Church and People in the Medieval West, 900-1200 Sarah Hamilton, 2015-08-12 During the middle ages belief in God was the single more important principle for every person and the all powerful church was the most important institution It is impossible to understand the medieval world without understanding the religious vision of the time and this new textbook offers an approach which explores the meaning of this in day to day life as well as the theory behind it Church and People in the Medieval West gets to the root of belief in the Middle Ages covering topics including pastoral reform popular religion monasticism heresy and much more throughout the central middle ages from 900 1200 Suitable for undergraduate courses in medieval history and those returning to or approaching the subject for the first time **The New Cambridge Bibliography of English Literature: Volume 1, 600-1660** George Watson, Ian Roy Willison, 1974-08-29 More than fifty specialists have contributed to this new edition of volume 1 of The Cambridge Bibliography of English Literature The design of the original work has established itself so firmly as a workable solution to the immense problems of analysis articulation and coordination that it has been retained in all its essentials for the new edition The task of the new contributors has been to revise and integrate the lists of 1940 and 1957 to add materials of the following decade to correct and refine the bibliographical details already available and to re shape the whole according to a new series of conventions devised to give greater clarity and consistency to the entries **A History of Preaching Volume 1** O.C. Edwards, Jr., 2010-09-01 A History of Preaching brings together narrative history and primary sources to provide the most comprehensive guide available to the story of the church's ministry of proclamation Bringing together an impressive array of familiar and lesser known figures Edwards paints a detailed compelling picture of what it has meant to preach the gospel Pastors scholars and students of homiletics will find here many opportunities to enrich their understanding and practice of preaching Volume 1 appearing in the print edition contains Edwards's magisterial retelling of the story of Christian preaching's development from its Hellenistic and Jewish roots in the New Testament through the late twentieth century's discontent with outdated forms and emphasis on new modes of preaching such as narrative Along the way the author introduces us to the complexities and contributions of preachers both with whom we are already acquainted and to whom we will be introduced here for the first time Origen Chrysostom Augustine Bernard Aquinas Luther Calvin Wesley Edwards Rauschenbusch Barth all of their distinctive contributions receive careful attention Yet lesser known figures and developments also appear from the ninth century reform of preaching championed by Hrabanus Maurus to the reference books developed in the thirteenth and fourteenth centuries by the mendicant orders to assist their members preaching to Howell Harris and Daniel Rowlands preachers of the eighteenth century Welsh revival to Helen Kenyon speaking as a layperson at the 1950 Yale Beecher lectures about the view of preaching from the pew Volume 2 contained on the enclosed CD ROM contains primary source material on preaching drawn from the entire scope of the church's twenty centuries The author has written an introduction to each selection placing it in

its historical context and pointing to its particular contribution Each chapter in Volume 2 is geared to its companion chapter in Volume 1 s narrative history Ecumenical in scope fair minded in presentation appreciative of the contributions that all the branches of the church have made to the story of what it means to develop deliver and listen to a sermon A History of Preaching will be the definitive resource for anyone who wishes to preach or to understand preaching s role in living out the gospel This work is expected to be the standard text on preaching for the next 30 years says Ann K Riggs who staffs the NCC s Faith and Order Commission Author Edwards former professor of preaching at Seabury Western Theological Seminary is co moderator of the commission which studies church uniting and church dividing issues A History of Preaching is ecumenical in scope and will be relevant in all our churches we all participate in this field says Riggs from EcuLink Number 65 Winter 2004 2005 published by the National Council of Churches

The Apocalyptic Year 1000 Richard Landes, Andrew Gow, David Van Meter, 2003-06-05 The essays in this book challenge prevailing views on the way in which apocalyptic concerns contributed to larger processes of social change at the first millennium Several basic questions unify the essays What chronological and theological assumptions underlay apocalyptic and millennial speculations around the Year 1000 How broadly disseminated were those speculations Can we speak of a mentality of apocalyptic hopes and anxieties on the eve of the millennium If so how did authorities respond to or even contribute to the formation of this mentality What were the social ramifications of apocalyptic hopes and anxieties and of any efforts to suppress or redirect the more radical impulses that bred them How did contemporaries conceptualize and then historicize the passing of the millennial date of 1000 Including the work of British French German Dutch and American scholars this book will be the definitive resource on this fascinating topic and should at the same time provoke new interest in and debate on the nature and causes of social change in early medieval Europe

Early English in the Computer Age Matti Rissanen, Merja Kytö, Minna Palander-Collin, 1993 The future of English linguistics as envisaged by the editors of Topics in English Linguistics lies in empirical studies which integrate work in English linguistics into general and theoretical linguistics on the one hand and comparative linguistics on the other The TiEL series features volumes that present interesting new data and analyses and above all fresh approaches that contribute to the overall aim of the series which is to further outstanding research in English linguistics

Taavitsainen,2011-09-08 No detailed description available for History of Englishes The English and the Normans Hugh M. Thomas,2003-04-10 Since the Anglo Norman period itself the relations between the English and the Normans have formed a subject of lively debate For most of that time however complacency about the inevitability of assimilation and of the Anglicization of Normans after 1066 has ruled This book first challenges that complacency then goes on to provide the fullest explanation yet for why the two peoples merged and the Normans became English Drawing on anthropological theory the latest scholarship on Anglo Norman England and sources ranging from charters and legal documents to saints lives and romances it provides a complex exploration of ethnic relations on the levels of personal interaction cultural assimilation and the construction of identity As a result the work provides an important case study in pre modern ethnic relations that combines both old and new approaches and sheds new light on some of the most important developments in English history

Runes and Roman Letters in Anglo-Saxon Manuscripts Victoria Symons,2016-10-24 This book presents the first

comprehensive study of Anglo Saxon manuscript texts containing runic letters To date there has been no comprehensive study of these works in a single volume although the need for such an examination has long been recognized This is in spite of a growing academic interest in the mise en page of early medieval manuscripts The texts discussed in this study include Old English riddles and elegies the Cynewulfian poems charms Solomon and Saturn I and the Old English Rune Poem The focus of the discussion is on the literary analysis of these texts in their palaeographic and runological contexts Anglo Saxon authors and scribes did not of course operate within a vacuum and so these primary texts are considered alongside relevant epigraphic inscriptions physical objects and historical documents Victoria Symons argues that all of these runic works are in various ways thematically focused on acts of writing visual communication and the nature of the written word The conclusion that emerges over the course of the book is that when encountered in the context of Anglo Saxon manuscripts runic letters consistently represent the written word in a way that Roman letters do not

King Alfred's Book of Laws Todd Preston, 2014-01-10 During the early Middle Ages King Alfred reigned 871-99 gained fame as the ruler who brought learning back to England after decades of Viking invasion Although analysis of Alfred's canon typically focuses on his religious and philosophical texts his relatively overlooked law code or Domboc reveals much about his rule and how he was perceived in subsequent centuries Joining major voices in the fields of early English law and literature this exploration of King Alfred's influential text traces its evolution from its 9th century origins to reappearances in the 11th 12th and 16th centuries Alfred's use of the vernacular and representation of secular practices this work contends made the Domboc an ideal text for establishing a particularly English national identity

The Sermon Beverly Mayne Kienzle, 2000 The central literary genre in the life of medieval Christians and Jews the sermon is an exceedingly rich but until recently underutilized source for scholars of medieval culture Extant in thousands of unedited manuscripts sermons provide crucial insights into the mentalities of medieval people yet they also pose difficult methodological challenges The Sermon volume 81-83 in the series *Typologie des sources du moyen age occidental* offers both a practical guide to methodology and extensive coverage of both Latin and vernacular texts This significant work provides a bridge from sermonists to other scholars inviting them into the study of this exciting and challenging genre The Sermon provides guidelines for historical criticism that apply to the sermon genre An extensive bibliography of works pertinent to the genre opens the volume it is divided into sections corresponding to the subsequent chapters The book's Introduction focuses on the definition of the genre attempting to establish a working typology of the sermon both as a literary genre and as a medieval text The Jewish Sermon precedes the chapter on Christian sermons for the latter the genre's development from Latin to the vernacular serves as the organizational guide The Latin Sermon is represented in *Early Medieval Homilies* and

Homiliaries The Twelfth Century Monastic Sermon the Sermons of the Twelfth Century Schoolmasters and Canons and the Latin Sermons after 1200 The chapter of medieval preaching in Italy encompasses both Latin and vernacular sermons and the several chapters devoted to vernacular texts include Old English Middle English Old Norse French Spanish Portuguese and Catalan and German Several topics are discussed in each chapter the definition of the genre its development its diffusion its value for historians the principal editions and or manuscripts A Critical Dictionary of English Literature and British and American Authors Living and Deceased Samuel Austin Allibone,1876 A Critical Dictionary of English Literature and British and American Authors, Living and Deceased, from the Earliest Accounts to the Latter Half of the Nineteenth Century Samuel Austin Allibone,1871 **A Critical Dictionary of English Literature and British and American Authors S.
