On Social Organization And Social Control:

On Social Organization and Social Control Morris Janowitz, 1991-05-28 In the four decades following the end of World War II Morris Janowitz 1919-88 published major works in macrosociology urban and political sociology race and ethnic relations and the study of armed forces and society His research was deeply rooted in the traditions of philosophical pragmatism and the Chicago school of sociology influences which led him to reject grand theories and mechanistic explanations of social life Yet he remained confident in the capacity of sociological reason to come to grips with central aspects of the human condition On the basis of his studies Janowitz came to believe that the transition from early to advanced industrial society radically altered institutional organization to make democratic social control more difficult though not impossible to achieve The task of his pragmatic sociology was to identify fundamental trends in the social organization of industrial societies to indicate their substantive implications for social control and to clarify realistic alternatives for institution building which would strengthen the prospects for maintaining liberal democratic regimes In this volume James Burk selects from Janowitz's scholarly writings to provide a comprehensive overview of his wide ranging interests Organized to demonstrate the common logic of inquiry and substantive unity of Janowitz's contribution to several subfields of sociology the collection includes analyses of the concept of social control ethnic intolerance and hostility citizenship in Western societies models for urban education and the professionalization of military elites Burk provides a richly detailed critical account of Janowitz's intellectual development placing his writings in historical context and showing their continuing relevance for sociological research Useful to both students and specialists the volume is an important source for the ideas and methods of one of sociology's leading figures

Crime and Social Organization Elin Waring, David

Weisburd, 2018-02-06 This tenth volume in the *Advances in Criminological Theory* series is dedicated to the work of Albert J Reiss Jr It focuses on the relationship between crime and social organization that is so central to his work This focus rejects a view of crime solely as the action of atomistic individuals and sees the criminal justice system as inseparable from its social political and organizational context This perspective has had a resurgence in recent years and this volume brings together some of the most important scholars who have contributed to these developments Articles examine the social organization of crime itself the context of crime and the response to crime The concept of co-offending originally developed by Reiss is explored both as a way of improving understanding of juvenile offending and as a framework for understanding patterns of criminal organization across crime types and the relationship of criminal to licit organization Other articles recast social disorganization theory in light of recent theoretical and empirical developments They argue for a version of control theory that incorporates internal contextual and state focused dimensions Organizational actors both as offenders and as governmental agencies responding to crime are explored Building from Reiss's groundbreaking work on policing a group of articles on policing examine organizational change through reorganization the adoption of strategies such as community

policing and the increased use of empirical evidence complicated by routines organizational culture and political constraints Taken together these works develop new connections between dimensions of social organization and renew the social organization perspective on crime and criminal justice Contributors include Diane Vaughan Joan McCord Kevin P Conway Elin Waring Felton Earls Beat Mohler Peter Manning Stephen Mastrofski Lawrence Sherman David Weisburd Robert Sampson David F Greenberg Margaret Kelley Robin Tamarelli and Jeremy Travis **Social Control** Paul Henry Landis,1984

Social Organization and Water Control Among the Borana of Southern Ethiopia Johan Helland,1980-01-01 *Goffman and Social Organization* Greg Smith,2002-11-01 Erving Goffman is considered by many to have been one of the most important sociologists of the post war era His close observation of everyday life and his concern with the ways in which people play roles and manage the impressions they present to each other led to his pioneering creation of a new dramaturgical perspective for sociology His later analysis explored the field of deviance and many of his works in this area are now considered as sociological classics including *Asylums* *The Presentation of the Self in Everyday Life* and *Stigma* This collection brings together many of today s leading sociologists to pursue and build upon the diverse aspects of Goffman s legacy The contributors present chapters on key topics of Goffman s work Issues covered include mental illness and institutionalism the incorporation of literary intertexts in Goffman s writings Goffman s relationship to ethnomethodology the singularity of Goffman s ethnography Ranging from his critique of institutionalization to his understanding of the minute details of face to face interaction this collection reveals the richness of Goffman s own work as well as his contribution to sociology today and will be essential reading for students and academics alike *Deviance and Social Control: A Sociological Perspective* Michelle Inderbitzin,Kristin A. Gainey,2013 A target b lank href <http://www.sagepub.com/inderbitzin>  width 75 height 20 a *Deviance and Social Control: A Sociological Perspective* serves as a guide to students delving into the fascinating world of deviance for the first time offering clear overviews of issues and perspectives in the field as well as introductions to classic and current academic literature The unique text reader format provides the best **Social Control** Paul H. Landis,1939 **Social Theory For A Changing Society** Pierre Bourdieu,James S. Coleman,Zdzislawa Walaszek Coleman,2019-07-11 There is in modern society a structural change that underlies many of the social changes with which the conference was concerned My argument here will be that this is a qualitative change in the way society is organized a change with many implications I will call this a change from primordial and spontaneous social organization to constructed social organization see Coleman 1990 Chapters 2 3 and 24 for an extended examination of this change The common definitions of these terms contain some hint of what I mean but I will describe the change more fully to ensure that it is clearly understood By primordial social organization I mean social organization that has its origins in the relationships established by childbirth Not all these relations are activated in all cultures but some subset of these relations forms the

basis for all primitive and traditional social organization From these relations more complex structures unfold For example from these relations come families from families come clans from clans villages and from villages tribes ethnicities or societies

Essays on Social Organisation and Values Raymond Firth, 2021-03-24 In this volume Professor Firth has brought together and commented upon a number of his papers on anthropological subjects published over the last thirty years All these essays relate in different ways to his continuing interest in the study of social process especially in the significance within a social context of individual choice and decision Although some specialist studies are included e g the group of papers dealing with the Polynesian island of Tikopia the main themes of the book are broad ones and there are important general essays on such topics as social change social structure and organization modern society in relation to scientific and technological progress and the study of values mysticism and religion by anthropologists There is also a hitherto unpublished chapter on anthropology as a developing science

Investigating Social Problems A. Javier Trevino, 2014-08-08 Each chapter in this innovative social problems text is written by a specialist or pair of specialists from appropriate subfields within sociology The typical single author approach is limiting given the complexity of the contemporary issues surrounding each social problem discussed Involving many content experts ensures that the theories research and examples used in each chapter will be as current and relevant as possible Chapters open with personal statements from the contributing authors discussing how they got involved with studying the problem they are writing about Javier Trevino serves as the general editor making sure that each author follows the chapter template and maintains a consistency in level and style

Social Learning and Social Structure Ronald Akers, 2017-07-28 The social learning theory of crime integrates Edwin H Sutherland s differential association theory with behavioral learning theory It is a widely accepted and applied approaches to criminal and deviant behavior However it is also widely misinterpreted misstated and misapplied This is the first single volume in depth authoritative discussion of the background concepts development modifications and empirical tests of social learning theory Akers begins with a personal account of Sutherland s involvement in criminology and the origins of his influential perspective He then traces the intellectual history of Sutherland s theory as well as social learning theory providing a comprehensive explanation of how each theory approaches illegal behavior Akers reviews research on various correlates and predictors of crime and

delinquency that may be used as operational measures of differential association reinforcement and other social learning concepts Akers proposes a new integrated theory of social learning and social structure that links group differences in crime to individual conduct He concludes with a cogent discussion of the implications of social learning theory for criminology and public policy Now available in paperback with a new introduction by the author this volume will be invaluable to professionals and for use in courses in criminology and deviance

Social Structure and Mobility in Economic Development Seymour Lipset, 2018-04-27 The foundation of this volume is the notion that the several processes of change constituting economic and social development are systematically interrelated The essence of development is the appearance of rapid rates of increases in many different indices output per capita political participation literacy and the like These quantitative changes are however commonly accompanied by vast changes in the social structure markets emerge political bureaucracies arise and new educational systems appear Written by the leading authorities on the subject this group of papers tackles the causes and consequences of social mobility Each author brings his particular skills to bear on various aspects of the problem in studies of persons moving from rural to urban settings from one kind of industry to another and from one prestige level to another Several of the papers review the theoretical and methodological issues involved in comparative research on social mobility while others compare and contrast traditional and modern stratification systems Various papers explore the economic religious and psychological basis of social mobility concluding with enquiry into the consequences of rapid mobility especially in terms of the political stability of developing nations Because social mobility is a central consideration in any study of economic and social change every student of change will use this pioneering reference source as a text for all future research Contributors include Otis Dudley Duncan Harold L Wilensky Michael G Smith Bert F Hoselitz Wilbert E Moore Natalie Rogoff Rams y Gideon Sjoberg Reinhard Bendix Harry Crockett David Matza Lester Seligman and Gino Germani Neil J Smelser is emeritus professor Department of Sociology University of California Berkeley Seymour Martin Lipset was professor of sociology and director of the Institute of International Studies at the University of California Berkeley

The Socio-economics of Crime and Justice Brian Forst, 1993 Offers a variety of perspectives on crime and justice from economics to sociology from philosophy to the law focusing on the nonpunitive side of the issue The volume is divided into four parts Part I addresses fundamental principles underlying crime and justice Part II considers forces that shape human behavior generally and the inclination to commit crime in particular Part III focuses on specific classes of offenders and offenses And Part IV examines the three primary components of the justice system the police the prosecutor and the courts Paper edition unseen 19 95 Annotation copyright by Book News Inc Portland OR
