Seminars Of Jacques Lacan Bk 1 Freud's Writings On Technique 1953 1954:

The Seminar of Jacques Lacan: Freud's papers on technique, 1953-1954 Jacques Lacan, 1988 *Reading Architecture with Freud and Lacan* Lorens Holm, 2022-09-30

Reading Architecture with Freud and Lacan Shadowing the Public Realm methodically outlines key concepts in psychoanalytic discourse by reading them against key modern and post modern architects It begins with what is arguably the central concept for each discipline by putting the unconscious in a dialectic relation to space Each subsequent chapter begins with a detail in architectural discourse a kind of provocation that anchors each excursion into the thought of Freud and Lacan The text is cyclical episodic and cloudlike rather than expository the intention is not simply to explain the concept of the unconscious but to different degrees perform it in the text The book offers powerful critiques of current planning practice which has no tools to address our attachment to places It concludes with powerful critiques of our incapacity to change the environmentally damaging ways we live our lives which is an effect of our incapacity to recognise the presence of the death drive in our nature The text is an extended thesis spanning the chapters that the field of the Other is the common grammar that organises subjects into civilisations which has consequences for how we treat the public realm in architecture politics and the city The field of the Other is a slightly different slice through the urban social world It shadows but does not correspond exactly to more familiar categories like private public inside outside figure ground or piazza boulevard

Reading Architecture with Freud and Lacan will be an essential resource to anyone interested in how the environment we build is a reflection of our desire Psychoanalysis is one of the great humanist discourses of the 20th century and this book will be a valuable reference to the humanist in architects planners and social scientists whether they are students professionals or amateurs It will appeal to historians of the 20th century and to psychoanalysts and architects who are interested in how their respective discourses interdigitate with each other and with other discourses

Beckett, Lacan and the Mathematical Writing of the Real Arka Chattopadhyay, 2019-01-01

Beckett Lacan and the Mathematical Writing of the Real proposes writing as a mathematical and logical operation to build a bridge between Lacanian psychoanalysis and Samuel Beckett's prose works Arka Chattopadhyay studies aspects such as the fundamental operational logic of a text use of mathematical forms like geometry and arithmetic the human obsession with counting the moving body as an act of writing and love and sexuality as a challenge to the limits of what can be written through logic and mathematics Chattopadhyay reads Beckett's prose works including *How It Is* *Company* *Worstward Ho* *Malone Dies* and *Enough* to highlight this terminal writing which halts endless meanings with the material body of the word and gives Beckett a medium to inscribe what cannot be written otherwise

Jacques Lacan's Return to Freud Philippe Julien, 1995-07

From 1953 to 1980 Jacques Lacan sought to accomplish a return to Freud beyond post Freudianism He defined this return as a new covenant with the meaning of the Freudian discovery Each year through his teaching he brought about this return What was at stake in this renewal Post-existentialism and the Psychological Therapies Del

Loewenthal,2018-03-29 A valuable contribution to the field by a professor of psychotherapy and author and editor of many titles in this area **Psychoanalysis Under Nazi Occupation** Laura Sokolowsky,2021-09-30 Laura Sokolowsky's survey of psychoanalysis under Weimar and Nazism explores how the paradigm of a psychoanalysis for all became untenable as the Nazis rose to power. Mainly discussing the evolution of the Berlin Institute during the period between Freud's creation of free psychoanalytic centres after the founding of the Weimar Republic and the Nazi seizure of power in 1933, the book explores the ideal of making psychoanalysis available to the population of a shattered country after World War I and charts how the Institute later came under Nazi control following the segregation and dismissal of Jewish colleagues in the late 1930s. The book shows how Freudian standards resisted the medicalisation of psychoanalysis for purposes of adaptation and normalisation but also follows Freud's distinction between sacrifice where you know what you have given up and concession an abandonment of position through compromise to demonstrate how German psychoanalysts put themselves at the service of the fascist master in the hope of obtaining official recognition and material rewards. Discussing the relations of psychoanalysis with politics and ethics as well as the origin of the Lacanian movement as a response to the institutionalisation of psychoanalysis during the Nazi occupation, this book is fascinating reading for scholars and practitioners of psychoanalysis working today Periodizing Jameson Phillip E. Wegner,2014-06-30 For a half century the American intellectual Fredric Jameson has been a driving force in literary and cultural theory. In *Periodizing Jameson* Phillip E. Wegner builds upon Jameson's unique dialectical method to demonstrate the value of Jameson's tools: periodization, the fourfold hermeneutic and the Greimasian semiotic square among others, and to develop virtuoso readings of Jameson's own work and the history of the contemporary American university in which it unfolds. Wegner shows how Jameson's work intervenes in particular social, cultural and political situations using his scholarship both to develop original explorations of nineteenth-century fiction, popular films and other prominent theorists, and to examine the changing fortunes of theory itself. In this way *Periodizing Jameson* casts new light on the potential of and challenges to humanist intellectual work in the present *Sensible Life* Emanuele Coccia,2016-02-29 We like to imagine ourselves as rational beings who think and speak yet to live means first and foremost to look, taste, feel or smell the world around us. But sensibility is not just a faculty. We are sensible objects both to ourselves and to others, and our life is through and through a sensible life. This book, now translated into five languages, rehabilitates sensible existence from its marginalization at the hands of modern philosophy, theology and politics. Coccia begins by defining the ontological status of images. Not just an internal modification of our consciousness, an image has an intermediate ontological status that differs from that of objects or subjects. The book's second part explores our interactions with images in dream fashion and biological facts like growth and generation. Our life, Coccia argues, is the life of images **Biopolitics and Structure in Legal Education** Luca Siliquini-Cinelli, Thomas Giddens,2023-06-30 Taking up the study of legal education in distinctly biopolitical terms, this book provides a critical and political analysis of structure in the

law school Legal education concerns the complex pathways by which an individual becomes a lawyer making the journey from lay person to expert from student to practitioner To pose the idea of a biopolitics of legal education is not only to recognise the tensions surrounding this journey but also to recognise that legal education is a key site in which the subject engages and is engaged by a particular structure and here the particular structure of the law school This book explores that structure by addressing the characteristics of the biopolitical orders engaged in legal education including understanding the lawyer as a commodity unpicking the force relations in legal education examining the ways codes of conduct in higher education impact academic freedom as well as putting the distinctly Western structures of legal learning within a wider context Assembling original field defining essays by both leading international scholars and emerging researchers it constitutes an indispensable resource in legal education research and scholarship that will appeal to legal academics everywhere

Surrealism and Architecture Thomas Mical, 2005-02-25 This is a historically informed examination of architecture's perceived absence in surrealist thought surrealist tendencies in the theories and projects of modern architecture and the place of surrealist thought in contemporary design This book represents current insights into surrealism in the thought and practice of modern architecture In these essays the role of the subconscious the techniques of defamiliarization aesthetic and social forces affecting the objects interiors cities and landscapes of the twentieth century are revealed The book contains a diversity of voices from across modern art and architecture to bring into focus what is often overlooked in the histories of the modernist avant garde This collection examines the practices of writers artists architects and urbanists with emphasis on a critique of the everyday world view offering alternative models of subjectivity artistic effect and the production of meanings in the built world

The other Side of Desire Tamise Van Pelt, 2012-02-01 The other Side of Desire puts Jacques Lacan's theoretical constructs to work on texts as varied as Plato's Symposium Hamlet Tootsie and the journals of Sylvia Plath making the techniques of Lacanian analysis accessible to a wide variety of readers Moving from oppositional readings of Lacan himself through Lacan's search for an alternative to oppositionality to his solution in the theory of the registers Van Pelt rereads Lacan's most significant essays on aggressivity the mirror stage the subversion of the subject and the signification of the phallus making explicit the reading practices implicit in Lacan's first seven Seminars and his critics Throughout Van Pelt demonstrates Lacanian theory's pivotal role in the intellectual transition from the poststructuralism of the mid twentieth century to the post humanism of the twenty first

Posthumanism Neil Badmington, 2000-09-11 What is posthumanism and why does it matter This reader offers an introduction to the ways in which humanism's belief in the natural supremacy of the Family of Man has been called into question at different moments and from different theoretical positions What is the relationship between posthumanism and technology Can posthumanism have a politics post colonial or feminist Are postmodernism and poststructuralism posthumanist What happens when critical theory meets Hollywood cinema What links posthumanism to science fiction Posthumanism addresses these and other
