# Prayer of Serenity

God grant me  
the Serenity  
to accept the things  
I cannot change,  
Courage to change  
the things I can  
and the wisdom  
to know  
the difference.

Principles of Addiction Medicine Christopher A. Cavacuiti, 2012-03-28 Principles of Addiction Medicine The Essentials is a compact and portable distillation of the American Society of Addiction Medicine s flagship text Principles of Addiction Medicine This handbook present the clinically essential points from the larger text in an easy to follow outlined and bulleted format Each chapter follows a template with structured headings such as pharmacokinetics pharmacodynamics therapeutic uses effects liability and withdrawal Principles of Addiction Medicine The Essentials is an excellent reference for a wide variety of addiction medicine professionals including psychiatrists psychologists psychiatric nurses social workers internal medicine primary care physicians and substance abuse counselors *Next Medicine* Walter Bortz, MD, 2011-01-03 Every year the average American spends about 7 300 on medical expenses The typical Canadian pays 2 700 the Briton only 2 000 And yet according to the World Health Organization our healthcare system in terms of total quality ranks thirty eighth in the world right between Costa Rica and Slovenia Not only do 40 million Americans lack health insurance but more than 200 000 die each year because of medical mistakes Our average life expectancy is lower than Cuba s In *Next Medicine* Dr Walter Bortz zeroes in on why the American medicine is spiraling toward disaster A physician with fifty years of experience and a leading authority on aging Bortz argues that the financial interests of biotech and drug companies have distorted the healthcare system Thanks to them medicine today is economically motivated to treat disease rather than to prevent it Heart disease for example is widely treated with drug interventions and invasive surgery both of which are extravagantly profitable for pharmaceutical giants and hospitals Daily exercise and a healthy diet on the other hand can prevent heart disease and can be obtained by patients essentially for free but there s no money in that The medical industrial complex has a vested interest in keeping us sick and until that changes medicine will fail to effectively address the leading cause of disability and mortality today chronic diseases like diabetes that are largely preventable Bortz proposes a medical system that emphasizes personal responsibility and provides incentives for healthy lifestyle choices along with new training for medical professionals Through a lively narrative full of personal anecdotes and jarring statistics Bortz makes a powerful case for a radically new

medical system one that is based on rigorous science and loosens the strangle hold of corporate interests on American health

They also learn through the program's 11th Step that prayer and meditation are vital tools for making this conscious contact with a Higher Power of their understanding. **The Recovery Book** Al J. Kopacz, 2014-11-28 What starts as personal dissatisfaction in the workplace can become personal transformation that changes clinical practice and ultimately changes the culture of medicine Physicians and professionals train extensively to relieve suffering Yet the systems they train and practice in create suffering for both themselves and their clients through the neglect of basic human needs True healthcare reform requires addressing dehumanization in medicine by caring for the whole person of the professional and the patient Re humanizing Medicine provides a holistic framework to support human connection and the expression of full human being of doctors professionals and patients A clinician needs to be a whole person to treat a whole person thus the work of transformation begins with clinicians As professionals work to transform themselves this will in turn transform their clinical practices and healthcare institutions      **Comprehensive Treatment of Chronic Pain by Medical, Interventional, and Integrative Approaches** Timothy R Deer, Michael S Leong, Asokumar
