Luther And Calvin On Secular Authority:

Luther and Calvin on Secular Authority Harro Höpfl, 1991-09-27 Martin Luther and John Calvin were the principal magistral Reformers of the sixteenth century they sought to enlist the cooperation of rulers in the work of reforming the Church However neither regarded the relationship between Reformed Christians and the secular authorities as comfortable or unproblematic The two pieces translated here Luther's On Secular Authority and Calvin's On Civil Government constitute their most sustained attempts to find the proper balance between these two commitments Despite their mutual respect there were wide divergences between them Luther's On Secular Authority would later be cited en bloc in favour of religious toleration whereas Calvin envisaged secular authority as an agency for the compulsory establishment of the external conditions of Christian virtue and the suppression of dissent The introduction glossary chronology and bibliography contained in this volume locate the texts in the broader context of the theology and political thinking of their authors

Luther and Calvin on Secular Authority Harro Höpfl, *The Individual in Political Theory and Practice* Janet Coleman, 1996 One of the main achievements of the research programme has been to overcome the long established historiographical tendency to regard states mainly from the viewpoint of their twentieth century borders *John Locke's Political Philosophy and the Hebrew Bible* Yechiel M. Leiter, 2018-06-28 John Locke whose ideas helped give birth to the United States predicated his political theory on the Hebrew Bible Why **Protestantism, Revolution and Scottish Political Thought** Karie Schultz, 2024-05-31 During the Scottish Revolution 1637-1651 royalists and Covenanters appealed to Scottish law custom and traditional views on kingship to debate the limits of King Charles I's authority But they also engaged with the political ideas of sixteenth and seventeenth century Protestant and Catholic intellectuals beyond the British Isles This book explores the under examined European context for Scottish political thought by analysing how royalists and Covenanters adapted Lutheran Calvinist and Catholic political ideas to their own debates about church and state In doing so it argues that Scots advanced languages of political legitimacy to help solve a crisis about the doctrines ceremonies and polity of their national church It therefore reinserts the importance of ecclesiology to the development of early modern political theory **Authority and Representation in Early Modern Discourse** Robert Weimann, 1996 This path breaking study attempts to view both Reformation discourse and Renaissance fiction and by implication the Elizabethan theater as constitutive of an early modern paradigm change in the authorization of discourse The profound crisis in traditional locations of authority affecting religious political and poetic courts of appeal is traced as interactive with an unprecedented proliferation of both signifying practices and communicative technologies Representation itself seeks to cope with these changing uses of language and power vis vis deep divisions but also new patterns of socialization in contemporary culture and society Authority now that it is less given before an utterance begins comes to constitute itself through the competence cogency and efficacy of representational practice itself even as this practice privileges and draws upon pictorial form in

diverse cultural contexts This book continues to search for answers to questions of why and under what conditions in the early modern period the representation of authority could increasingly be challenged by the authority of signs Initially raised in Weimann's *Shakespeare und die Macht der Mimesis* these questions are developed towards a theory and history of early modern representation that involves close encounters with a wide variety of texts from Luther Henry Tudor Edward Seymour Gardiner and Bancroft to Malory Erasmus Rabelais Sidney Nashe and Cervantes Robert Weimann is one of the world's most eminent and intellectually formidable scholars of early modern culture and he has written a work of the utmost importance to the theory and practice of cultural and literary history and to the study of sixteenth century English and European culture in particular The book is an intellectual tour de force yet one utterly devoid of the flourishes of academic self display This work genuinely impresses without ever seeking to impress Louis A Montrose University of California San Diego

Social Institutions and the Politics of Recognition Tony Burns, 2020-08-19 The first of three volumes this definitive study explores the politics of social institutions from the time of the ancient Greeks to the Reformation in the sixteenth century Tony Burns focuses on those civil society institutions occupying the intermediate social space which exists between the family or household on the one hand and what Hegel refers to as the strictly political state on the other Arguing that the internal affairs of social institutions are a legitimate concern for students of politics he focuses on the notion of authority together with that of an individual's station and its duties Burns discusses the work of such key thinkers as Plato Aristotle Cicero Seneca Epictetus Marcus Aurelius St Paul St Augustine St Thomas Aquinas Marsilius of Padua Nicholas of Cusa Jean Bodin Charles Loyseau John Calvin Martin Luther and Gerrard Winstanley He considers what they have said about the relationship that exists between superiors in positions of authority and their subordinates within hierarchical social institutions

Political Theology of International Order William Bain, 2020-04-09 Is contemporary international order truly a secular arrangement Theorists of international relations typically adhere to a narrative that portrays the modern states system as the product of a gradual process of secularization that transcended the religiosity of medieval Christendom William Bain challenges this narrative by arguing that modern theories of international order reflect ideas that originate in medieval theology They are in other words worldly applications of a theological pattern This ground breaking book makes two key contributions to scholarship on international order First it provides a thorough intellectual history of medieval and early

modern traditions of thought and the way in which they shape modern thinking about international order It explores the ideas of Augustine Thomas Aquinas William of Ockham Martin Luther and other theologians to rise above the sharp differentiation of medieval and modern that underpins most international thought Uncovering this theological inheritance invites a fundamental reassessment of canonical figures such as Hugo Grotius and Thomas Hobbes and their contribution to theorizing international order Second this book shows how theological ideas continue to shape modern theories of international order by structuring the questions theorists ask as well as the answer they provide It argues that the dominant vocabulary of international order system and society anarchy balance of power and constitutionalism is mediated by the intellectual commitments of nominalist theology It concludes by exploring the implications of thinking in terms of this theological inheritance albeit in a world where God is only one of several possibilities that can called upon to secure the regularity of order

Christian Realism and the New Realities Robin W. Lovin,2008-04-14 Robin W Lovin argues that the integration of religion and public life will benefit society more than their separation

Calvin's Political Theology and the Public Engagement of the Church Matthew J. Tuininga,2017-04-06 In Calvin s Political Theology and the Public Engagement of the Church Matthew J Tuininga explores a little appreciated dimension of John Calvin s political thought his two kingdoms theology as a model for constructive Christian participation in liberal society Widely misunderstood as a proto political culture warrior due in part to his often misinterpreted role in controversies over predestination and the heretic Servetus Calvin articulated a thoughtful approach to public life rooted in his understanding of the gospel and its teaching concerning the kingdom of God He staked his ministry in Geneva on his commitment to keeping the church distinct from the state abandoning simplistic approaches that placed one above the other while rejecting the temptations of sectarianism or separatism This revealing analysis of Calvin s vision offers timely guidance for Christians seeking a mode of faithful respectful public engagement in democratic pluralistic communities today

Between the 'Mysticism of Politics' and the 'Politics of Mysticism' David Ranson,2013-08-31 Between the Politics of Mysticism and the Mysticism of Politics traces the dialectic of the mystical and the political from both a theological and an historical perspective It presents the dialectic as a hermeneutic for the rise of the new ecclesial communities within the Roman Catholic Tradition and suggests it as the framework by which a trajectory for Christian holiness might emerge in the 21st century

Cooper, Justin Buckley Dyer, 2022-12-15 There has been a considerable amount of literature in the last 70 years claiming that the American founders were steeped in modern thought This study runs counter to that tradition arguing that the founders of America were deeply indebted to the classical Christian natural law tradition for their fundamental theological moral and political outlook Evidence for this thesis is found in case studies of such leading American founders as Thomas Jefferson and James Wilson the pamphlet debates the founders invocation of providence during the revolution and their understanding of popular sovereignty The authors go on to reflect on how the founders political thought contained within it the resources that undermined in principle the institution of slavery and explores the relevance of the founders political theology for contemporary politics This timely important book makes a significant contribution to the scholarly debate over whether the American founding is compatible with traditional Christianity *Christian Ethics, Second Edition* J. Philip Wogaman, 2010-12-24 This updated survey of Christian ethics addresses major thinkers movements and issues from the early church to the present A broad range of topics is discussed including the biblical and philosophical legacies of Christian ethics and ethics through the early medieval Reformation Enlightenment and modern eras This new edition contains more extensive discussions of ethics in the twentieth century including Vatican II ecumenical social ethics and Orthodox Christian ethics A new section Toward the Third Millennium looks at the issues we will face in the coming decades including medical scientific and political dilemmas and issues of terrorism war and peace **The Radical Attitude and Modern Political Theory** J. Edwards, 2006-11-14 The Radical Attitude and Modern Political Theory focuses on the appearance of modernity that can be best described as radical First appearing in the sixteenth century the attitude is best seen not as a coherent ideology or tradition but as a series of conceptual resources that continue to inform political discourse in the present *Reformation, Resistance, and Reason of State (1517-1625)* Sarah Mortimer, 2021 This volume charts the development of political thought between 1517 1625 Drawing on a wide range of sources from Europe and beyond it offers a new reading of early modern political thought making connections between Christian Europe and the Muslim societies that lay to its south and east
