The Last Day Glenn Kleier, 2024-09-24 An impressively imagined debut offers a devilishly cunning speculation on how a sinful world might greet news of a messiah's appearance Kirkus Reviews On the eve of the new millennium a mysterious woman rises up from the ruins of an earthquake a woman with extraordinary powers Is she the new redeemer come to save humanity from global collapse Or a being bioengineered by those seeking power Journalist Jonathan Feldman will stop at nothing to discover the truth **Last Day** will keep readers enthralled until the very end Expect to hear a lot about a new subgenre called the millennial thriller in the next couple of years but don't expect to find one any better than this Booklist A combination of scientific thriller religious satire and New Age mysticism this debut novel offers a view of what might happen as the end of the millennium approaches Library Journal

Your Best Brain Ever Michael S. Sweeney, Cynthia R. Green, 2013-12-31 National Geographic presents a comprehensive guide to fighting mental decline With cutting edge neuroscience information about Alzheimer's fascinating case studies and tips to fight brain aging symptoms such as slower mental acuity and senior moments this smart engaging guide will help keep your memory sharp and your mind active Fun age defying exercises from body stretches to word games to foods that help you think help the brain perform at its best just like exercising does for other parts of the body Leading memory loss expert Cynthia R Green PhD and eminent science writer Michael Sweeney have created a book both informational and practical that gives readers everything they need to know about the care and feeding of one of the body's

most important organs the brain **Light Science** Thomas D. Rossing, Christopher J. Chiaverina, 2020-01-03 Intended for students in the visual arts and for others with an interest in art but with no prior knowledge of physics this book presents the science behind what and how we see The approach emphasises phenomena rather than mathematical theories and the joy of discovery rather than the drudgery of derivations The text includes numerous problems and suggestions for simple experiments and also considers such questions as why the sky is blue how mirrors and prisms affect the colour of light how compact disks work and what visual illusions can tell us about the nature of perception It goes on to discuss such topics as the optics of the eye and camera the different sources of light photography and holography colour in printing and painting as well as computer imaging and processing Magic Eye III N. E. Thing, 1994 3D Illusions The Promise and the Blessing Michael A. Harbin, 2010-06-01 The Bible is a collection of writings that together tell a unified story But exactly how do all the pieces fit together In a single volume The Promise and the Blessing connects the dots of the Old and New Testament books to reveal the big picture of salvation history Organized chronologically rather than canonically this book traces the flow of Israel's history and shows how the New Testament proceeds out of the Old It begins with God's creation of the cosmos and the initial problem of the fall of man Then it traces God's solutions to that problem as he selects first one man Abraham then his line and then the nation of Israel to provide the Messiah Finally it focuses on the Messiah himself and looks at how the gospel of Jesus was spread throughout the known world The Promise and the Blessing is easy to use and ideal for anyone who wants to understand the grand narrative of the Bible It features numerous beautiful full color photos as well as sidebars and brief fascinating breakouts of supplementary information Maps illustrations summaries and insightful notes help to illuminate the text Field tested in the classroom The Promise and the Blessing is designed for Old and New Testament survey classes and will provide all readers of the Bible with a better understanding of how the drama that began in Eden winds through Israel's history to its fulfillment in Jesus Christ *The Rapture Exposed* Barbara R. Rossing, 2007-03-30 The idea of The Rapture the return of Christ to rescue and deliver Christians off the earth is an extremely popular interpretation of the Bible's Book of Revelation and a jumping off point for the best selling Left Behind series of books This interpretation based on a psychology of fear and destruction guides the daily acts of thousands if not millions of people worldwide In *The Rapture Exposed* Barbara Rossing argues that this script for the world's future is nothing more than a disingenuous distortion of the Bible The truth Rossing argues is that Revelation offers a vision of God's healing love for the world *The Rapture Exposed* reclaims Christianity from fundamentalists destructive reading of the biblical story and back into God's beloved community

Romancing the Market Stephen Brown, Bill Clarke, Anne Marie Doherty, 2003-09-02 *Romancing the Market* is a radical rethinking of marketing understanding Marketing and consumer research are dominated by the neo classical ideals of the Enlightenment such as rigour dispassion and the search for scientific truth In a series of provocative essays the contributors challenge these assumptions with reference to the individuality innovation and imagination of the Romantic movement The

book contains essays by an international selection of the most creative contemporary marketing scholars including Elizabeth Hirschman Russell Belk Craig Thompson and Robin Wensley Illuminating controversial and cutting edge this is an essential work for all those interested in new directions in marketing and consumer research **3D** Jens Schröter, 2014-01-30 There is a blind spot in recent accounts of the history theory and aesthetics of optical media namely the field of the three dimensional or trans plane image It has been widely used in the 20th century for very different practices military scientific and medical visualization precisely because it can provide more spatial information And now in the 21st century television and film are employing the method even more Appearing for the first time in English Jens Schroeter s comprehensive study of the aesthetics of the 3D image is a major scholarly addition to this evolving field Citing case studies from the history of both technology and the arts this wide ranging and authoritative book charts the development in the theory and practice of three dimensional images Discussing and analyzing the transformation of the socio cultural and technological milieu Schroeter has produced a work of scholarship that combines impressive historical scope with contemporary theoretical arguments
