Long March, Short Spring Barbara Ehrenreich, John Ehrenreich, 1969 *Reading the 21st Century* Stan Persky, 2012
The state of the world books and reading **The Forms of Youth** Stephen Burt, 2007 Early in the twentieth century Americans and other English speaking nations began to regard adolescence as a separate phase of life Associated with uncertainty inwardness instability and sexual energy adolescence acquired its own tastes habits subcultures slang economic interests and art forms The first comprehensive study of adolescence in twentieth century poetry The Forms of Youth recasts the history of how English speaking cultures began to view this phase of life as a valuable state of consciousness if not the very essence of a Western identity **BOOK JACKET** Natural Causes Barbara Ehrenreich, 2018-04-10 From the celebrated author of Nickel and Dimed Barbara Ehrenreich explores how we are killing ourselves to live longer not better A razor sharp polemic which offers an entirely new understanding of our bodies ourselves and our place in the universe Natural Causes describes how we over prepare and worry way too much about what is inevitable One by one Ehrenreich topples the shibboleths that guide our attempts to live a long healthy life from the importance of preventive medical screenings to the concepts of wellness and mindfulness from dietary fads to fitness culture But Natural Causes goes deeper into the fundamental unreliability of our bodies and even our mind bodies to use the fashionable term Starting with the mysterious and seldom acknowledged tendency of our own immune cells to promote deadly cancers Ehrenreich looks into the cellular basis of aging and shows how little control we actually have over it We tend to believe we have agency over our bodies our minds and even over the manner of our deaths But the latest science shows that the microscopic subunits of our bodies make their own decisions and not always in our favor We may buy expensive anti aging products or cosmetic surgery get preventive screenings and eat more kale or throw ourselves into meditation and spirituality But all these things offer only the illusion of control How to live well even joyously while accepting our mortality that is the vitally important philosophical challenge of this book Drawing on varied sources from personal experience and sociological trends to pop culture and current scientific literature Natural Causes examines the ways in which we obsess over death our bodies and our health Both funny and caustic Ehrenreich then tackles the seemingly unsolvable problem of how we might better prepare ourselves for the end while still reveling in the lives that remain to us *Becoming Utopian* Tom Moylan, 2020-11-26 A dream of a better world is a powerful human force that inspires activists artists and citizens alike In this book Tom Moylan one of the pioneering scholars of contemporary utopian studies explores the utopian process in its individual and collective trajectory from dream to realization Drawing on theorists such as Fredric Jameson Donna Haraway and Alain Badiou and science fiction writers such as Kim Stanley Robinson and China Mi ville *Becoming Utopian* develops its argument for sociopolitical action through studies that range from liberation theology ecological activism and radical pedagogy to the radical movements of 1968 Throughout Moylan speaks to the urgent need to confront and transform the global environmental economic political

and cultural crises of our time **Environmental Politics for a Changing World** Ronnie D. Lipschutz, Doreen Stabinsky, 2018-07-12 This book argues that environmental problems are first and foremost political and therefore about power Using a framework of political economy and political ecology the authors deconstruct current environmental problems to identify root causes and address those problems through mobilization of collective action and social power The second edition also offers Updated examples and stories of political struggles and the actors involved Explicit attention to various forms of power in environmental politics including structural and social power Local politics and collective action as related to global environmental politics Discussion of emerging issues such as synthetic biology commodification and financialization of nature including carbon markets and geoengineering A study guide for Barbara Ehrenreich's "Nickel and Dimed: On (Not) Getting By in America" Gale, Cengage Learning, 2015-03-13 A study guide for Barbara Ehrenreich's Nickel and Dimed On Not Getting By in America excerpted from Gale's acclaimed Literary Newsmakers for Students series This concise study guide includes plot summary character analysis author biography study questions historical context suggestions for further reading and much more For any literature project trust Literary Newsmakers for Students for all of your research needs

consequences the authors consider in depth They also compare political outcomes of several contemporary movements specifically women s peace ecology and extreme rights movements in different countries **Backpack Ambassadors**

Richard Ivan Jobs,2017-05-23 Even today in an era of cheap travel and constant connection the image of young people backpacking across Europe remains seductively romantic In Backpack Ambassadors Richard Ivan Jobs tells the story of backpacking in Europe in its heyday the decades after World War II revealing that these footloose young people were doing more than just exploring for themselves Rather with each step each border crossing each friendship they were quietly helping knit the continent together From the Berlin Wall to the beaches of Spain the Spanish Steps in Rome to the Pudding Shop in Istanbul Jobs tells the stories of backpackers whose personal desire for freedom of movement brought the people and places of Europe into ever closer contact As greater and greater numbers of young people trekked around the continent and a truly international youth culture began to emerge the result was a Europe that even in the midst of Cold War tensions found its people more and more connected their lives more and more integrated Drawing on archival work in eight countries and five languages and featuring trenchant commentary on the relevance of this period for contemporary concerns about borders and migration Backpack Ambassadors brilliantly recreates a movement that was far more influential and important than its footsore travelers could ever have realized **Living with a Wild God**

Barbara Ehrenreich,2014-04-08 From the New York Times bestselling author of Nickel and Dimed comes a brave frank and exquisitely written memoir that will change the way you see the world Barbara Ehrenreich is one of the most important thinkers of our time Educated as a scientist she is an author journalist activist and advocate for social justice In Living With a Wild God she recounts her quest beginning in childhood to find the Truth about the universe and everything else What s really going on Why are we here In middle age she rediscovered the journal she had kept during her tumultuous adolescence which records an event so strange so cataclysmic that she had never in all the intervening years written or spoken about it to anyone It was the kind of event that people call a mystical experience and to a steadfast atheist and rationalist nothing less than shattering In Living With a Wild God Ehrenreich reconstructs her childhood mission bringing an older woman s wry and erudite perspective to a young girl s impassioned obsession with the questions that at one point or another torment us all The result is both deeply personal and cosmically sweeping a searing memoir and a profound reflection on science religion and the human condition With her signature combination of intellectual rigor and uninhibited imagination Ehrenreich offers a true literary achievement a work that has the power not only to entertain but amaze Fear of Falling
