E. Van Vogt,2006-10-01 Empire of the Atom and The Wizard of Linn Global war smashed civilization or so the legends told but not

all of its machines A caste of scientists arose who knew how to repair and operate the ancient machines but not how they worked and worshipped at the altars of the atomic gods who were said to make the machines run Society was a strange mix of the modern and the medieval with armies riding on horseback into huge spaceships then flying to human colonies on other planets to wage war with swords and arrows Then came the mutant Clane who would have been put to death for his deformities had he not been born into the ruling family Though his body was twisted his mind was brilliant and he not only recovered the lost science behind the ancient machines but found the truth behind the legends of civilization s downfall Alien invaders not human war had reduced humanity to barbarism as a prelude for a later return in force to colonize the Solar System And that return would happen soon unless Clane could find a way to stop it For the first time the entire Clane saga told in the two novels Empire of the Atom and The Wizard of Linn is complete in one volume Mission to the Stars Van Vogt s sweeping novel of interstellar adventure is also included along with the two short novels in the Ezwal series chronicling the struggle of one man to convince a feral but intelligent species to join with humanity in the battle against a mutual enemy but first he must convince the lone Ezwal who is trapped with him in a deadly jungle to co operate or neither will survive At the publisher s request this title is sold without DRM Digital Rights Management **Black Sun** Glenn Starkey,2016-02-22 From the underworld of the Ojuela Mine to the majestic Sierra Madre Mountains and across the desert plains of northern Mexico a boy is forced to survive and grow into manhood through a turbulent decade that erupted into the bloodiest revolution of the twentieth century the Mexican Revolution of 1910 On the run for a murder he didnt commit forced to hide even his name Arnulfo Triana is swept into a maelstrom of tragedy as revolutionaries led by his mentor and friend Pancho Villa collide with the forces of a corrupt dictator Black Sun is based on actual events A young mans life unfolds against a background of poverty injustice and political corruption that finally explodes into a devastating revolution **Green City In the Sun** Barbara Wood,2012-05-01 A magnificent saga of two proud and powerful families one British one African and their battle over Kenya s destiny in the twentieth century In 1917 Dr Grace Treverton arrives in Kenya determined to bring modern medicine to the African natives Her brother Sir Valentine Treverton has his own dream for the British protectorate to establish an agricultural empire to rival any in England The aspirations of the wealthy Trevertons collide with those of the Mathenge tribe an African family that has lived on the land for years Grace soon finds a deadly rival in Mama Wachera an African medicine woman who fights to maintain native traditions against the encroaching whites After Wachera curses the Trevertons a series of tragedies threatens to destroy what the once great family fought to create But the fates of future generations of these two remarkable families are inextricably bound A bold and brilliant achievement Green City in the Sun brims with all the drama violence and fierce beauty of the Kenyan landscape **Child of the Sun** Lonn Taylor,2020-09-24 Historian Lonn Taylor built a career as a curator in history museums including the Smithsonian Institution In retirement he wrote weekly columns on the people and places of Texas signed the Rambling Boy that were distributed widely in print and

on the radio This book stands out from his numerous other books on historical and literary topics it s the only one he wrote about himself and the last book he wrote before he died in June 2019 It describes how his experience of growing up in the Philippines from 1947 to 1955 shaped his entire life by teaching him the destructive power of war In the Philippines his father was employed as a civil engineer building and rebuilding roads and bridges in the war devastated islands I lived most of my daily life in a well protected bubble of white colonialism he says in this memoir of his youth and thought nothing about it Despite that well protected bubble Taylor was aware of the ruins all around him the ravages of bombs and artillery shells and of his Filipino neighbors unbowed by their loss of wealth and privilege or their confinement and starvation in Japanese internment camps The manifest strengths and resilience of a society blended of Malay Chinese Spanish and American cultures made him a lifelong believer in the benefits of multiculturalism even as he bore witness to the islands postcolonial woes a feudal agricultural system maintained by landlords with private armies corruption so endemic that even post office clerks expected tips for selling stamps and deadly outbreaks of personal violence As an American child in the Philippines and then inevitably an outsider in the postwar America he returned to at fifteen Taylor honed a keen and varied sense of difference in class culture and language This nuanced understanding can be heard throughout *Child of the Sun* as Taylor reflects on his innocent years conveying with hard earned worldliness and wisdom all the beauty and lasting conflict of a lost world and time
