Sir John Macdonell

Servant Or Master:

A Treatise on the Law of Master and Servant Charles Manley Smith, 1860 A Treatise on the Law of Master and Servant Horace Gay Wood, 1877 **The law of master and servant** Sir John Macdonell, 1883 Treatise on Master and Servant, Employer and Workman, and Master and Apprentice, According to the Law of Scotland Lord Patrick Fraser Fraser, Patrick Fraser, 1882 **A Treatise on the law of all actions and suits within the jurisdiction of the Civil Bill Court, and the principles, pleading, and evidence relating thereto** Matthew O'Donnell, 1844 Servants and the Gothic, 1764-1831 Kathleen Hudson, 2018-12-14 This book explores a complex historical background to fully contextualise the development of the early Gothic mode and the servant character's role as a speaking and performing figure in literature. This book includes a comprehensive engagement with a wide range of source texts unpacking the theoretical elements of the Gothic mode through close readings of individual works. This book brings together readings of novels, plays, and adaptations both contemporary and modern to construct a full picture of the literary and cultural forces that shaped the literary servant's role and the Gothic mode's identity. This book addresses a critically important yet much underrepresented area of Gothic studies by examining servant characters and their use of narrative.

The Aesthetics of Service in Early Modern England Elizabeth Rivlin, 2012 In *The Aesthetics of Service in Early Modern England* Elizabeth Rivlin explores the ways in which servant-master relationships reshaped literature. The early modern servant is enjoined to obey his or her master out of dutiful love, but the servant's duty actually amounts to standing in for the master, a move that opens the possibility of becoming master. Rivlin shows that service is fundamentally a representational practice in which the servant who acts for a master merges with the servant who acts as a master. Rivlin argues that in the early modern period servants found new positions as subjects and authors found new forms of literature. Representations of servants and masters became a site of contact between pressing material concerns and evolving aesthetic ones. Offering readings of dramas by Shakespeare, Jonson, and Thomas Dekker and prose fictions by Thomas Deloney and Thomas Nashe, Rivlin suggests that these authors discovered their own exciting and unstable projects in the servants they created.
