of people Until recently its sheer ubiquity caused it to be among the least respected schools of magic often relegated to the ranks of superstition or low magic Folk magic was something Grandma did something for the old folks something for modern young people to laugh about However in the twenty first century there has been a resurgence in the popularity of folk magic a practice now treated with respect and approached with fascination No longer something done in secret there are now bestselling books and social media groups dedicated to the love of folk magic Among the architects of this celebration and appreciation of folk magic is author Mary Grace Fahrur whose book *Italian Folk Magic* Weiser Books 2018 has been a major contributing factor to this phenomenon More and more people want to practice folk magic but unlike in the old days they may not have elders to access for information They are learning from books social media TikTok and YouTube videos But folk magic is more than casting a spell or creating a ritual It is a way of life a way of living a way of perceiving the world and all within it Although the details of folk magic practices vary by culture and community there are shared commonalities In her new book *Living Folk Magic* Fahrur explores how to build an entire folk magic practice to understand the practices of folk magic so that they can be applied wherever they are needed Mary Grace offers an exploration of the primary functions of folk magic cleansing protecting blessing cursing as well as instructions on how to build altars whether openly or secretly practicing divination communicating with spirits and more Her book is titled *Living Folk Magic* to emphasize that folk magic is not a dead thing of the past but something alive vital and modern Her goal is to help readers actually live folk magic so that it is a fulfilling and successful practice
