McGann, 2020-09-01 Over the past decade literary critic and editor Jerome McGann has developed a theory of textuality based in writing and production rather than in reading and interpretation These new essays extend his investigations of the instability of the physical text McGann shows how every text enters the world under socio historical conditions that set the stage for a ceaseless process of textual development and mutation Arguing that textuality is a matter of inscription and articulation he explores texts as material and social phenomena as particular kinds of acts McGann links his study to contextual and institutional studies of literary works as they are generated over time by authors editors typographers book designers marketing planners and other publishing agents This enables him to examine issues of textual stability and instability in the

arenas of textual production and reproduction Drawing on literary examples from the past two centuries including works by Byron Blake Morris Yeats Joyce and especially Pound McGann applies his theory to key problems facing anyone who studies texts and textuality Computer Vision - ACCV 2012 Workshops Jong-Il Park,Junmo Kim,2013-03-27 The two volume set consisting of LNCS 7728 and 7729 contains the carefully reviewed and selected papers presented at the nine workshops that were held in conjunction with the 11th Asian Conference on Computer Vision ACCV 2012 in Daejeon South Korea in November 2012 From a total of 310 papers submitted 78 were selected for presentation LNCS 7728 contains the papers selected for the International Workshop on Computer Vision with Local Binary Pattern Variants the Workshop on Computational Photography and Low Level Vision the Workshop on Developer Centered Computer Vision and the Workshop on Background Models Challenge LNCS 7729 contains the papers selected for the Workshop on e Heritage the Workshop on Color Depth Fusion in Computer Vision the Workshop on Face Analysis the Workshop on Detection and Tracking in Challenging Environments and the International Workshop on Intelligent Mobile Vision **Airman** ,1989 The Crises of the Christ G. Island Endurance Ryan Lash,2025 Many look to Ireland s Atlantic islands as timeless places resistant to change Island Endurance offers an alternative perspective examining two neighboring islands where people have cultivated their heritage to confront new challenges and opportunities across centuries To the west Inishark is a landscape of ruins with monuments from a medieval monastery alongside the remnants of a village that endured privation and isolation before its evacuation in 1960 To the east Inishbofin remains home to a small community of nearly 200 that bustles every summer with thousands of visitors drawn by the island s reputation for hospitality and distinctive local heritage Combining archaeological discoveries with folklore and ethnography author Ryan Lash explores how islanders from three different historical eras encountered altered and reimagined traces of the past Fifteen years of fieldwork reconstruct more than a millennium of creativity from the development of pilgrimage traditions at the shrines of monastic saints to the reuse of medieval monuments for local devotions in the 19th and 20th centuries to the repurposing of ruins for managing livestock and guiding tourist trails in the 21st century Attuned to the sensory dynamics and other than human elements of landscapes Lash illustrates the power of quartz pebbles picnics and sheep farming to generate vital perceptions of place time and belonging Islanders have continually and creatively adapted their heritage to foster shared experiences negotiate collaborative relations and sustain livelihoods amid adversity Island Endurance shows us that the illusion of timelessness has always relied on the creativity of heritage **The Connells of Castle Connell** Janet Hardy,1868 **Equipment for Horses from the Period IVB Level at Tepe Hasanlu, Iran** Maude De Schauensee,2024-12-31

This book presents for the first time the complete corpus of equipment for horses excavated by The Hasanlu Project in the Iron II level at Hasanlu Tepe Iran The equipment is varied extensive and in a context sealed as buildings collapsed during the violent surprise attack and resulting fire that destroyed the town The equipment most still in its primary location ready for active use make it of particular if not unique importance It is also remarkable in the quantity recovered its variety and richness the functional types that could be identified riding draft ceremonial and the amount that could be reconstructed Its life context gives new information about equipment and usage not otherwise available and allows suggestions for the layered importance of the horse as evidenced by the equipment No other book presents equipment for horses in a similar context and quantity because the preservation at Hasanlu is unique for this part of the Near East in this time period The equipment also provides new insight into space use in Hasanlu one of the most important Iron Age sites in northwest Iran Findspots yield information about building use and reuse some as stables These and architectural alterations provide unique information regarding changes to the town over time some of which most likely reflect changes in the dynamics of the region **Queer/Early/Modern** Carla Freccero,2006-01-16 In *Queer Early Modern* Carla Freccero a leading scholar of early modern European studies argues for a reading practice that accounts for the queerness of temporality for the way past present and future time appear out of sequence and in dialogue in our thinking

about history and texts Freccero takes issue with New Historicist accounts of sexual identity that claim to respect historical proprieties and to derive identity categories from the past She urges us to see how the indeterminacies of subjectivity found in literary texts challenge identitarian constructions and she encourages us to read differently the relation between history and literature Contending that the term queer in its indeterminacy points the way toward alternative ethical reading practices that do justice to the aftereffects of the past as they live on in the present Freccero proposes a model of fantasmatic historiography that brings together history and fantasy past and present event and affect Combining feminist theory queer theory psychoanalysis deconstruction and literary criticism Freccero takes up a series of theoretical and historical issues related to debates in queer theory feminist theory the history of sexuality and early modern studies She juxtaposes readings of early and late modern texts discussing the lyric poetry of Petrarch Louise Lab and Melissa Ethridge David Halperin s take on Michel Foucault via Apuleius s The Golden Ass and Boccaccio s Decameron and France s domestic partner legislation in connection with Marguerite de Navarre s Heptameron Turning to French cleric Jean de L ry s account published in 1578 of having witnessed cannibalism and religious rituals in Brazil some twenty years earlier and to the twentieth century Brandon Teena case Freccero draws on Jacques Derrida s concept of spectrality to propose both an ethics and a mode of interpretation that acknowledges and is inspired by the haunting of the present by the past
