Delgado, Terry Kerby, Stephen Price, Maximilian D. Cremer, Hans K. Van Tilburg, Ole Varmer, Russell Matthews, 2016-11-16 In the pre dawn darkness of December 7 1941 five Imperial Japanese Navy submarines surfaced off the coast of Oahu Secured to the decks of these vessels were secret weapons to be deployed for the first time in modern warfare two man midget submarines intended to enter Pearl Harbor without being detected and torpedo the US Navy battleships lying at anchor there None of them would return from their mission One of the last remaining and persistent mysteries of the Pearl Harbor attack is that of the Japanese Midget Submarines It is a fascinating story of innovation courage secrets and failed expectations And it is not only a story of the morning hours of December 7 but of the years before to develop these weapons and the years after where they were deployed in the great Pacific War and how they fared as weapons of war These words by Daniel J Basta from the foreword of this work capture both the essence and the impact of The Lost Submarines of Pearl Harbor James P Delgado and his coauthors have worked on the story of these incredible craft for decades They combed the records of the US Navy and the recollections of its veterans as well as Japanese Australian and British archives in order to uncover the truth They have logged hours of direct observation and research on the midget subs in their final resting places in some cases more than 1 000 feet below the surface of the Pacific And in the end they have woven a tapestry of scholarship historical sleuthing scientific insight and good storytelling that will enthrall specialists and history enthusiasts alike Lost Subs Spencer Dunmore, 2001-01-01 As millions have come to know from such immensely popular books and movies as *The Hunt for Red October* and *U 571* the world of submarines is secretive and dangerous On the ocean floor lie over a century and a half of subs lost both in war and in peace Now for the first time the individual stories of these sunken ships are woven together to create an amazing history of underwater warfare and exploration and the price that hundreds of subs and thousands of sailors have paid In gripping text and powerful photographs including state of the art contemporary underwater images Lost Subs chronicles the fate of some of the most famous subs in naval history from the sinking of the Confederate Army's sub Hunley to the recent loss of the Russian nuclear submarine Kursk With a wealth of archival material modern deep sea photography and stunning paintings by renowned Titanic artist Ken Marschall this definitive illustrated history brings to life the museum of submarines resting in their underwater graves and the submariners on eternal patrol And it vividly re-creates the missions to explore and raise many famous sunken subs including the Hunley and the Kursk missions sometimes as fraught with peril as any wartime duty Filled with mystery drama and daring and as current as today's

 Canadas Victoria class SSKs had been derided in the press the House of Commons and by more than a few navy experts Now one of the submarines will either prove them all wrong or be destroyed trying A plan approved by Chinas leaders to gain control of the Pacific Ocean for their newly enlarged navy could bring the world to the brink of war Involving the kidnapping of a Canadian submariner they are betting on Chinese control of global financial markets to ensure there will be no reprisals A Canadian submarine a CSIS agent and a group of friends and former enemies however stand in their way Commander Rene Bourgeois is proud of his command and her crew but when HMCS Victoria stumbles upon the Chinese plot the skills of her captain and crew will be tested to the breaking point One wrong move could spell doom for the boat and along with it the Royal Canadian Navys future hopes for a submarine service www.submarinelost.com **Submarines** Rebecca Stefoff, 2007
 An examination of the origin history development and impact of the submarine and related underwater exploration and transport technology Provided by publisher *Lost Patrols* Innes McCartney, 2002-12 This book brings to life the stories of the 121 submarines that lie entombed on the seabed of the English Channel Most of them got there as the result of war and peacetime accidents The first was lost in 1774 the last was the tragic accident that befell HMS Affray in 1951 the last British submarine to have been lost at sea *Overdue and Presumed Lost* Martin Sheridan, 2013-01-15 The USS Bullhead was the last American naval vessel lost in World War II This history of the submarine from launch to disappearance is told by the only war correspondent allowed on a wartime submarine patrol Narrow escapes from floating mines fast dives to avoid enemy aircraft and a daring sortie to rescue three badly hurt survivors of a downed B 25 are just a few of the adventures Martin Sheridan recounts Trained as a feature writer he shares his own experiences as well as the humorous and poignant incidents of everyday life aboard the submarine to capture that intangible spirit of camaraderie and sense of impending danger First published in 1947 the narrative is based on a journal the author kept during the Bullhead s first war patrol in March and April 1945 and supplemental information from official Navy reports The book supported by a unique collection of period photographs describes the perilous undersea war in the Pacific as only a firsthand account can *Presumed Lost* Stephen Moore, 2009-10-01 When submarines failed to return to port from patrol they were officially listed by the Navy as overdue and presumed lost Loved ones were notified by the War Department that their siblings spouses and sons were missing in action and presumed lost While 52 U S submarines were sunk in the Pacific the Japanese took prisoners of war from the survivors of only seven of these lost submarines *Presumed Lost* is the compelling story of the final patrols of those seven submarines and the long captivity of the survivors Of the 196 sailors taken prisoner 158 would survive the horrors of the POW camps where torture starvation and slave labor were common This is the most complete and accurate record of their captivity experiences ever compiled Author Stephen L Moore draws on personal interviews with the survivors as well as on

diaries family archives and POW statements to reveal new details and correct longstanding errors in previously published accounts Moore's research brought to light the following facts Most crewmen from USS Perch endured 1 298 days of captivity without their families ever being told that they were still alive The Perch and USS Grenadier were so badly damaged by enemy depth charge attacks that their crews were forced to scuttle their ships USS Sculpin and USS S 44 went down fighting with only forty two men from the Sculpin being taken prisoner and half of them perishing on the way to Japan USS Tang and USS Tullibee victims of their own faulty circling torpedoes had few survivors five of whom managed to escape from the sunken burning Tang when it was 180 feet below the ocean surface As many as six men survived the loss of USS Robalo after it struck a mine off Palawan but none of those survived the prison camps The book includes dozens of rare photos of the POWs many of which have never before been published Appendices include final muster rolls of the seven submarines and a complete list of the U S submariners who were held as POWs with details of their various camps of internment

The USS Puffer in World War II Craig R. McDonald, 2015-03-19 Submarines were responsible for about 55 percent of the tonnage of the Japanese fleets sunk during World War II The 22 percent casualty rate of U S submariners was the highest of the military services This volume traces the career of the submarine the USS Puffer from the laying of her keel and her commissioning on April 27 1943 until her departure for the scrap yard in late 1960 Compiled from interviews with former crew members including the author's father Donald B McDonald as well as other contemporary sources it follows the crew of the Puffer through nine war patrols Events recollected include the First War Patrol which resulted in a record setting 38 hour submergence because of enemy fire the dangerous transfer of torpedoes while surfaced in enemy waters and the wild bombardment of Japanese shore installations with the 5 inch deck gun There are numerous wartime photographs and appendices providing a list of awards earned by the crew and a summary of claimed successful attacks Brief biographies of the seven commissioned officers are also included

Delgado, Clive Cussler, 2011-06-20 Silent Killers is a triumph that is educational as well as highly entertaining Clive Cussler James P Delgado President and CEO of the Institute of Nautical Archaeology presents a detailed and visually stunning examination of the history and development of the modern nuclear submarine Calling on his training as a nautical archaeologist who was among the first explorers to dive the Titanic Delgado recreates the story of the submarine from the bottom up that is through

eerie photographs of subs at the bottom of the sea In addition he explores submarine technology from wooden to iron to steel hulls from hand cranked to nuclear powered propulsion from candlelight to electricity from gunpowder torpedoes to nuclear missiles An esteemed underwater archaeologist and marine historian Jim Delgado has compiled an extraordinary history of the dragons of the deep *Poseidon* Steven R. Schwankert, 2013-10-01 Royal Navy submarine HMS Poseidon sank in collision with a freighter during routine exercises in 1931 off the Chinese coast Thirty of its fifty six man crew scrambled out of the hatches as it went down Of the twenty six who remained inside eight attempted to surface using an early form of diving equipment five of them made it safely to the surface in the first escape of this kind in submarine history and became heroes The incident was then forgotten eclipsed by the greater drama that followed in World War II until news emerged that for obscure reasons the Chinese government had salvaged the wrecked submarine in 1972 This lively account of the Poseidon incident tells the story of the accident and its aftermath and of the author's own quest to discover the shipwreck and its hidden history The Oxford Handbook of Maritime Archaeology Alexis Catsambis, Ben Ford, Donny L. Hamilton, 2011-09-08 This title is a comprehensive survey of maritime archaeology as seen through the eyes of nearly fifty scholars at a time when maritime archaeology has established itself as a mature branch of archaeology *Air Power History* Sebastian Cox, Peter Gray, 2013-11-05 The 20th century saw air power transformed from novelists' fantasy into stark reality From string and canvas to precision weaponry and stealth air power has progressed to become not only the weapon of first political choice but often the only conceivable option This rapid development has given rise to considerable debate and controversy with those holding entrenched views rarely slow to shout their case Many myths have grown over the period ranging from the once much vaunted ability of air power to win wars alone through to its impact as a coercive tool This volume examines the theory and practice of air power from its earliest inception The contributors have been drawn from academia and the military and represent some of the world's leading proponents on the subject All significant eras on air power employment are examined some are evidently turning points while others represent continuous development Perhaps more importantly the book highlights the areas that could be considered to be significant and invites the reader to enter the debate as to whether it constitutes a continuum a turning point or indeed a revolution *New Atlantis* Earl Clark, 2001-08 New Atlantis The year is 2062 and mankind has finally begun colonization and taming of the planet's final frontier Earth's oceans This is the story of the largest of these cities beneath the sea An open port of call for merchants traders diplomats and thieves Over five thousand men women and children call this technological marvel located almost one mile beneath the ocean's surface home This is New Atlantis City Beneath the Sea The United States Navy's most sophisticated submarine has been hijacked by a band of mercenary soldiers who want to sell its technological secrets to an unknown secret organization But first the new captain of the submarine has some old scores to settle with Miles Walker the founder and builder of New Atlantis Can Walker save his undersea city from destruction at the hands of his worst enemy and will the price be his own life
