The Understanding of Christian Faith Schubert M. Ogden, 2010-04-01 As an introduction to Christian systematic theology this volume treats all the main theological topics from God to last things seeking to explicate critically the understanding of them implicit in Christian faith itself in terms at once appropriate to Jesus Christ and credible to human existence Its criteria accordingly are the ultimate criteria of on the one hand specifically Christian experience of Jesus as expressed by the apostolic witness and on the other hand generically human experience of existence as expressed by a sound philosophy And as befits an introduction it employs these same criteria to clarify the process of actually doing Christian systematic theology Thus it begins by explaining both what such a theology has to do and how it is to do it and ends by considering what it means to do theology as a Christian calling particularly as a professional theologian

Ethics of Biblical Interpretation Daniel Patte, 1995-05 Daniel Patte argues here that when male European American scholars interpret the Bible to produce a universally legitimate reading they silence the Bible itself Their reading practices exclude feminist African American and other so called minority readings as well as the interpretations of conservative and liberal laity He further claims that ethical accountability requires recognizing that all exegesis consists of bringing critical understanding to ordinary readings especially faith interpretations Patte concludes that biblical studies must affirm the legitimacy of diverse ordinary readings and lead to an open discussion of the relative value of these readings
