Piano Makers in Russia in the Nineteenth Century Anne Swartz, 2014-08-01 *Piano Makers in Russia in the Nineteenth Century* is a richly detailed thematic study of the history of the piano in Russian society from its beginnings with the European artisans who settled in St Petersburg in the early decades of the century through the transition to Russian owned family firms The piano played a defining role in the shaping of Russia's musical culture in the nineteenth century as artisans and entrepreneurs provided the foundation for the great tradition of the Russian virtuoso in the performance and the composition of piano music It also helped bring about a transformative change in the material culture as the piano expanded its reach

from the court and the nobility to include music enthusiasts from all social classes and Russian families in their homes This historical study brings to light the impact of neglected piano artisans in nineteenth century Russia and presents a fresh view of the social and economic ties between the state and the piano manufacturing artisans in an era largely defined by handcrafting and entrepreneurship It contributes significantly to current issues surrounding the role of the piano and the entrepreneur artisans in the urban centers of imperial Russia and represents an expansion of what is currently known about the piano builders who established workshops in Russia beginning in the late 1830s and 1840s well before the heyday of the virtuoso in that country Rare documents including letters memoirs gazettes exhibition catalogs music journals and administrative reports form the nucleus of this book and provide fascinating insights about state and private patronage and the class economic issues related to the affordability and prestige of the piano in Russia Issues surrounding the transformation of the music industry in Russia the role of women as patrons and performers the exportation of instruments to the Russian Far East and the complex system of tariffs and trade protection that benefited domestic piano manufacturers provide this book s thematic links Conclusions indicate that while favorable tariff laws and state imposed economic policies benefited the family owned firms in the nineteenth century they remained in effect in the decades after the nationalization of the piano industry in 1917

Fandom, Authenticity, and Opera A. Fishzon, 2013-09-11 In Russia at the turn of the twentieth century printed literature and performances from celebrity narratives and opera fandom to revolutionary acts and political speeches frequently articulated extreme emotional states and passionate belief A uniquely intense approach to public life and

private expression the melodramatic imagination is at the center of this study Previously scholars have only indirectly addressed the everyday appropriation of melodramatic aesthetics in Russia choosing to concentrate on canonical texts and producers of mass culture Collective fantasies and affects are daunting objects of study difficult to render and almost impossible to prove empirically Music and art historians with some notable exceptions have been reluctant to discuss reception for similar reasons By analyzing the artifacts and practices of a commercialized opera culture author Anna Fishzon provides a solution to these challenges Her focus on celebrity and fandom as features of the melodramatic imagination helps illuminate Russian modernity and provides the groundwork for comparative studies of fin de siècle European popular and high culture selfhood authenticity and political theater

On the Periphery of Europe, 1762-1825 Andreas Schönle, Andrei Zorin, 2018-11-16 Throughout the eighteenth century the Russian elite assimilated the ideas emotions and practices of the aristocracy in Western countries to various degrees while retaining a strong sense of their distinctive identity In *On the Periphery of Europe 1762-1825* Andreas Schönle and Andrei Zorin examine the principal manifestations of Europeanization for Russian elites in their daily lives through the import of material culture the adoption of certain social practices travel reading patterns and artistic consumption The authors consider five major sites of Europeanization court culture religion education literature and provincial life The Europeanization of the Russian elite paradoxically strengthened its pride in its Russianness precisely because it participated in networks of interaction and exchange with European elites and shared in their linguistic and cultural capital In this way Europeanization generated forms of sociability that helped the elite consolidate its corporate identity as distinct from court society and also from the people The Europeanization of Russia was uniquely intense complex and pervasive as it aimed not only to emulate forms of behavior but to forge an elite that was intrinsically European while remaining Russian The second of a two volume project the first is a multi authored collection of case studies this insightful study will appeal to scholars and students of Russian and East European history and culture as well as those interested in transnational processes

Portrait of a Russian Province Catherine Evtuhov, 2011-11-13 Several stark premises have long prevailed in our approach to Russian history It was commonly assumed that Russia had always labored under a highly centralized and autocratic imperial state The responsibility for this lamentable state of affairs was ultimately assigned to the profoundly agrarian character of Russian society The countryside home to the overwhelming majority of the nation s population was considered a harsh world of cruel landowners and ignorant peasants and a strong hand was required for such a crude society A number of significant conclusions flowed from this understanding Deep and abiding social divisions obstructed the evolution of modernity as experienced naturally in other parts of Europe so there was no Renaissance or Reformation merely a derivative Enlightenment and only a distorted capitalism And since only despotism could contain these volatile social forces it followed that the 1917 Revolution was an inevitable explosion resulting from these intolerable contradictions and so too were the blood soaked realities of the Soviet regime that came after In short the sheer immensity of its provincial backwardness could explain almost everything negative about the course of Russian history This book undermines these preconceptions Through her close study of the province of Nizhnii Novgorod in the nineteenth century Catherine Evtuhov demonstrates how nearly everything we thought we knew about the dynamics of Russian society was wrong Instead of peasants ground down by poverty and ignorance we find skilled farmers talented artisans and craftsmen and enterprising tradespeople Instead of an exclusively centrally administered state we discover effective and participatory local government Instead of pervasive ignorance we are shown a lively cultural scene and an active middle class Instead of a defining Russian exceptionalism we find a world recognizable to any historian of nineteenth century Europe Drawing on a wide range of Russian social environmental economic cultural and intellectual history and synthesizing it with deep archival research of the Nizhnii Novgorod province Evtuhov overturns a simplistic view of the Russian past Rooted in but going well beyond provincial affairs her book challenges us with an entirely new perspective on Russia s historical trajectory

How Russia Learned to Talk Stephen Lovell, 2020 How Russia Learned to Talk offers an entirely new perspective on Russian political culture showing the era from Alexander II s Great Reforms to early Stalinism as a single stenographic age with all of Russia s rulers whether tsars or Bolsheviks grappling with the challenges and opportunities of mass politics and modern communications

Antisemitism and Islamophobia in Europe James Renton, Ben Gidley, 2017-04-05 This is the first book to examine the relationship between European antisemitism and Islamophobia from the Crusades until the twenty first century in the principal flashpoints of the two racisms With case studies ranging from the Balkans to the UK the contributors take the debate away from politicised polemics about whether or not Muslims are the new Jews Much previous scholarship and public

discussion has focused on comparing European ideas about Jews and Judaism in the past with contemporary attitudes towards Muslims and Islam This volume rejects this approach Instead it interrogates how the dynamic relationship between antisemitism and Islamophobia has evolved over time and space The result is the uncovering of a previously unknown story in which European ideas about Jews and Muslims were indeed connected but were also ripped apart Religion empire nation building and war all played their part in the complex evolution of this relationship As well as a study of prejudice this book also opens up a new area of inquiry how Muslims Jews and others have responded to these historically connected racisms The volume brings together leading scholars in the emerging field of antisemitism Islamophobia studies who work in a diverse range of disciplines anthropology history sociology critical theory and literature Together they help us to understand a Europe in which Jews and Arabs were once called Semites and today are widely thought to be on two different sides of the War on Terror
