## **Magic Of The Baroque In Mexico:**

The Magic of the Baroque in Mexico Lydia Sada de González, Efraín Castro Morales, 1999 *Mexican Literature* David William Foster, 2010-07-22 Mexico has a rich literary heritage that extends back over centuries to the Aztec and Mayan civilizations. This major reference work surveys more than five hundred years of Mexican literature from a sociocultural perspective. More than merely a catalog of names and titles, it examines in detail the literary phenomena that constitute Mexico's most significant and original contributions to literature. Recognizing that no one scholar can authoritatively cover so much territory, David William Foster has assembled a group of specialists, some of them younger scholars who write from emerging trends in Latin American and Mexican literary scholarship. The topics they discuss include pre-Columbian indigenous writing, Joanna O'Connell, Colonial literature, Lee H. Dowling, Romanticism, Margarita Vargas, nineteenth-century prose fiction, Mario Martín Flores, Modernism, Bart L. Lewis, major twentieth-century genres, narrative, Lanin A. Gyurko, poetry, Adriana García, theater, Kirsten F. Nigro, the essay, Martin S. Stabb, literary criticism, Daniel Altamiranda, and literary journals, Luis Pea. Each essay offers detailed analysis of significant issues and major texts and includes an annotated bibliography of important critical sources and reference works. *The Effects of the Nation* Carl Good, John V. Waldron, 2009 What is the effect of a nation? In this age of globalization, is it dead, dying, or only dormant? The essays in this groundbreaking volume use the arts in Mexico to move beyond the national and the global to look at the activity of a community continually re-creating itself within and beyond its own borders. Mexico is a particularly apt focus, partly because of the vitality of its culture, partly because of its changing political identity, and partly because of the impact of borders and borderlessness on its national character. The ten essays collected here look at a wide range of aesthetic productions, especially literature and the visual arts, that give context to how art and society interact. Steering a careful course between the nostalgia of nationalism and the insensitivity of globalism, these essays examine modernism and postmodernism in the Mexican setting. Individually, they explore the incorporation of historical icons, of vanguardism, and of international influence. From Diego Rivera to Elena Garro, from the Tlatelolco massacre to the Chiapas rebellion, from mass-market fiction to the film *Aliens*, the contributors view the many sides of Mexican life as relevant to the creation of a constantly shifting national culture. Taken together, the essays look both backward and forward at the evolving effect of the Mexican nation. Emotion and the Seduction of the Senses, Baroque to Neo-Baroque Lisa Beaven, Angela Ndalianis, 2018-07-31 *Emotion and the Seduction of the Senses: Baroque to Neo-Baroque* examines the relationship between the cultural productions of the baroque in the seventeenth century and the neo-baroque in our contemporary world. The volume illuminates how, rather than providing rationally ordered visual realms, both the baroque and the neo-baroque construct complex performative spaces whose spectacle seeks to embrace, immerse, and seduce the senses and solicit the emotions of the beholder. **Magic Realism, World Cinema, and the Avant-Garde** Felicity Gee, 2021-04-19 This book follows the hybrid and contradictory history of magic realism through the writings of three

key figures art historian Franz Roh novelist Alejo Carpentier and cultural critic Fredric Jameson drawing links between their political aesthetic and philosophical ideas on art's relationship to reality Magic realism is vast in scope spanning almost a century and is often confused with neighbouring styles of literature or art most notably surrealism The fascinating conditions of modernist Europe are complex and contradictory a spirit that magic realism has taken on as it travels far and wide The filmmakers and writers in this book acknowledge the importance of feeling atmosphere and mood to subtly provoke and resist global capitalism Theirs is the history of magic realist cinema The book explores this history through the modernist avant garde in search of a new theory of cinematic magic realism It uncovers a resistant geopolitical form of world cinema moving from Europe through Latin America and the former Soviet Union to Thailand that emerges from these ideas This book is invaluable to any reader interested in world modernism's in relation to contemporary cinema and geopolitics Its sustained analysis of film as a sensory intermedial medium is of interest to scholars working across the visual arts literature critical theory and film philosophy

Challenging Realities: Magic Realism in Contemporary American Women's Fiction M. Ruth Noriega Sánchez, 2011-11-28 Les arrels del realisme màgic en els escrits de Borges i altres autors d'Amèrica Llatina han estat ampliament reconeguts i ben documentades produint una sèrie d'estudis crítics molts dels quals figuren en la bibliografia d'aquest treball Dins d'aquest marc aquest llibre presenta als lectors una varietat d'escriptors de grups ètnics coneguts i menys coneguts i les col·loca en un context literari en el que es tracten tant a nivell individual com a escriptors així com a nivell col·lectiu com a part d'un moviment artístic més ampli Aquest llibre és el resultat del treball realitzat a les universitats de Sheffield i la de València i representa una valuosa investigació i una important contribució als estudis literaris

**Perverse Desire and the Ambiguous Icon** Allen S. Weiss,1994-10-28 Perverse Desire and the Ambiguous Icon analyzes the limits of the applicability of psychoanalytic theory to aesthetic discourse and in doing so expands the range of non normative paradigms of spectatorial identification and sexual identity These considerations are based on the epistemological premises that the ideal seldom coincides with the empirical and that identification is always partial fragmented heterogeneous mixed such that total identification would be tantamount to delirium The imagination is but the ephemera of partial objects torn from culture and history the transgression by fragmentation of a contemporary cosmos all too unified and all too controlled to admit the most singular and idiosyncratic phantasms of our desires Thus we must posit an aesthetics where theory and interpretation are juxtaposed to or traced above the effects of the passions where a muscular contraction or spasm is worth as much as a concept It is here at the fragile limit between iconophilia and iconoclasm that the ironies and exigencies of poetic justice reside The Aztec Palimpsest Daniel Cooper Alarc—n,1997-03 Mexico is more than a country it is a concept that is the product of a complex network of discourses as disparate as the rhetoric of Chicano nationalism English language literature about Mexico and Mexican tourist propaganda The idea of Mexicanness says Daniel Cooper Alarc n has arisen through a process of erasure and superimposition as these discourses have produced contentious and sometimes contradictory descriptions of their subject By considering Mexicanness as a palimpsest of these competing yet interwoven narratives Cooper offers a paradigm through which the construction and representation of cultural identity can be studied He shows how the Chicano myth of Aztlan was constructed upon earlier Mesoamerican myths discusses representations of Mexico in texts by nineteenth and twentieth century writers and analyzes the content of tourist literature thereby revealing the economic social and political interests that drive the production of Mexicanness today This original linking of seemingly incongruous discourses corrects the misconception that Mexicanness is produced only by hegemonic

groups Cooper shows how Mexico has been defined and represented by both Mexicans and non Mexicans as more than a political or geographic entity and he particularly reveals how Mexicanness has been exploited by Mexicans themselves through the promotion of tourism as a form of neocolonialism Cooper s work is valuable both for identifying attempts to revise and control Mexican myth history and culture and for defining the intricate relationship between history historiography and cultural nationalism The Aztec Palimpsest extends existing analyses of Mexicanness into new theoretical realms and provides a fresh perspective on the relationship between the United States and Mexico at a time when these two nations are becoming more intimately linked
