too many of us unknowingly live by Indeed Delany challenges an impressive list of world models here including High and Low Art sanity and madness mathematical logic and the mechanics of mythmaking the distribution of wealth in our society and the limitations of our sexual vocabulary Also included are two essays that illustrate Delany's unique chrestomathic technique the grouping of textual fragments whose associative interrelationships a reader must actively trace to read them as a resonant argument Whether writing about Wagner or Hart Crane Foucault or Robert Mapplethorpe Delany combines a fierce and often piercing vision with a powerful honesty that beckons us to share in the perspective of these Longer Views An intellectually adventurous book Every page of every essay here rewards a second reading and a third Delany has a fearsomely stocked intellect and a wider range of experience than most writers can even imagine He is brilliant driven prolific The Nation One of science fiction's grand masters Delany's elegant command of language and deep insight into other authors' works are delightful to behold Booklist Rare personal frankness and stunning erudition Recommended for readers who enjoy the challenge of being led into remote regions of a gifted mind Library Journal Film and History James Chapman, 2017-09-16 Film is the pre eminent mass medium of the modern age It is a valuable source of evidence for the study of both the past and the contemporary world and is a social practice that has affected the lives of millions How can historians engage with this important and influential medium Written for both students and teachers Film and History provides a concise accessible introduction to the use of film in historical enquiry and a summary of the main theoretical debates Charts the development of film history as a subject area and a discipline in its own right Considers different approaches to film history including film as an art form as ideology as a historical source and as a social practice Includes case studies to ground discussion of theories and approaches in specific examples Wide ranging and authoritative Film and History equips students with the methods both to analyse film texts and to understand the place of film in history and culture

The Long View Richard Fisher, 2023-03-30 A wide ranging and thought provoking exploration of the importance of long term thinking Humans are unique in our ability to understand time able to comprehend the past and future like no other species Yet modern day technology and capitalism have supercharged our short termist tendencies and trapped us in the present at the mercy of reactive politics quarterly business targets and 24 hour news cycles It wasn't always so In medieval times craftsmen worked on cathedrals that would be unfinished in their lifetime Indigenous leaders fostered intergenerational reciprocity And in the early twentieth century writers dreamed of worlds thousands of years hence Now as we face long term challenges on an unprecedented scale how do we recapture that far sighted vision Richard Fisher takes us from the boardrooms of Japan home to some of the world's oldest businesses to European laboratories where scientists work as custodians on centuries long experiments He examines the psychological biases that discourage the long view and talks to the growing number of people from the worlds of philosophy technology science and the arts who are exploring smart ways to overcome them How can we learn to widen our perception of time and honour our obligations to the lives of those not yet born

Mimetic Theory and World Religions Wolfgang Palaver, Richard Schenk, 2017-11-01 Those who anticipated the demise of religion and the advent of a peaceful secularized global village have seen the last two decades confound their predictions Ren Girard's mimetic theory is a key to understanding the new challenges posed by our world of resurgent violence and pluralistic cultures and traditions Girard sought to explain how the Judeo Christian narrative exposes a founding murder at the origin of human civilization and demystifies the bloody sacrifices of archaic religions Meanwhile his book *Sacrifice* a reading of conflict and sacrificial resolution in the Vedic Brahmanas suggests that mimetic theory's insights also resonate with several non Western religious and spiritual traditions This volume collects engagements with Girard by scholars of Judaism Christianity Islam Hinduism and Buddhism and situates them within contemporary theology philosophy and religious studies
