**On Sharing Religious Experience** ,2024-08-26      **On Sharing Religious Experiences** ,1992      **Piety and Power**

Lamin Sanneh,2015-03-04 In *Piety and Power* an African scholar provides a unique perspective on historical patterns of religious interaction in West Africa and their meaning for world Christianity and Islam today Sanneh's topics range from Muhammad's significance for Christians to an examination of a nineteenth century ecumenical opening between the two faiths in Freetown to an overview of the relation between religion and politics that directly challenges many Western assumptions about Africa and Islam Other treatments of Christian Muslim encounter in Africa are often framed in terms of European colonial and missionary history In contrast *Piety and Power* places the inter faith issues firmly in an African social setting Sanneh explores the impact of Islam Christianity and European mission and colonialism in terms of African adaptations and expressions An autobiographical essay on Sanneh's own education in an African Qur'an school gives readers a rare and revealing look at the power and influence of Islamic institutions in their African adaptations      *Religious Experience in Contemporary Taiwan and China* 简松年,2013-12-01 *Religious Experience in Contemporary Taiwan and China* helps social scientists and all religion scholars to rediscover the importance of religious experiences for multiple world religions Combining a diverse array of survey items with thousands of candid narratives conducted in Taiwan the authors provide a depth and breadth that can't be matched by previous work The nationally representative surveys for Taiwan and China offer a broad overview of how religion is experienced in the culture how these experiences vary for each of the many religious and even non religious groups and how they vary between China and Taiwan From the Preface by Roger Finke

*Philosophical Theology and East-West Dialogue* Hisakazu Inagaki,J. Nelson Jennings,2021-10-25 *Philosophical Theology and East West Dialogue* is a unique philosophical and theological analysis of certain key interactions between Eastern and Western thinkers The book on the one hand contrasts general traits of Eastern Buddhist thought and Western Greek thought However in doing so it focuses on influential philosophers and theologians who manifest particular instances of wider issues The result is a careful examination of basic questions that offers both broad implications and concrete specificity in its approach The book itself is an instance of East West dialogue Independently of each other both authors had previously engaged in serious cross cultural studies The Japanese Inagaki had researched Western science and philosophy then written in Japanese comparative studies of Japanese thought The North American Jennings had researched Japanese theology They brought these backgrounds together dialoguing with each other until the present study emerged Several creative Japanese thinkers as well as important Westerners are taken up The study follows the lead of many Eastern impulses but it also critically utilizes Western methods Contemporary thinking on religious plurality is carefully examined This new study is a must for those interested in philosophy and theology in general and East West interaction in particular      **Christianity**

**Looks East** Peter Feldmeier,2006 This fascinating book takes a fresh look at interreligious dialogue with St John of the Cross

and Bhadantacariya Buddhaghosa as representatives of Christian and Buddhist paths to liberation As the world is increasingly experienced as a global village dialogue with other religious traditions is widely regarded as possibly the greatest modern or post modern challenge and the distinctive journey of our time Dialogue not only informs our understanding of various expressions of holiness it also can inform one s own religious faith and practice This book investigates a form of dialogue that can be a model for future dialogues Without laying assumptions on the nature of religious experience it allows these classic texts and their representative religions to speak for themselves What is often lacking in this history of dialogue is its lack of appreciation for distinctive religious paths and the experiences described therein *An Introduction to the Theology of Religions* Veli-Matti Kärkkäinen,2009-08-20 How does Christianity relate to other religions Beginning with a consideration of the biblical perspective Veli Matti Kärkkäinen offers a detailed and comprehensive survey of the diverse explanations proposed by teachers of the church down through the ages This indispensable guide is for anyone seeking to grasp Christianity s relationship to world religions *Modern Western Christian Theological Understandings of Muslims Since the Second Vatican Council* Mahmut Aydin,2002 **From the Greeks to the Arabs and Beyond** Hans Daiber,2021-07-19 From the Greeks to the Arabs and Beyond written by Hans Daiber is a six volume collection of Daiber s scattered writings journal articles essays and encyclopaedia entries on Greek Syriac Arabic translations Islamic theology and Sufism the history of science Islam in Europe manuscripts and the history of oriental studies The collection contains published since 1967 and unpublished works in English German Arabic Persian and Turkish including editions of Arabic and Syriac texts The publication mirrors the intercultural character of Islamic thought and sheds new light on many aspects ranging from the Greek pre Socratics to the Malaysian philosopher Naquib al Attas A main concern is the interpretation of texts in print or in manuscripts culminating in two catalogues Vol V and VI which contain descriptions of newly discovered mainly Arabic manuscripts in all fields Vol I Graeco Syriaca and Arabica Vol II Islamic Philosophy Vol III From God s Wisdom to Science A Islamic Theology and Sufism B History of Science Vol IV Islam Europe and Beyond A Islam and Middle Ages B Manuscripts a Basis of Knowledge and Science C History of the Discipline D Obituaries E Indexes Vol V Unknown Arabic Manuscripts from Eight Centuries Including one Hebrew and Two Ethiopian Manuscripts Daiber Collection III Vol VI Arabic Syriac Persian and Latin Manuscripts on Philosophy Theology Science and Literature Films and Offprints Daiber Collection IV **Islamic Thought in the Middle Ages** Wim Raven,2008-08-31 The history of Islamic thought in the Middle Ages the impact of Greek philosophy and science and the formation of an own theological tradition is a long and complex one The articles in this volume dedicated to Hans Daiber one of the pioneering scholars in this field offer new insights from a variety of perspectives philological philosophical and historical The subjects range from Islamic philosophy and theology over the history of science the transmission into other medieval cultures to language and literature In addition to their specific discoveries they give an impression of the dynamics of medieval Islamic intellectual history as well as of the diversity of

approaches needed to understand this dynamics      God Beyond Boundaries Perry Schmidt-Leukel, 2017 Fruitful relationships and constructive interaction between religions have become more important than ever But what about the issues of truth and conflicting truth claims Is it a betrayal of one's own faith to acknowledge the truth of other religions The current work is the first English translation of Gott ohne Grenzen published in 2005 In this much acclaimed study Perry Schmidt Leukel defends religious pluralism showing under which presuppositions Christians can accept other religions as equally valid without denying their differences He discusses in detail how the pluralist position opens up new perspectives in Christianity's dialogue with Jews Muslim Hindus and Buddhists Schmidt Leukel Perry Prof Dr ist Professor f r Religionswissenschaft und interkulturelle Theologie an der Universit t M nster Er ist am Exzellenzcluster Religion und Politik der Universit t M nster beteiligt Er ist Mitglied im international advisory board des Forschungsprojektes Religion und Dialog in modernen Gesellschaften an der Akademie der Weltreligionen der Universit t Hamburg Seine Schwerpunkte sind unter anderem Theologie der Religionen interreligi se Beziehungen christlich buddhistischer Dialog und Pluralismus f higkeit der Religionen      **To Stake a Claim** J. Andrew Kirk, Kevin J Vanhoozer, 2021-04-16 An original international collaboration To Stake a Claim researches the relationship between what counted for knowledge in the West how this knowledge has changed over the years and how those changes related to the mission of the church as an evangelizer within Western culture Examining four key areas of study To Stake a Claim evaluates the dominant positions in contemporary philosophy regarding truth rationality and pluralism It first analyzes consequences for humanity that holding these positions implies Next it looks at faith religion and revelation in the context of the dominant positions of contemporary philosophy discussed in the first part The third part explores the dominant positions of contemporary theology Finally it summarizes the epistemological problems involved in the process of communicating the gospel within Western culture and evaluates the theological and missiological views of this communication      *Human Rights and Religious Values*, 1995 Sects and new religious movements      Becoming Buddhist Glenys Eddy, 2012-02-02 What does it mean to be a Western Buddhist For the predominantly Anglo Australian affiliates of two Western Buddhist centres in Australia the author proposes an answer to this question and finds support for it from interviews and her own participant observation experience Practitioners prior experiences of experimentation with spiritual groups and practices and their experiences of participation practice and self transformation are examined with respect to their roles in practitioners appropriation of the Buddhist worldview and their subsequent commitment to the path to enlightenment Religious commitment is experienced as a decision point itself the effect of the individual's experimental immersion in the Centre's activities During this time the claims of the Buddhist worldview are tested against personal experience and convictions Using rich ethnographic data and Lofland and Skonovd's experimental conversion motif as a model for theorizing the stages of involvement leading to commitment the author demonstrates that this study has a wider application to our understanding of the role of alternative religions in western contexts      *How to Do Comparative Theology*

Francis X. Clooney, Klaus von Stosch, 2017-12-12 For a generation and more the contribution of Christian theology to interreligious understanding has been a subject of debate Some think of theological perspectives are of themselves inherently too narrow to support interreligious learning and argue for an approach that is neutral or on a more popular level grounded simply open minded direct experience In response comparative theology argues that theology as faith seeking understanding offers a vital perspective and a way of advancing interreligious dialogue aided rather than hindered by commitments theological perspectives can both complement and step beyond the study of religions by methods detached and merely neutral Thus comparative theology has been successful in persuading many that interreligious learning from one faith perspective to another is both possible and worthwhile and so the work of comparative theology has become more recognized and established globally With this success there has come to the fore new challenges regarding method How does one do comparative theological work in a way that is theologically grounded genuinely open to learning from the other sophisticated in pursuing comparisons and fruitful on both the academic and practical levels How To Do Comparative Theology therefore contributes to the maturation of method in the field of comparative theological studies learning across religious borders by bringing together essays drawing on different Christian traditions of learning Judaism and Islam Hinduism and Buddhism the wisdom of senior scholars and also insights from a younger generation of scholars who have studied theology and religion in new ways and are more attuned to the language of the spiritual but not religious The essays in this volume show great diversity in method and also over and over and from many angles coherence in intent a commitment to one learning from the other and a confidence that one's home tradition benefits from fair and unhampered learning from other and very different spiritual and religious traditions It therefore shows the diversity and coherence of comparative theology as an emerging discipline today

**The Fifth Gospel** John F. A. Sawyer, 1996-03-21 There is currently much interest in the history of interpretation reader response and the sociology of sacred texts in what the text does as much as what it means Isaiah more evangelist than prophet according to Jerome and others provides an ideal case study because of his profound influence on the language and imagery of Christianity With illustrations from art music literature and the media as well as commentaries sermons and official church pronouncements Professor Sawyer shows how Isaiah has been used in all kinds of context from the cult of the Virgin Mary mediaeval passion iconography and antisemitic propaganda to Christian feminism and liberation theology This first attempt at a comprehensive critical study of an essential part of biblical interpretation will provide a model for further research and ensure that commentaries will never be the same again
