Look And Learn Hello Numbers Learn To Count 1992:

Bowker's Complete Video Directory 2001 ,2001 Video Source Book ,2008 The Arithmetic Teacher ,1993

Bowker's Directory of Videocassettes for Children 1999 R R Bowker Publishing,Bowker,1999-03 The Acquisition of Numeral Classifiers Kasumi Yamamoto,2011-05-03 The book is about the numeral classifier system and the acquisition of Japanese classifiers by Japanese children It consists of two parts First it provides a general typological characterization of numeral classifier phrases and discusses problems in determining what constitutes the nature of classifiers It also discusses the semantic properties of numeral classifiers based on an analysis of four languages from four different language families Second it examines the acquisitions of Japanese numeral classifiers by Japanese preschool children ages 3 to 6 with a primary emphasis on the development of comprehension The importance of the study is that it reveals that young children have a much greater sensitivity to the conceptual underpinnings of the numeral classifier system than was previously considered to be the case The research results also provide a converging source of evidence that young children often come to initially grasp the structure of the world in ways that are better understood in cognitive than perceptual terms The implications will contribute to not only the area of language acquisition but also categorization and conceptual development
