Mabel Goes To Montessori:

America's Early Montessorians Gerald L. Gutek, Patricia A. Gutek, 2020-09-05 This book traces the early history of the Montessori movement in the United States through the lives and careers of four key American women Anne George Margaret Naumburg Helen Parkhurst and Adelia Pyle Caught up in the Montessori craze sweeping the United States in the Progressive era each played a significant role in the initial transference of Montessori education to America and its implementation from 1910 to 1920 Despite the continuing international recognition of Maria Montessori and the presence of Montessori schools world wide Montessori receives only cursory mention in the history of education especially by recognized historians in the field and in courses in professional education and teacher preparation The authors in seeking to fill this historical void integrate institutional history with analysis of the interplay and tensions between these four women to tell this educational story in an interesting and often dramatic way

Montessori Comes to America Phyllis Povell, 2009-12-22 What role did women's leadership play in the introduction and revival of the Montessori Method in America Phyllis Povell explores this question through the contributions of Maria Montessori and Nancy McCormick Rambusch who brought the Montessori Method to the American educational scene Introduced to the U S in the early 20th century by Montessori herself the Method lapsed into oblivion after WWI Thanks to Rambusch it was reborn after the launching of Sputnik In Montessori Comes to America Povell traces the evolution of women's leadership and its influence on the Montessori Method's development She includes insights from her own formative years showing how childhood education and career all shape women into leaders New research not only illuminates the unique roles of two historic early childhood educators but also updates the historical record and reveals the human dimension behind one of the most colorful chapters in American educational development

a young farmer drafted into the Confederate Army was wounded in battle and sent home to die For two days he lay on a railway platform begging passengers to contact his family in the hills At last an old slave who had purchased a wagon along with his freedom gently loaded him into his cart The old man drove him to his family s farm bathed his wounds in a stream carried him to his cabin and delivered the soldier to his astonished young wife By Faith and By Love is the story of that soldier s grandson who grew up poor in small South Carolina mill towns While many of his neighbors take out their frustrations with the legacy of the Civil War by joining the Ku Klux Klan this soldier s grandson must honor his grandfather s rescuer by finding another path

Civilisation Hijacked Al Morris, 2009 Worship of this ancient mythical god has produced distorted political and social systems This is the foundation of today s values and worldview among general populations of the so called civilized world Tradition slow cultural conditioning and the use of modern social engineering manufactured the world we have today A world controlled by a few small powerful groups in the area of religion politics and commerce In the hands of unscrupulous people fear and greed have been sown and cultivated individually and nationally for wealth and power of their particular limited group rather than for the common good This book amply illustrates the political social commercial and theological mess that we have inherited as a consequence The exclusivity of the three main stream religions Judaism Christianity and Islam has brought the world to the brink of disaster The only solution to this is through a particular style of Education already in use worldwide Early intervention is vital This book does not destroy faith it encourages and focuses it as a rational experiential recognition of the individual and collective human spirit The collective consciousness must be harnessed for the Herculean task of saving humanity from the fate of self inflicted annihilation

Women Curriculum Theorists Sandra Leaton Gray, David Scott, 2023-04-21 Most published bodies of work relating to curriculum theory focus exclusively or almost exclusively on the contributions of men This is not representative of influences on educational practices as a whole and it is certainly not representative of educational theory generally as women have played a significant role in framing the theory and practice of education in the past Their contribution is at least equal to that of men even though it may not immediately appear as visible on library shelves or lecture lists This book addresses this egregious deficit by asking readers to engage in an intellectual conversation about the nature of women s curriculum theory as well as its impact on society and thought in general It does this by examining the work of twelve women curriculum theorists Maxine Greene Susan Haack Julia Kristeva Martha Nussbaum Nel Noddings Jane Roland Martin Marie Battiste Dorothea Beale Susan Isaacs Maria Montessori Mary Warnock and Lucy Diggs Slowe The book is not an encyclopaedia nor is it a history book It aims to bring to the reader s attention through a semantic rendition of the world those seminal relationships that exist between the three meta concepts that are addressed in the work feminism learning and curriculum It will appeal to scholars and researchers with interests in curriculum and the philosophy and sociology of education
