Quail,Kathalene A. Razzano,Loubna H. Skalli,2005 Vulture Culture presents a new and complex way of thinking about daytime television talk shows Vulture culture is the process by which the media scavenge the personal narratives and popular discourses that make up everyday knowledge and commonsense and re present them back to us as spectacle entertainment and information This book explores these nuances through a probing analysis of the vast landscape of daytime television talk shows and their relation to important political social and economic problems Using an approach that takes into account the multiple perspectives of political economy cultural studies and cultural pedagogy Vulture Culture provides an in depth and well rounded examination of this mainstay of television and media culture Reading Programs for Young Adults Martha Seif Simpson,2015-11-16 School and public libraries often provide programs and activities for children in preschool through the sixth grade but there is little available to young adults For them libraries become a place for work the place to research an assignment or find a book for a report but the thought of the library as a place for enjoyment is lost So how do librarians recapture the interest of teenagers This just might be the answer Here you will find theme based units such as Cartoon Cavalcade Log On at the Library Go in Style Cruising the Mall Space Shots Teens on TV and 44 others that are designed for young adults Each includes a display idea suggestions for local sponsorship of prizes a program game to encourage participation 10 theme related activities curriculum tie in activities sample questions for use in trivia games or scavenger hunts ideas for activity sheets a bibliography of related works and a list of theme related films The units are highly flexible allowing any public or school library to adapt them to their particular

needs **Media Imperialism in India and Pakistan** Farooq Sulehria, 2018-01-02 Examining anew the notions of media imperialism and globalization of media this book disrupts the generalised consensus in media scholarship that globalization of media has put an end to media imperialism One elemental aspect of media imperialism is the structural dependency of television systems in the global South on the imperial North Taking India and Pakistan as its case studies this book views globalization of media as the unleashing of processes that have translated into the liberalization of air waves and privatization of television systems whereby commercialization of television is privileged over public interest television Additionally it argues that the globalization of media has contributed to corruption tabloidization and marginalization of subaltern classes in the Indian and Pakistani media *Mass Media* James B. Martin, 2002 Mass media has become an integral part of the human experience News travels around the world in a split second affecting people in other countries in untold ways Although being on top of the news may be good at least for news junkies mass media also transmits values or the lack thereof condenses complex events and thoughts to simplified sound bites and often ignores the essence of an event or story The selective bibliography gathers the books and magazine literature over the previous ten years while providing access through author title and subject indexes Tabloid Tales Colin Sparks, John Tulloch, 2000-03-22 Coverage of the Clinton Lewinsky saga followed in a long trail of media exposures of the more personal details of the lives of public figures Many commentators have seen stories like this and TV shows like Jerry Springer s as evidence of a decline in the standards of the mass media This increasing interest in private lives and the falling off of coverage of serious news is often described as tabloidization The essays in this book are the first serious scholarly studies of what is going on and what its implications are Reality it turns out is much more complex than some of the laments suggest As the contributors show this is not just a U S problem but is repeated in country after country and it is not certain that the media anywhere are getting more tabloid What is more there is no consensus about whether tabloidization is just dumbing down or whether it is a necessary tactic for the mass media to engage with new audiences who do not have the news habit Tabloid Tales will be of interest to students and scholars in journalism mass communication political science and cultural and media studies Pornography Ted Gottfried, 1997 This book provides a balanced account of the issues surrounding the issue of pornography Some people believe that pornography corrupts public morality while others believe that anti pornography laws violate the rights of free speech guaranteed in the U S Constitution The history of pornography and the effects on today s teens are discussed *Books for You* National Council of Teachers of English, Urbana, IL., 1995 Designed to help teachers students and parents identify engaging and insightful books for young adults this book presents annotations of over 1 400 books published between 1994 and 1996 The book begins with a foreword by young adult author Chris Crutcher a former reluctant high school reader that discusses what books have meant to him Annotations in the book are grouped by subject into 40 thematic chapters including Adventure and Survival Animals and Pets Classics Death and Dying Fantasy Horror Human Rights Poetry

and Drama Romance Science Fiction War and Westerns and the Old West Annotations in the book provide full bibliographic information a concise summary notations identifying world literature multicultural and easy reading title and notations about any awards the book has won Appendixes present lists of award winning works of poetry fiction drama and nonfiction for the years 1994 through 1997 a list of approximately 500 multicultural titles a 94 item list of world literature titles and directions on how to order Author subject and title indexes are attached RS *Book Review Digest*, 1998 Northstar Reading and Writing Margot Gamer, 2004 Explore fascinating content while building language competence and critical thinking skills The best selling NorthStar series offers two strands a reading and writing strand and a listening and speaking strand Both strands stimulate students imagination encourage critical thinking and promote personal expression *Violence in the Media* Gustav Mark Gedatus, Gus Gedatus, 2000 Describes how violence in the media has changed over the years the false ideas and messages it promotes theories about its effects and how one may resist its message **Bulletin of the Center for Children's Books**, 1995 *Electronic Media Criticism* Peter B. Orlik, 2001 Given the prominence of the electronic media in the 21st century it is crucial that both media professionals and consumers know how to decipher and evaluate media content the assumptions on which that content is based and the constraints to which it is subject Electronic Media Criticism offers a variety of critical approaches to audio and video discourse Rather than restricting itself to one perspective the book applies key aesthetic sociological philosophical psychological structural and economic principles to arrive at a comprehensive evaluation of both programming and advertising content Maintaining the approach of the original volume this second edition includes updated chapters to reflect the current media world including sample reviews and illustrations material pertaining to new media because the book is process oriented rather than medium oriented Internet referents are interspersed in discussion of the various critical perspectives two additional scripts for critical analysis an episode of The Simpsons and an installment of the dark Canadian comedy The Newsroom and new exercises for further practice in applying critical procedures Orlik interweaves the insights of industry and academic authorities recognizing that both orientations are essential in the development of a valid and viable critical outlook Written for media students and practitioners all readers of this volume will gain feasible and flexible tools for focused and rational analysis of electronic media products as well as improved understanding of the role and essential ingredients of criticism itself **Capital Punishment** Ted Gottfried, 1997 Should a convicted murderer be given the death penalty Ted Gottfried takes a balanced view and examines the many sides of this issue discussing the history of capital punishment and specific cases involving this topic **School Library Journal**, 1997
