabians and ethical socialists including famous authors such as William Morris and George Bernard Shaw And he locates these socialists among a wide cast of colorful characters including Karl Marx Henry Thoreau Leo Tolstoy and Oscar Wilde By showing how socialism combined established traditions and new ideas in order to respond to the changing world of the late nineteenth century *The Making of British Socialism* turns aside long held assumptions about the origins of a major movement

Violence, Victims, Justifications Felix Ó Murchadha, 2006 Violence is a central issue of contemporary society at all levels affecting human relationships from the most intimate to the most impersonal But what is violence Is violence justifiable What relevance does the fate of the victim of violence have to such questions To address these and similar questions this volume brings together thinkers from a wide range of philosophical backgrounds who employ a rich variety of methods ranging from the strictly analytic to the postmodern They

explore issues such as responsibility provocation violation cruelty self determination and deception in attempting to understand violence in relation both to the suffering of its victims and the justifications offered by its perpetrators and their supporters In exploring these issues the essays collected in this volume explore terrorism rape genocide and state sponsored violence *Humanity, Terrorism, Terrorist War* Ted Honderich,2006-07-10 Ted Honderich presents an intelligent inquiry into the highly controversial topic of terrorism looking in turn at Palestine 9 11 Iraq and 7 7 **The Collected Works of Eric Voegelin, Volume 26, History of Political Ideas, Volume VIII, Crisis and the Apocalypse of Man** Eric Voegelin,1999-07 **Philosophy of Human Rights** Anat Biletzki,2019-11-05 An introductory text to the philosophy of human rights this book provides an innovative systematic study of the concepts ideas and theories of human rights It examines the principal philosophical issues that arise in specific areas of rights such as women s rights minority rights or disability rights and addresses the human rights aspects of world problems such as global poverty and humanitarian intervention Along with the presentation of these established subjects the book provides a vibrant critique of both the liberal fundamentals of human rights and the legal and political aspects of the concrete practice by individuals and organizations Key Features Presents a thorough philosophical introduction to human rights for anyone from any subject e g international law politics public policy philosophy While grounded in philosophy demonstrates a clear organized understanding of real world aspects of the field with a deep analysis of vital current issues Is attentive to critical stances on human rights and to stultifying privations in the field Offers a well organized overall structure moving from historical treatment to conceptual analysis to a set of current issues and finally to criticism *The Broadview Anthology of Social and Political Thought* ,

The Political Economy of Change Norman T. Uphoff,Warren F. Ilchman,2018-04-17 Ilchman and Uphoff believe that political science has failed in the past to meet its own standards of rigor and cogency and does not meet standards of usefulness and relevance set by others The Political Economy of Change attempts to remedy these shortcomings by expanding the limits of social science analysis to deal with problems of allocation and productivity in all spheres of public choice not just the economic sphere **The Parliamentary Debates (official Report).** Great Britain. Parliament. House of Commons,1915 **Contemporary British Fiction and the Cultural Politics of Disenfranchisement A.** Beaumont,2015-12-05 By examining the representation of urban space in contemporary British fiction this book argues that key to the political left s strategy was a model of action which folded politics into culture and elevated disenfranchisement to the status of a political principle *Subjectivity in Political Economy* David P. Levine,2005-06-23 This book explores the way political economy understands human motivation In it the author argues that the assumptions typically made by economists regarding want and choice cannot adequately lay a foundation for answering important questions about the design of economic institutions and the appropriate use of markets This volume offers an exciting and unusual contribution to political economy offering a novel integration of the insights of political economy philosophy and psychology applying them to vital

foundational issues in political economy **The Political Theory of Political Thinking** Michael Freeden, 2013-08-08 This book is the first to explore systematically what it means to think politically Using detailed contemporary and historical material and investigating both professional and amateur forms of political thinking this study challenges much accepted wisdom on the topic arguing that it is to be approached as a cluster of interacting features **Liberation Theology after the End of History** Daniel Bell, 2006-09-07 Daniel Bell assesses the impact of Christian resistance to capitalism in Latin America and the implications of theological debates that have emerged from this He uses postmodern critical theory to investigate capitalism its effect upon human desire and the Church's response to it in a thorough account of the rise failure and future prospects of Latin American liberation theology **Planning, Politics and the State** Nicholas Low, 2013-09-13 First Published in 1990 John Maynard Keynes once made the bold prediction that the three hour work day would prevail for his grandchildren's generation Seventy years later the question of working time is as pertinent as it was at the inception of the 40 hour week Not until now however has there been a global comparative analysis of working time laws policies and actual working hours Despite a century long optimism about reduced working hours and some progress in legal measures limiting working hours this book demonstrates that differences in actual working hours between industrialized and developing countries remain considerable without any clear sign of hours being reduced This study aims to offer some suggestions about how this gap can begin to be closed most basic questions facing planning theory and practice today The author argues that it is not plans that determine the shape of cities but political processes In the 1980s state planning came under siege planners had to justify their existence to politicians the business world and the public Though planning must still be accountable neither the complete domination of the market nor traditional post war planning ideologies are wholly acceptable in the 1990s A new agenda and a major rethinking of planning from first principles is required but what form should this take Showing that political theory provides the proper foundation for understanding planning practice the book explores in turn assenting and dissenting planning paradigms Exploration of the former begins with Weber and moves through pluralism corporatism and neo liberalism Dissenting theory is organized around the work of Marx orthodox neo Marxism Gramsci's philosophy of praxis the critical theory of the Frankfurt School and the work of Habermas The author concludes with a presentation of an integrated political perspective upon planning and the state Rethinking Political Obligation D. Mokrosinska, Dorota Mokrosinska, 2012-07-31 What are the grounds for and limits to obedience to the state This book offers a fresh analysis of the debate concerning the moral obligation to obey the state develops a novel account of political obligation and provides the first detailed argument of how a theory of political obligation can apply to subjects of an unjust state *A Memoir of the Political Life of the Right Honourable Edmund Burke* George Croly, 1840 **Ending Wars Justly** David K. Chan, 2025-04-15 This volume features original essays on the ethics of ending wars *jus ex bello* It fills a significant gap in just war theory and sets the stage for other thinkers to engage with the topic What makes questions about

jus ex bello especially difficult for ethicists to answer is that the just war tradition has neglected to develop principles for ending wars justly Until recently debates have primarily focused on justice in going to war jus ad bellum justice in fighting a war jus in bello and justice after war jus post bellum Additionally many contemporary conflicts are unconventional and not the kind that the traditional principles of just war theory are designed to address The chapters in this volume address the question of how and when wars can end justly Part 1 approaches jus ex bello from different theoretical angles including just war theory virtue ethics pacifism and feminism Part 2 discusses specific aspects of recent wars the United States withdrawal from Afghanistan after 20 years of military involvement in the country and the war that began with the Russian invasion of Ukraine in 2022 that is so difficult to end despite the escalating human cost Ending Wars Justly is an essential resource for scholars and advanced students working in just war theory the ethics of war and peace international relations and military and strategic studies

United Empire, 1921 *Alternative and Activist New Media* Leah Lievrouw, 2011-02-21 *Alternative and Activist New Media* provides a rich and accessible overview of the ways in which activists artists and citizen groups around the world use new media and information technologies to gain visibility and voice present alternative or marginal views share their own DIY information systems and content and otherwise resist talk back to or confront dominant media culture Today a lively and contentious cycle of capture cooptation and subversion of information content and system design marks the relationship between the mainstream center and the interactive participatory edges of media culture Five principal forms of alternative and activist new media projects are introduced including the characteristics that make them different from more conventional media forms and content The book traces the historical roots of these projects in alternative media social movements and activist art including analyses of key case studies and links to relevant electronic resources *Alternative and Activist New Media* will be a useful addition to any course on new media and society and essential for readers interested in new media activism
