Semiotics Of Poetry:

Semiotics of Poetry Michael Riffaterre, 1978 *Handbook of Semiotics* Winfried Noth, 1990-09-22 History and Classics of Modern Semiotics Sign and Meaning Semiotics Code and the Semiotic Field Language and Language Based Codes From Structuralism to Text Semiotics Schools and Major Figures Text Semiotics The Field Nonverbal Communication Aesthetics and Visual Communication **Encyclopedia of Contemporary Literary Theory** Irene Rima Makaryk, 1993-01-01 The last half of the twentieth century has seen the emergence of literary theory as a new discipline As with any body of scholarship various schools of thought exist and sometimes conflict within it I R Makaryk has compiled a welcome guide to the field Accessible and jargon free the Encyclopedia of Contemporary Literary Theory provides lucid concise explanations of myriad approaches to literature that have arisen over the past forty years Some 170 scholars from around the world have contributed their expertise to this volume Their work is organized into three parts In Part I forty evaluative essays examine the historical and cultural context out of which new schools of and approaches to literature arose The essays also discuss the uses and limitations of the various schools and the key issues they address Part II focuses on individual theorists It provides a more detailed picture of the network of scholars not always easily pigeonholed into the categories of Part I This second section analyses the individual achievements as well as the influence of specific scholars and places them in a larger critical context Part III deals with the vocabulary of literary theory It identifies significant complex terms places them in context and explains their origins and use Accessibility is a key feature of the work By avoiding jargon providing mini bibliographies and cross referencing throughout Makaryk has provided an indispensable tool for literary theorists and historians and for all scholars and students of contemporary criticism and culture The Semiotic Sphere Thomas A. Sebeok, Jean Umiker-Sebeok, 2012-12-06 Although semiotics has in one guise or another flourished uninterruptedly since pre Socratic times in the West and important semiotic themes have emerged and developed independently in both the Brahmanic and Buddhist traditions semiotics as an organized undertaking began to bloom only in the 1960s Workshops materialized with a perhaps surprising spontaneity over much of Europe Eastern and Western and in North America Thereafter others quickly surfaced almost everywhere over the literate globe Different places strategically allied themselves with different legacies but all had a common thrust to aim at a general theory of signs by way of a description of different sign systems their comparative analysis and their classification More or less permanent confederations were forged with the most diverse academic disciplines and amazingly varied frameworks were devised suited to the needs of the times and the sites to carry the work of consolidation forward Bit by bit mutually supportive international networks were put together Today it can truly be asserted that semiotics has become a global enterprise This of course is far from saying that the map is uniform or even that world wide homogeneity is in the least desirable While our conjoint ultimate goal remains steadily in focus the multiplicity of avenues available for its realization is inherent in the adventure of the search itself *Symbolism,*

Synesthesia, and Semiotics, Multidisciplinary Approach Bonaventure Balla, 2012-10 **Semiotics and City Poetics** Mary Coghill, 2022-12-05 Roman Jakobson stands alone in his semiotic theory of poetic analysis which combines semiotics linguistics and structuralist poetics This groundbreaking book proposes methods for developing Jakobson's theories of communication and poetic function It provides an extensive range of examples of the kinds of Formalist praxis that have been neglected in recent years developing them for the analysis of all poetry but especially the poetry of our urban future Throughout the book the parameters of a city poetic genre are proposed and established the book also develops the theory of the function of shifters and deixis with special reference to women as narrators It also instantiates an experimental poetic praxis based on the work of one of Jakobson's great influences Charles Sanders Peirce Steadfastly adhering to the text in itself this volume reveals the often surprising hitherto unconsidered structural and semiotic patterns within poems as a whole

Johannine Christology Stanley E. Porter, Andrew W. Pitts, 2020-07-13 Johannine Christology provides a snapshot of the foremost investigations of this important topic by a selection of scholars representing a range of expertise in this field The volume is organized into four major parts which are concerned with the formation of Johannine Christology Johannine Christology in Hellenistic and Jewish contexts Christology and the literary character of the Johannine writings and the application of Christology for the Johannine audience and beyond The fifteen contributors to this volume comprise an international set of Johannine scholars who explore various ways of both describing and then pursuing the implications of Johannine Christology Their contributions focus primarily upon the Gospel but involve other key texts as well *The Semiotics of Performances* Paul Bouissac, 2025-01-09 What is a live performance And why is semiotics the best approach for the analysis and interpretation of the performing arts Drawing on semiotic developments of the past five decades this book introduces students to the semiotic analysis of live performances and provides them with a clear method for untangling the multimodal complexity of performance from the spectator's point of view Presenting live performances as two way communication processes social events and cognitive and affective experiences each chapter of this highly accessible book begins first with an overview of the basics This is followed by a case study and moves through to a more advanced discussion accompanied by suggestions for exercises and further reading Diagrams and flow charts help to clearly illustrate the conceptual tools used in the analytical process and a companion website contains recorded extracts from the live performances discussed in the book which students can use to put their knowledge into practice The book explores a broad range of performance types from across different cultures including music opera ballet theatre circus mime improvisation and immersion It offers a guide for understanding the way in which a performance is produced from an initial idea through to the final presentation in front of a live audience and provides the reader with the tools and understanding they need for a successful semiotic analysis of live performance *Repetition and Semiotics* Stamos Metzidakis, 1986 Translingual Creative Writing Theory, Practice, and Pedagogy Jennifer Quist, 2025-05-15 In a challenge to monolingual Anglophone

dominated creative writing workshops this book explores why and how students multilingual backgrounds and lack of fluency with the English language can emerge as assets rather than impediments to artistry and creativity Grounded in the Chinese tradition of Daoism as an ongoing discourse this exploration uses rigorous academic readings of the philosophical text the Zhuangzi as an analytical framework and takes a translingual approach to writing where translation and composition intersect inscribing one language upon another within a single text With concepts that resist expression such as inspiration uncertainty non knowing spontaneity unity forgetting the self and the perfection behind the imperfection of language Jennifer Quist demonstrates how Daoism s theories and metalanguage can re imagine creative writing education whilst de naturalizing the authority of English and Euro American literary traditions With analytical lenses derived from East Asia given context through translations of Chinese educators primary accounts of the history and theory of postsecondary creative writing education in 21st century China Quist develops a method for examining the practices of exemplary translingual writers from China Japan and their diasporas Featuring translingual writing prompts and practices for individual or classroom use by students at all levels of multilingualism *Translingual Creative Writing Theory Practice and Pedagogy* opens up the current workshop model and discloses the possibilities of linguistic transcendence for instructors and students With writing strategies based in cross cultural collaboration and balanced with de Anglicization of creative writing pedagogy this book calls to rework the structures methods and metaphors of the workshop and presents ideas for more collaborative collective equitable diverse and inclusive programs *Semiotics around the World: Synthesis in Diversity* Irmengard Rauch, Gerald F.
