Congress. House. Temporary National Economic Committee, 1940 The A to Z of the Petroleum Industry Marius S. Vassiliou, 2009-09-24 The world as we have known it for the past century would have been very different without petroleum Petroleum particularly in the form of crude oil and its refined products has been central to all aspects of modern industrial society and has been a major strategic geopolitical objective for nations The 20th century was the age of oil and at least part of the 21st century will be as well Petroleum is used as an energy source and as a raw material for the production of an immense variety of chemicals and synthetic materials Almost all the world's food relies on petroleum for fertilizer pesticides cultivation or transport Petroleum has been particularly dominant as a source of transportation fuels an application for which cost effective substitutes will be especially difficult to find The A to Z of the Petroleum Industry presents a concise but complete one volume reference on the history of the petroleum industry from pre modern times to the present day This is done through a chronology an introductory essay and over 400 cross referenced dictionary entries on companies people places events technologies and phenomena related to the history of the world's petroleum industry Anyone interested in the history status and outlook for the petroleum industry will find this book a uniquely valuable source *The Trust Problem in the United States* Eliot Jones, 1922 **Dictionary Catalogue of the Illinois State Library** Illinois State Library, 1912 **Writings on American History, 1903** Andrew Cunningham McLaughlin, William Adams Slade, 1905 McClure's Magazine ,1905 Forerunners of Revolution Walter M. Hughes,2014-01-16 The first systematic investigation of changes in oil market governance in the advanced industrial democracies over the last three decades **Godliness and Greed** Skip Worden,2010-12-16 Traditional scholarship often points to the Calvinists and Max Weber's writing on the Protestant ethic as the catalysts to changing Christian attitudes concerning profit seeking and wealth Author Skip Worden argues that the seeds of this change occurred centuries earlier From the beginning of the Commercial Revolution to the fifteenth century Renaissance he shows that the predominant Christian thought on economics went through a fundamental shift becoming favorable toward profit seeking and wealth holding Worden discusses this dramatic change and explains how the general antagonism toward the pursuit of wealth before the Commercial Revolution transformed into Protestant theologians fighting against the prevailing view of a pro wealth paradigm during the fifteenth century Worden contends that the shift away from the Patristic view of wealth occurred well before the addition of the Calvinist spirit of capitalism and the Puritan work ethic into Christian economic vernacular Drawing on Plato Cicero and Augustine early Protestant theologians unsuccessfully sought to check the rising dominance of the pro wealth Christian paradigm which they believed had been pushed too far These theologians of the sixteenth and seventeenth century felt it was too close to advocating love of gain itself something too close to the sin of greed How well the Reformation succeeded can be assessed by Worden's insightful concluding study of John D Rockefeller the ascetic steward of God's Gold in the form of monopoly *Trust and Corporation Problems* Henry Rogers Seager,Charles Adams Gulick,1929
