On Shares Ed Brown, Jane Maguire, 1975-01-01 **The Harvard Guide to African-American History** Evelyn Brooks Higginbotham, 2001 This massive guide sponsored by the W E B Du Bois Institute for Afro American Research at Harvard University and compiled by renowned experts offers a compendium of information and interpretation on over 500 years of black experience in America **On Shares** Jane Maguire, 1976-02-01 **Just Harvest** Greg Francis, 2021-05-18 Just Harvest The Story of How Black Farmers Won the Largest Civil Rights Case Against the U S Government details the improbable story of how an African American attorney helped orchestrate the largest civil rights discrimination settlement in US history Greg Francis provides readers with behind the scenes details of a class action lawsuit that led to about 18 000 Black farmers mostly from the South receiving checks totaling 1.2 billion In this gripping underdog story Francis details how so many Black farmers who were promised forty acres and a mule more than a century ago faced decades of systemic discrimination by federal officials who denied them loans and other assistance because of the color of their skin At issue was the inability of Black farmers or other Blacks who wanted to farm to get loans and grants from the US Department of Agriculture as a result of discrimination at local offices primarily in the Southeast The systemic discrimination caused Black farmers to lose 80 percent of their land In 1910 there were 925 000 African American farms in the US Today there are fewer than 18 000 book jacket **Black Market** Aaron Carico, 2020-04-28 On the eve of the Civil War the estimated value of the U S enslaved population exceeded 3 billion triple that of investments nationwide in factories railroads and banks combined and worth more even than the South's lucrative farmland Not only an object to be traded and used the slave was also a kind of currency a form of value that anchored the market itself And this value was not destroyed in the war Slavery still structured social relations and cultural production in the United States more than a century after it was formally abolished As Aaron Carico reveals in Black Market slavery's engine of capital accumulation was preserved and transformed and the slave commodity survived emancipation Through both archival research and lucid readings of literature art and law from the plight of the Fourteenth Amendment to the myth of the cowboy Carico breaks open the icons of liberalism to expose the shaping influence of slavery's political economy in America after 1865 Ultimately Black Market shows how a radically incomplete and fundamentally failed abolition enabled the emergence of a modern nation state in which slavery still determined and now goes on to determine economic political and cultural life **Driven to the Field** David A. Davis, 2023-02-21 Driven to the Field traces the culture of sharecropping crucial to understanding life in the southern United States from Emancipation to the twenty first century By reading dozens of works of literature in their historical context David A Davis demonstrates how sharecropping emerged endured for a century and continues to resonate in American culture Following the end of slavery sharecropping initially served as an expedient solution to a practical problem but it quickly developed into an entrenched power structure situated between slavery and freedom that exploited the labor of Blacks and poor whites to produce

agricultural commodities Sharecropping was the economic linchpin in the South's social structure and the region's political system race relations and cultural practices were inextricably linked with this peculiar form of tenant farming from the end of the Civil War through the civil rights movement Driven to the Field analyzes literary portrayals of this system to explain how it defined the culture of the South revealing multiple genres of literature that depicted sharecropping such as cotton romances agricultural uplift novels proletarian sharecropper fiction and sharecropper autobiographies important works of American literature that have never before been evaluated and discussed in their proper context **Rice on Shares** Lucy Jarosz,1990 *Touched with Fire* David E. From Can See to Can't Thad Sitton, Dan K. Utley, 2010-01-01 Cotton farming was the only way of life that many Texans knew from the days of Austin's Colony up until World War II For those who worked the land it was a dawn till dark can see to can't process that required not only a wide range of specialized skills but also a willingness to gamble on forces often beyond a farmer's control weather insects plant diseases and the cotton market This unique book offers an insider's view of Texas cotton farming in the late 1920s Drawing on the memories of farmers and their descendants many of whom are quoted here the authors trace a year in the life of south central Texas cotton farms From breaking ground to planting cultivating and harvesting they describe the typical tasks of farm families as well as their houses food and clothing the farm animals they depended on their communities and the holidays activities and observances that offered the farmers respite from hard work Although cotton farming still goes on in Texas the lifeways described here have nearly vanished as the state has become highly urbanized Thus this book preserves a fascinating record of an important part of Texas rural heritage

Singleton, 2016-09-16 This volume represented a compilation of interdisciplinary research being done throughout the American South and the Caribbean by historians archaeologists architects anthropologists and other scholars on the topic of slavery and plantations It synthesizes materials known through the 1980s and reports on key sites of excavation and survey in the Carolinas Barbados Louisiana and other locations Contributors include many of the leading figures in historical archaeology

Consumer Choice in Historical Archaeology S.M. SpencerWood, 2013-06-29 Historical archaeology has

made great strides during the last two decades Early archaeological reports were dominated by descriptions of features and artifacts while research on artifacts was concentrated on studies of topology technology and chronology Site reports from the 1960s and 1970s commonly expressed faith in the potential artifacts had for aiding in the identifying socioeconomic status differences and for understanding the relationships between the social classes in terms of their material culture An emphasis

was placed on the presence or absence of porcelain or teaware as an indication of social status. These were typical features in site reports written just a few years ago. During this same period advances were being made in the study of food bone as archaeologists moved away from bone counts to minimal animal counts and then on to the costs of various cuts of meat. Within the last five years our ability to address questions of the relationship between material culture and socioeconomic status has greatly expanded. The essays in this volume present efforts toward measuring expenditure and consumption patterns represented by commonly recovered artifacts and food bone. These patterns of consumption are examined in conjunction with evidence from documentary sources that provide information on occupations, wealth levels, and ethnic affiliations of those that did the consuming. One of the refreshing aspects of these papers is that the authors are not afraid of documents and their use of them is not limited to a role of confirmation.

The New South, 1945-1980 Numan V. Bartley, 1995. First published in 1955 to wide acclaim. T. Harry Williams' P. G. T. Beauregard is universally regarded as the first authoritative portrait of the Confederacy's always dramatic, often perplexing general. Chicago Tribune: Chivalric, arrogant, and of exotic Creole Louisiana origin, Beauregard participated in every phase of the Civil War from its beginning to its end. He rigidly adhered to principles of war derived from his studies of Jomini and Napoleon, and yet many of his battle plans were rejected by his superiors who regarded him as excitable, unreliable, and contentious. After the war, Beauregard was almost the only prominent Confederate general who adapted successfully to the New South, running railroads and later supervising the notorious Louisiana Lottery. This paradox of a man who fought gallantly to defend the Old South and then helped industrialize it is the fascinating subject of Williams' superb biography.

African-American Gardens and Yards in the Rural South Richard Noble Westmacott, 1992. Slave families could assert some measure of independence and perhaps find some degree of spiritual refreshment. Since slavery, working the garden for the survival of the family has become less urgent, but now pleasure is taken from growing flowers and produce and in welcoming friends to the yard. Similarities in attitude between rural southern blacks and whites are reflected in the expression of such values as the importance of the agrarian lifestyle, self-reliance, and American Families. Stephanie Coontz, Maya Parson, Gabrielle Raley, 1999. This collection by leading scholars discusses race, gender, and class, stressing their effects on American families. It emphasizes the many varied formations of the family and the ways in which government policy, class, race, and gender both past and present affect these various family formations in different ways.

Generations Women in the South Joy Elvey Lamm, Pauli Murray, Sara Evans, Cynthia Washington, Margaret Rose Gladney, Virginia Rudder, Rayna Green, Lee Howard, Lee Smith, Jeanne Ormond, Jo Ann Robinson, Lillian Smith, Anne Braden, Sean Devereux, Alice Walker, Ellen Stein, Mary Frederickson, Kathy Gleason, Wendy Watriss, Priscilla Parish Williams, Birthalene Miller, Lee Robinson, Len Stanley, John Florin, Ann Deagon, Jeanie Thompson. The time has come, Lillian Smith wrote in 1962, for women to risk the great and daring creative act of discovering and articulating their own identity. Three years later Southern women of a younger generation, fortified by the skills and self-respect earned in

the black civil rights movement issued the first manifesto of a new feminism Their words landed with explosive force setting off cultural reverberations which have shaken the lives of men and women alike A little more than a decade after that this issue of Southern Exposure began to take form Its creation has taken us back into history and deep into the meaning of our own lives As we set out to understand the situation of Southern women we found ourselves in search of our mothers gardens We found ourselves naming an experience we share across the generations So many of the stories that I write Alice Walker discovered are my mother s stories To speak in our own voices we had first to give expression to a promise song that has been there all along *The "Underclass" Debate* Michael B. Katz,2018-06-05 Do ominous reports of an emerging underclass reveal an unprecedented crisis in American society Or are social commentators simply rediscovering the tragedy of recurring urban poverty as they seem to do every few decades Although social scientists and members of the public make frequent assumptions about these questions they have little information about the crucial differences between past and present By providing a badly needed historical context these essays reframe today s underclass debate Realizing that labels of social pathology echo fruitless distinctions between the deserving and undeserving poor the contributors focus not on individual and family behavior but on a complex set of processes that have been at work over a long period degrading the inner cities and inevitably the nation as a whole How do individuals among the urban poor manage to survive How have they created a dissident infrapolitics How have social relations within the urban ghettos changed What has been the effect of industrial restructuring on poverty Besides exploring these questions the contributors discuss the influence of African traditions on the family patterns of African Americans the origins of institutions that serve the urban poor the reasons for the crisis in urban education the achievements and limits of the War on Poverty and the role of income transfers earnings and the contributions of family members in overcoming poverty The message of the essays is clear Americans will flourish or fail together *The Lion's Share* Bernard Porter,2014-06-11 As well as presenting a lively narrative of events Bernard Porter explores a number of broad analytical themes challenging more conventional and popular interpretations He sees imperialism as a symptom not of Britain s strength in the world but of her decline and he argues that the empire itself both aggravated and obscured deep seated malaise in the British economy *The Rural Face of White Supremacy* Mark Roman Schultz,2010-10-01 Now in paperback *The Rural Face of White Supremacy* presents a detailed study of the daily experiences of ordinary people in rural Hancock County Georgia Drawing on his own interviews with over two hundred black and white residents Mark Schultz argues that the residents acted on the basis of personal rather than institutional relationships As a result Hancock County residents experienced more intimate face to face interactions which made possible more black agency than their urban counterparts were allowed While they were still firmly entrenched within an exploitive white supremacist culture this relative freedom did create a space for a range of interracial relationships that included mixed housing midwifery church services meals and even common law marriages
