Trafficking Culture Simon Mackenzie,Neil Brodie,Donna Yates,Christos Tsirogiannis,2019-08-15 Trafficking Culture outlines current research and thinking on the illicit market in antiquities It moves along the global trafficking chain from source to market identifying the main roles and routines involved Using original research the authors explore the dynamics of this grey market where legal and illegal goods are mixed and conflated It compares and contrasts this illicit trade with other transnational criminal markets such as the illegal trades in wildlife and diamonds The analytical frames of organized crime and white collar crime drawn from criminology provide a fresh perspective on a problem that has tended to be seen as archaeological rather than criminological Bringing insights from both disciplines together this book represents a productive discourse between experts in these two fields working together for several years to produce the evidence base that is reported here Innovative forms of regulation are the most productive way to explore crime control in this field and this book provides a series of propositions about practical crime reduction measures for the future It will be invaluable to academics working in the fields of archaeology criminology art history museum studies and heritage The book will also be a vital resource for professionals in the field of cultural property protection and preservation
