Droits de l'investisseur étranger et protection de l'environnement Sabrina Robert-Cuendet, 2010-05-12 En droit international de l'investissement le prisme de l'expropriation indirecte couvre une large catégorie de mesures telles que les réglementations qui n'impliquent pas de transfert de propriété mais aboutissent une grave interférence avec un investissement La définition des possessions indemnisables constitue une question extrêmement sensible située à la croisée des chemins entre la protection des droits des investisseurs et la préservation des prérogatives de l'Etat Cet ouvrage explore à travers l'exemple de la réglementation environnementale le droit applicable cette notion controversée Il montre que l'approche traditionnelle reposant sur une dilution du concept d'expropriation n'est nullement appropriée et il contribue à clarifier l'étendue de la protection de l'investisseur sur le fondement du droit de la responsabilité internationale de l'Etat In international investment law the prism of indirect expropriation includes a broad range of measures such as regulatory measures which do not involve a transfer of property but result in a serious interference with an investment The definition of compensable taking is a very sensitive issue situated at the crossroads between the protection of investors private rights and the safeguarding of the state's sovereign prerogatives This book explores through the example of environmental regulation the law applicable to this controversial topic It suggests that the traditional approach based on an extension of the concept of expropriation is inappropriate and it contributes to clarifying the scope of the international protection of the investor on the ground of the law of state responsibility

Women as War Criminals Izabela Steflja, Jessica Trisko Darden, 2020-09-08 Women war criminals are far more common than we think From the Holocaust to ethnic cleansing in the Balkans to the Rwandan genocide women have perpetrated heinous crimes Few have been punished These women go unnoticed because their very existence challenges our assumptions about war and about women Biases about women as peaceful and innocent prevent us from seeing women as war criminals and prevent postconflict justice systems from assigning women blame Women as War Criminals argues that women are just as capable as men of committing war crimes and crimes against humanity In addition

to unsettling assumptions about women as agents of peace and reconciliation the book highlights the gendered dynamics of law and demonstrates that women are adept at using gender instrumentally to fight for better conditions and reduced sentences when war ends The book presents the legal cases of four women the President Biljana Plavic the Minister Pauline Nyiramasuhuko the Soldier Lynndie England and the Student Hoda Muthana Each woman's complex identity influenced her treatment by legal systems and her ability to mount a gendered defense before the court Justice as Steflja and Trisko Darden show is not blind to gender

Information in International Law José M. Reis, 2024-10-16 Examining state behavior this book sheds light on the often overlooked role of information production and diffusion in international law and relations Most theories of public international law and state behavior rely on a certain degree of international law related information such as an international legal ruling being made public and diffused to reach various key actors such as third states or domestic actors However while assumptions about information being produced and diffused permeate international legal scholarly work these assumptions have not been systematically and empirically evaluated Based on an empirical analysis the author challenges prevailing assumptions by systematically evaluating the accessibility and dissemination of crucial international law related information such as treaty negotiation documents or legal rulings Using a variety of quantitative case studies on key stages of international lawmaking and covering various issue areas from human rights to trade law each chapter traverses three critical levels of analysis namely whether international law information is public and transparent

whether the information is salient and reaches the general public and how the information is framed by the media and political elites The book will appeal to students researchers and scholars of law political science and economics as well as policy makers interested in a better understanding of information production and diffusion in international law and the impact of public opinion on compliance with international law

Dear Incomprehension Stéphane Vanderhaeghe,2024-03-12 This book tackles

a broad swath of contemporary literature currently labeled speculative fiction A blurring of genres that includes science fiction modern fairy tales and avant garde experimental fiction these works are extremely popular but also derive from highly sophisticated philosophical and aesthetic sensibilities ones that call into question and uproot the very foundations of stories and storytelling Because such fictions subvert most conventional narrative devices plot recognizable characters verisimilitude logic legibility they deliberately confound almost any kind of conventional reading and criticism To do such a literature justice the traditional frameworks of literary criticism fail and Dear Incomprehension is more of an extended philosophical essay than it is a traditional work of criticism as oblique and unconventional in its voice tone and methods as the texts it illuminates
