# Separate Cases

**John Cartwright, Martijn Hesselink**

## Separate Cases:

**Cases Argued and Determined in the Court of Common Pleas and in the Exchequer Chamber** John Scott, Great Britain. Court of Common Pleas, 1859      **Datives and Other Cases** Daniel P. Hole, Werner Abraham, André Meinunger, 2006-01-01 This volume provides a state of the art account of research into datives and other morphological cases. The contributors among them leading scholars in the field present fresh insights into traditional issues such as the dichotomy between lexical and structural case and open up fascinating new areas of research. A recurrent feature of the majority of contributions is their combined syntax semantics perspective. Germanic varieties, Serbian, Albanian and other Balkan languages alongside Chinese, Japanese, Tagalog are discussed from various theoretical angles such as mainstream generativism, lexical functional grammar and functional typology. Despite the broad range of facts spanning the distance between acquisition data and dialectology, the papers are connected by a renewed interest in form-function correspondences. This volume will be welcomed by theoretical linguists and typologists with an interest in argument and event structure, linguists studying the case systems of individual languages and researchers in search for up-to-date discussion of Germanic datives.      Cases Argued and Decided in the Supreme Court of the United States United States. Supreme Court, 1926

**Multinational Firms** John Dunning, Jean-Louis Mucchielli, 2001-12-13 At the turn of the century, questions about multinational firms' strategies as regards the forces on the one hand of globalization and on the other hand of the regional and local dimensions are very much to the fore. What are the new constraints and the new theories to explain global and local multinationals' strategies at the beginning of this new century?      Hearings United States. Congress Senate, 1969      **Routledge Handbook of Civil Wars** Edward Newman, Karl DeRouen, Jr., 2014-02-18 This comprehensive new Handbook explores the significance and nature of armed intrastate conflict and civil war in the modern world. Civil wars and intrastate conflict represent the principal form of organised violence since the end of World War II and certainly in the contemporary era. These conflicts have a huge impact and drive major political change within the societies in which they occur as well as on an international scale. The global importance of recent intrastate and regional conflicts in Afghanistan, Pakistan, Iraq, Somalia, Nepal, Côte d'Ivoire, Syria and Libya amongst others has served to refocus academic and policy interest upon civil war. Drawing together contributions from key thinkers in the field who discuss the sources, causes, duration, nature and recurrence of civil wars as well as their political meaning and international impact, the Handbook is organised into five key parts: Part I Understanding and Explaining Civil Wars; Theoretical and Methodological Debates; Part II The Causes of Civil Wars; Part III The Nature and Impact of Civil Wars; Part IV International Dimensions; Part V Termination and Resolution of Civil Wars. Covering a wide range of topics including micro-level issues as well as broader debates, *Routledge Handbook of Civil Wars* will set a benchmark for future research in the field. This volume will be of much interest to students of civil wars and intrastate conflict, ethnic conflict, political violence, peace and conflict studies, security studies and IR in general.      *Reports of*
