Acquiring 21st Century Literacy Skills Through Game-Based Learning Lane, Carol-Ann, 2022-01-07 Emerging technologies
are becoming more prevalent in global classrooms Traditional literacy pedagogies are shifting toward game based pedagogy
addressing 21st century learners Therefore within this context there remains a need to study strategies to engage learners in
meaning making with some element of virtual design Technology supports the universal design learning framework because
it can increase the access to meaningful engagement in learning and reduce barriers The Handbook of Research on
Acquiring 21st Century Literacy Skills Through Game Based Learning provides theoretical frameworks and empirical
research findings in digital technology and multimodal ways of acquiring literacy skills in the 21st century This book gains a
better understanding of how technology can support learner frameworks and highlights research on discovering new
pedagogical boundaries by focusing on ways that the youth learn from digital sources such as video games Covering topics
such as elementary literacy learning indigenous games and student worker training this book is an essential resource for
educators in K 12 and higher education school administrators academicians pre service teachers game developers
