Taylor,2006-10-30 Zambia stands out in Africa as one of the continent s most peaceful countries In its early years as an independent state Zambia became a regional bulwark against imperialism and colonial domination and South African apartheid Today it stands out as an important example of Africa s recent democratization experiencing both incredible success as well as some notable setbacks The country is also one of the most urbanized in Sub Saharan Africa As a result of this urban influx Zambia s diverse ethno linguistic groups interact regularly Moreover many contemporary Zambian households especially those in cities are also exposed to the media technology and influences of western urbanized cultures from Internet cafes to hip hop music The interesting ways that tradition and modernity conflict and combine in contemporary Zambia are prime considerations in this book This book explores Zambia s culture with an eye toward its historical experiences and its particular endowments It focuses on how traditional and modern interact and sometimes collide in the country through topics such as religion gender roles and family cuisine the arts literature and more The major groups are examined to give the reader an idea about how many Zambians live The Magic of Dreams Eleanor Lopes Akahloun,2014-11-22 The Magic of Dreams An American Diplomat s Journey relays the story of a retired American

Struggles for Home Stef Jansen, Staffan Löfving, 2008-10-01 Based on anthropological studies across the globe this book explores the social practice of home making amongst people whose lives are characterized by movement and violence Social scientific and policy understandings of home and migration tend to focus on territory culture and nation often carrying implicit sedentarist assumptions of a naturalised link between people and particular places This book challenges such views drawing attention instead to unpredictable forms of dwelling in the often violent processes that connect yet differently affect the movement of people and capital Taking seriously the political implications of this challenge the authors do not resort to a free floating placeless approach Instead through the detailed ethnography of lived experiences of displacement and emplacement *Struggles for Home* investigates the power sedentarism may have to provide or prohibit hope Research conducted in Sri Lanka Bosnia Herzegovina Zambia Cyprus the Palestinian West Bank Guatemala and amongst Romanians and Moroccans in Spain articulates a novel theoretical framework for the development of a critical political anthropology of one of the most controversial and fascinating issues of our time the remaking of home in migration

Mutale: Religiosity in African Christian Churches , 2023-06-27 In this book Tresphor Mutale critically examines contemporary African Christianity through the leadership from prophets men of God pastors seers and more The book looks at the rationality of apparently irrational religious expressions and experiences in the name of religion It analyses the irrationalities using the spectacles of African Traditional Religions ATR especially with respect to the importance of rituals From the vantage point of rituals there is sense in nonsense and some of the irrational religious expressions being experienced today become rational The book raises the aspect of authority of ritual leadership in ATR and how this symbol holds authority in Christianity today and how it has power to influence believers Mutale argues that African Christianity and how it is experienced today point to the deeper influence of African Traditional Religions The book provokes many questions about the power of African symbolisms their application in Christianity and how Christianity through the lenses of African Traditional Religions is able to

relate and influence other areas of society like economics politics and sociality The book draws on and enriches perspectives on religion and religiosity with the depth of Mutale's ability to bring into conversation anthropological philosophical sociological and theological approaches

African Magic Heidi Holland, 2012-09-26 Africa's traditional beliefs including ancestor worship divination and witchcraft continue to dominate its spiritual influences Readers in search of a better understanding of the continent will be enriched by this book's timely exploration of sub-Saharan Africa's natural philosophy The author's meticulous research reveals that whereas technology driven Western societies prefer to rely largely on logical explanations many Africans continue to obey their intuition trusting in images dreams and divination to rationalise misfortune and illness African Magic explains why so many Africans understand the relationship between people and unfortunate events not through the Western concept of chance in the case of accidents or germ theory in the case of illness but through belief in witchcraft The book records a collection of true stories which illustrate this traditional belief system Included are the famous Malawian diviner whose prophecies were considered so accurate that people flocked from neighbouring countries to consult him a group of Western trained Mozambican psychologists who successfully refined cross cultural therapy by working with traditional healers to combat post traumatic stress syndrome among child soldiers Ghanaian and Zimbabwean witches living in a nightmare world where popular belief becomes their reality and a Zambian archbishop whose attempt to embrace traditional African beliefs provoked serious conflict within his Christian church

The Anthropology of Magic Susan Greenwood, 2009-11-01 Magic is arguably the least understood subject in anthropology today Exotic and fascinating it offers us a glimpse into another world but it also threatens to undermine the foundations of anthropology due to its supposed irrational and non scientific nature Magic has thus often been explained away by social or psychological reduction The Anthropology of Magic redresses the balance and brings magic as an aspect of consciousness into focus through the use of classic texts and cutting edge research Suitable for student and scholar alike The Anthropology of Magic updates a classical anthropological debate concerning the nature of human experience A key theme is that human beings everywhere have the potential for magical consciousness Taking a new approach to some perennial topics in anthropology such as shamanism mythology witchcraft and healing the book raises crucial theoretical and methodological issues to provide the reader with an engaging and critical understanding of the dynamics of magic

New Perspectives on Witchcraft, Magic, and Demonology: Witchcraft in the modern world Brian Paul Levack, 2001

AF Press Clips, 1987-07

Africa's Elite Football Chuka Onwumechili, 2019-11-11 This book explores various aspects of intranational elite football in Africa drawing on the expertise of notable scholars from across the world Africa's Elite Football focuses on an area largely ignored by current scholarship on African football where interest has focused on international migration In exploring the intranational the book is written in two parts The first is a general focus on the continent and the second is an examination of country cases The general focus of the book is on the nature of elite tier leagues the relationship between politics and football the media youth academies intranational migration and fans Notably chapters on topics such as intranational migration present groundbreaking scholarship in this area Currently football discourses on migration focus on international migration of footballers yet the majority of migration in African football is intranational Thus by addressing the intranational this book brings attention to an area that is underrepresented in the current academic discourse The second part of the book which focuses on country cases covers Botswana Egypt Kenya Nigeria Senegal Zambia and Zimbabwe The topics explored in those cases include religiosity health women's football media and management The coverage of health related issues is particularly important given that several books on African football rarely broach such a topic With its unique approach to African football this book will be of interest to scholars and students of sports history African studies politics in sports and African sports

Godfrey 'Ucar' Chitalu Jerry Muchimba, 2015-05-28

Godfrey Ucar Chitalu was Zambia's greatest footballer He scored more than 100 goals in a calendar year and was also among the greatest African players according to a list released by the Confederation of African Football in 2006 Godfrey Ucar Chitalu traces the life story of the football player from his early life to his exploits in the Zambian league for Kitwe United and the Kabwe Warriors as well as his brushes with football authorities His national team career is examined in detail highlighting the key games he played alongside match reports and a list of the goals he scored The 107 goals that Chitalu scored in 1972 are documented in great detail The book also looks at Chitalu's life outside football his playing and coaching career and gives an insight into how football was shaped over the years in Zambia The Gabon air disaster of 1993 which claimed the lives of thirty Zambian players coaches officials and crew including Chitalu is also revisited Author Jerry

Muchimba shares his own inspirations behind his decision to embark on research into Zambian football the same research that would go on to play a cardinal role when his country challenged Lionel Messi's claim to the most goals scored in a calendar year The goal record challenge is shared in great detail culminating in FIFA's ruling on the topic of who holds the record for scoring most goals in a calendar year This effectively denied Chitalu his place in football history Godfrey Ucar Chitalu is the first ever biography of a Zambian footballer and will appeal to any fans of the sport and its history *Morbid Magic* Tomás Prower, 2019-09-08 The Ultimate Book on Macabre Lore Spiritual Traditions from Yesterday Today Written with a mix of reverence approachability and deadpan wit by a funeral industry insider *Morbid Magic* is the first multi cultural guide to death spirituality and traditions from all over the world and from different historical eras Tom's Prower presents an impressive array of topics including each culture's views on the hereafter mourning periods the deceased's legacy handling of remains and more Discover the lore and magic of death both on the physical and spiritual planes Explore hands on activities spells and prayers that will open your eyes to new practices Experience personal stories and anecdotes by modern people from various regions and religions This fascinating book makes death a more approachable topic and helps you understand and utilize the profound wisdom of cultures around the globe From Judaism in the Middle East to shamanism in East Asia *Morbid Magic* presents an amazing in depth look at how the world deals with death The Language of Faith in Southern Africa: Spirit World, Power, Community, Holism Hermen Kroesbergen, 2019-12-12 The aim of this book is to provide a way to do justice to an African language of faith In systematic theology anthropology and philosophy of religion similar debates about how to interpret an African language of faith are ongoing Trying to avoid the othering discourses of past generations scholars are careful to take seriously what people in Africa say without portraying people's beliefs as weird or backward Yet in their desperate attempts to avoid othering these theologians anthropologists and philosophers often painfully misconstrue the language of faith in Africa Understanding the language of faith in Southern Africa is not an easy task How should we take seriously the form of language that often seems so strange and different I argue that after African inculturation theology and black liberation theology a better way to make sense of being a Christian in Southern Africa is to pay close attention to people's language of faith The way in which people speak of the spirit world or powers in Africa appears strange to outsiders and the sense of community and the holistic worldview differentiates the African way of life from its Euro American counterparts When proper attention is paid to the use of concepts like spirit world power community and holism language of faith in Southern Africa is neither as strange as it may seem nor as romantic By investigating these distinguishing concepts that colour language of faith in Southern Africa this book contributes to future projects of both fellow theologians who try to construct a contemporary African theology and those who are interested in theology in Africa given the well known southward shift of the centre of gravity of Christianity
