Long Turn Toward Light:

CAVENOMICS:Turning Towards Light Binu Peniel,2018-07-04 The allegory of the cave by Plato is the genre of this book Plato claims that knowledge gained through the senses is no more than opinion and in order to have real knowledge we must gain it through philosophical reasoning A journey through this book is intended to create a lasting influence in the lives of people through creating values I believe that enlightenment is possible only through awareness and through a mind shift This work brings value to your life which is Christ centered innovative motivational and empowering and it is a journey towards light There are many people who journey with me in this process of healing recovery and restoration from a labor trafficking situation I truly believe no one can be a slave until and unless one gives up ones willpower and ones own desire to be set free Cavenomics is an attempt to enlighten your mind your spirit your soul and your being Liberation freedom recovery and restoration is possible Cavenomics is the mantra for success

Let history drop behind as we explore the sacred confines of a temple city built by a race that was here long before us before our species was even a glimmer in the cosmic eye and whose work is still evident usable and heuristic Dominated by a mountain sculpted as a pregnant women with a lion at her feet and a rearing serpent behind the site is still alive with eddies of spiritual energy Between the colossal lady and lion is a saddle in the mountain beautified by mazes of stone sparkling sand terraces and the gardens of windswept splendor with the rock everywhere seeming to be incised with aesthetic undecipherable hieroglyphics The site is beautiful bolstering and enlivened geometrically tuned to the cosmos whose forces it appropriates to utilize in various ways Join in as we uncover a few of the marvels of an authentically magical place with a psychedelic consciousness adapted to tuning into the ancient mysteries giving a new dynamism to the on going story if a truly sacred mountain

Danger Down Under Paul L. Holbert,2001-01-16 Most people look forward to their annual vacations Some want to relax and do nothing while others seek the thrill of diving with man eating sharks or bungee jumping from a suspension bridge high above a rock canyon to stir up their paltry existence In Danger Down Under a group of ordinary people from different walks of life find themselves in an extraordinary position After recently leaving the military Gary and his wife Amanda are hoping a vacation to Australia will mend their strained marriage A day of charter fishing ends with them stranded by a storm on a small island with six fellow vacationers none of who had any such activities in their getaway plans Its the kind of thing that would make a body hire a new travel agent While the group of castaways deal with their survival situation Dr Larry Williams a scientist studying marine life off the northern coast of Australia discovers an unusual chemical imbalance of unknown origin in many of his specimens As he searches for the cause local residents began to disappear throwing a panic into the police department and the authorities mobilize to join in on the quest for answers Research leads Dr Williams to a library in Sydney that hints of a convoy from Germany sunk in 1943 by the American Navy on its way to Japan with a cargo of nerve agent He also finds corroborating evidence from the local hotel manager whose uncle served as a coast watcher and begins to expose the cover up of a leak that is causing genetic aberrations in the water one of which is an over sized Komodo Dragon Mysteriously the uncle is poisoned Concern over the fate of the shipwrecked tourists grows as the police deal with missing people from the town and Lieutenant Harry Morgan commander of the search and rescue station sends several vessels out to comb the area Little does Dr Williams know that there are forces at work trying to hamper his research and prevent him from learning any more than he already has He eventually convinces his friend Captain

Dave Weeks an Army officer stationed in Hawaii to listen to his conscience and help him expose the cover up Risking his career and prison Captain Weeks steals secret files about the convoy and leaves for Australia to assist the scientist As science and government head on a collision course the creature prowling the strait in search of food terrorizes Gary and his fellow castaways It has developed a healthy appetite for human flesh by the way Concerned that their safety is in jeopardy they decide to launch Gary out in their life raft to hopefully run down a passing boat or plane only to have him pounded by a storm He is finally picked up by one of Lieutenant Morgans cutters but thanks to the storm no longer knows which direction he came from The story comes to a head when Gary attempts to lead a rescue mission back for his wife and her fellow castaways before government agents can find them Standing in their way is the government bureaucracy that wants to keep the secret intact and the creature that mans indifference has created No boring 35mm vacation slides from this trip
