complexities of the present moment and the syntax of interrelationships between living things The second day is concerned with craft the work of making sentences and books Lopez shares his practical strategies for writing and revising a manuscript and goes on to speak about vulnerability He says he often experienced a deep sense of doubt about his capacity to achieve whatever he was trying to do in a particular project Over time though this characteristic experience of not knowing became a kind of fuel for his work and even a weapon at times On the final day Lopez ponders the idea of writing as a praxis a way of life even a prayer for the earth while concurrently being terrified by the portents of its destruction Here the experience of being an attentive participant emerges as his core teaching Over the decades he developed a practice of attention that was endlessly curious and enthralled by the living world what he calls its pattern or syntax Despite acclaim as a celebrated writer throughout his career Lopez humbly tasked himself with making a combination of wonder and horror work together to effectively communicate a life journey of contemplation exploration and discovery *Underneath a Flight Attendant* Soraia Nakib,2012 *Underneath a Flight Attendant* talks about the author s adventures during her long flying career as a cabin crew and her musings as a spiritual guru and peace seeker All the stories in the book are true facts experienced by the author and some told through her by her close friends It talks about all subjects love politics religion and science A book to entertain but also to teach We ve all got something to teach others but also learn until our last breath The title *Flight Attendant* was chosen by the author since it s still so popular in USA but she explains that Cabin Crew is the latest title used in Europe and the Middle East This book is also a good reminder for passengers all over the world especially those who travel 4 or 5 star airlines on how to be a conscious economy passenger and behave well The author reveals to the world her psychic abilities She describes ways for you to understand that anyone can start practicing their good luck habits and add waves of good energy into their quotidian Hence attracting positive bids in your professional or personal life I tried to summarize my so far lived vicarious life in one book Since this book talks about various subjects and the chapters are not sequences there s no need to start it from the beginning Just try a chapter that inspires you first at the contents page
