Kent, 2004 Historian F W Kent offers a new look at Lorenzo's relationship to the arts aesthetics collecting and building especially in the context of his role as the political boss maestro della bottega of republican Florence and a leading player in Renaissance Italian diplomacy Kent's approach reveals Lorenzo's activities as an art patron as far more extensive and creative than previously thought Known as the Magnificent Lorenzo was broadly interested in the arts and supported efforts to beautify Florence and the many Medici lands and palaces His expertise was well regarded by guildsmen and artists who often turned to him for advice as well as for patronage **A Detailed**

Dutch Republic Stijn Bussels, Bram Van Oostveldt, 2023-11-07 Contrary to what Kant believed about the Dutch and their visual culture as being of an orderly and diligent position and thus having no feeling for the sublime this book argues that the sublime played an important role in seventeenth century Dutch visual culture By looking at different visualizations of exceptional heights divine presence political grandeur extreme violence and extraordinary artifacts the authors demonstrate how viewers were confronted with the sublime which evoked in them a combination of contrasting feelings of awe and fear attraction and repulsion In studying seventeenth century Dutch visual culture through the lens of notions of the sublime we

can move beyond the traditional and still widespread views on Dutch art as the ultimate representation of everyday life and the expression of a prosperous society in terms of calmness neatness and order The book will be of interest to scholars working in art history visual culture architectural history and cultural history The Open Access version of this book available at www.taylorfrancis.com has been made available under a Creative Commons Attribution Non Commercial No Derivatives CC BY NC ND 4 0 4 0 International license Funded by Ghent University

The Study Andrew Hui, 2024-12-03 A uniquely personal account of the life and enduring legacy of the Renaissance library. With the advent of print in the fifteenth-century Europe, the cultural elite assembled personal libraries as refuges from persecutions and pandemics. Andrew Hui tells the remarkable story of the Renaissance *studiolo*, a little studio, and reveals how these spaces dedicated to self-cultivation became both a remedy and a poison for the soul. Blending fresh, insightful readings of literary and visual works with engaging accounts of his life as an insatiable bookworm, Hui traces how humanists from Petrarch to Machiavelli to Montaigne created their own intimate studies. He looks at imaginary libraries in Rabelais, Cervantes, Shakespeare, and Marlowe and discusses how Renaissance painters depicted the Virgin Mary and St. Jerome as saintly bibliophiles. Yet writers of the period also saw a dark side to solitary reading. It drove Don Quixote to madness, Prospero to exile, and Faustus to perdition. Hui draws parallels with our own age of information surplus and charts the *studiolo*'s influence on bibliographic fabulists like Jorge Luis Borges and Umberto Eco. Beautifully illustrated, *The Study* is at once a celebration of bibliophilia and a critique of bibliomania. Incorporating perspectives on Islamic, Mughal, and Chinese book cultures, it offers a timely and eloquent meditation on the ways we read and misread today.

The Amsterdam Town Hall in Words and Images Stijn Bussels, Caroline Van Eck, Bram Van Oostveldt, 2021-05-20 The most famous monument of the Dutch Golden Age is undoubtedly the Amsterdam Town Hall by architect Jacob van Campen, inaugurated in 1655. Today we stand in awe, confronted with the grand Classicist facade, the delightful horror of the sculptures in the Tribunal, and the magnificence of the huge Citizens Hall. In the period of its construction, many artists and writers tried to capture the overwhelming impact of the building by, among other comparisons, relating it to the ancient Wonders of the World and by stressing its splendour, riches, and impressive scale. In doing so, they constructed the Town Hall as the ultimate wonder, thus offering a silent but very powerful testimony to the power and position of the City of Amsterdam and its rulers as equals of the other European regimes. To fully understand these mechanisms of power, this book relates the Town Hall to other impressive buildings of the same period: the palace of the Louvre, Saint Peter's Basilica, and Banqueting House, and their visual and textual representations. Thus, this book gives a broad audience of readers new insights into the agency of magnificent buildings. *The Amsterdam Town Hall in Words and Images* does not restrict itself to a national scope or a purely architectural analysis but clarifies how artists and writers all over Europe presented buildings as wonders of the world. This book is pioneering in its analysis of seventeenth- and eighteenth-century paintings, prints, drawings, poems, and travel accounts and offers a new understanding of how the wondrous character of these grand buildings was constructed.
