**Phoenix Flight Manual** Anthony S. Dallmann-Jones, 1995 Finally revealed synthesized and explained the secrets of the

Egyptian Mystery Schools quantum physics and the best new age thinking in everyday language for all to understand and use in the personal creation of daily magic that works      **Success! The Glenn Bland Method** Glenn Bland,2013-03-15 What would success look like in your life Earning more money Winning the big game Raising a happy healthy family Making a lasting difference in the lives of others This gem of a book contains business expert Glenn Bland s seven tried and true principles of lasting success spiritual financial educational and recreational It will help you to define true success understand what s been stopping you from achieving it and create the personalized goals and plans that will finally make it happen

**The Executive Guru** D. Patrick Georges,2000-01-12 We are all familiar with the glass ceiling blocking womens access to top corporate positions But there is another largely unknown glass ceiling that blocks both womens and mens efforts to achieve optimum results It is made up of invisible factors such as expectations beliefs and the energy needed to carry out ones plans and decisions By now even kids know the habits of highly effective people but what about their secret habits This book is the result of research conducted following the frustration caused by the authors inability to answer certain irritating questions faced during his 30 year career as manager and consultant Why despite conscientious efforts sometimes effective managers fail to achieve certain attainable goals Why do intelligent and educated people sometimes say or do dumb things What is the use of sending people to training courses if they do not expect to derive any benefits or do not believe they are capable of improving performance What is the importance and interrelationship of self image and self esteem in personal development Are there ways of improving managerial performance other than by using conventional management skills Could improved performance perhaps be attained by tapping into the vast resources of the unconscious mind Such questions coupled with the painful shock caused by downsizing and outsourcing organizations and a diminishing sense of job security have also made increasing numbers of people seek answers and comfort within themselves As well an increasing number of people expect work to provide them not only with a paycheck but also with fulfillment And it is not only individuals who seek to access the vast resources that may exist within each one of us Major corporations have begun looking for ways to improve the bottom line through spirituality while the Spirituality in the Workplace theme now appears on business conference agendas But do we need gurus at work Empirical evidence suggests that fulfillment and creativity are related to an energy source commonly referred to as spirit Apparently results of using traditional management tools may be enhanced if we marshal our latent mental energies and incorporate new approaches to performance management focusing on factors that may help us smash the unconscious glass ceiling blocking the achievement of optimum results Businesses training organizations government agencies and the media have been following the movement towards exploration of inner space a topic that regardless of preconceived notions and skeptics reservations merits the attention of business leaders Spirituality is a sensitive issue and some workers already resent such corporate programs because they consider them an intrusion into their private spiritual world The Executive Guru may serve as a down to earth guide for those interested in examining

complementary ways of developing their potential or dealing with the rapid changes and stresses of our times It is written in parable form hopefully making it an easier read than a straight forward management book after a hard day at work The story is that of an effective manager baffled by requests from staff to attend off site training courses with mystifying names Huna Neurolinguistics Reiki Timeline Programming He seeks advice from a guru who surprisingly provides him with businesslike answers backed by scientific evidence The manager is convinced that there is more out there than meets the eye and decides to add the gurus lessons to his arsenal of management tools Reading management books and attending conventional training courses may have helped you to take charge of your work by using more effective managerial skills This book will provide you with businesslike ideas on complementary approaches to increased creativity personal development and fulfillment

**Receive Your Miracle** , *Bitter Oranges* D. Patrick Georges,2009-07-06 Many men dream of living out their James Bond fantasy the screen version exotic travel adventure hot women and icy martinis shaken not stirred Reality proves different when an innocent quest for a simpler more spiritual life turns into a nightmare as two seekers ordinary Americans stumble across the path of the covert operations of two world powers and become unwilling spies This book takes the reader from where the author s previous book Smarter than Snakes left off Accused by the woman he loves of using and betraying her and haunted by secret agents of the shadow government the damned hero of the story seeks sanctuary off the gringo trail in Saudi Arabia There under the guidance of a top American lobbyist working for a Saudi billionaire he assesses his options and opts to move to Greece under an assumed name Thinking he is safe from the murderous secret agents of the shadow government that operates under the fa ade of democracy equality human rights and other myths he resumes his quest for a more spiritual life that leads only to wild goose chases He finds comfort in the arms of a woman whom he considers the true love of his life but his world comes crashing down when secret agents of this shadow government mistakenly assassinate her instead of him Crushed and guilt ridden he seeks the help of the powerful American lobbyist who helped him in Saudi Arabia Thanks to his extensive list of contacts the lobbyist facilitates the protagonist s escape to a remote island an Eden like setting but without fickle Eves and venomous Serpents The cold hard facts to back up the truths that hold this work together and the lavish descriptions of the hero s experience of such spectacular events as hitching a ride on a billionaire s floating palace staying at the first seven star all suite hotel flying on the Concorde touring Greek locations and attending unusual ceremonies and rites in Scotland Spanish Africa and Papua New Guinea make for a rich riveting story that holds one s interest through to the very end NOTE This book contains strong intellectual material that may be disturbing to some religious believers Reader discretion is advised

**Opening and Closing** Klapp,1978-09-29 In this original application of information theory to social analysis Orrin Klapp examines how and why societies are producing more stress than they ever can handle He argues that the reduction of social noise the chaos from which we try to construct meaning is a major goal of individuals and groups alike Individuals groups even entire societies normally cycle rhythmically between two basic modes of

adaptation to the constant communication flow opening or scanning for desired information and closing or defending against noise For example in a society functioning in the opening mode movements like ecumenicism and expansionism achieve momentum Extreme reactions in either mode lead to an opposite swing according to Professor Klapp s model His wide ranging conceptual scheme incorporates hypotheses about the variety and redundancy of information as well as about human channel capacities and the need for homeostatis His research reveals intriguing relationships among such phenomena as the concern about industrial population and the search for ethnic roots
