Walking Shadows Ib Johansen,2015-08-25 Walking Shadows focuses on the American fantastic and the American grotesque attempting in this manner for the first time to establish an overview of and a theoretical approach to two literary modes that have often been regarded as essential to an understanding of the American cultural canon The central importance of these two literary forms has been pointed out earlier by important theorists such as Stanley Cavell David Reynolds and William Van O Connor A number of literary works from the beginning of the nineteenth to the end of the twentieth centuries are taken up in order to illustrate the inherent links or family resemblances between the two modes with special reference to the way in which a Bakhtinian reading may facilitate our appreciation of their status within the canon These excursions into the House of Fantastic and Grotesque Fiction may be of interest not only to hardcore aficionados but also to philosophically minded readers in general in particular perhaps to those who have paid acute attention to debates on late twentieth and early twenty first century post structuralism and deconstruction where the classic positions of Foucault Derrida et al still appear to be relevant

Religion and Anthropology Brian Morris, 2006. This important textbook provides a critical introduction to the social anthropology of religion focusing on more recent classical ethnographies. Comprehensive, free of scholastic jargon, engaging and comparative in approach, it covers all the major religious traditions that have been studied concretely by anthropologists: Shamanism, Buddhism, Islam, Hinduism, Christianity and its relation to African and Melanesian religions, and contemporary Neopaganism. Eschewing a thematic approach and treating religion as a social institution and not simply as an ideology or symbolic system, the book follows the dual heritage of social anthropology in combining an interpretative understanding and sociological analysis. The book will appeal to all students of anthropology, whether established scholars or initiates to the discipline, as well as to students of the social sciences and religious studies, and for all those interested in comparative religion.
