*Main Currents in Sociological Thought* Raymond Aron, 2017-07-12 In this second volume of *Main Currents of Sociological Thought* Raymond Aron continues the analysis begun in the first volume of the great doctrines of historical sociology Aron explores the work of three figures who profoundly shaped sociology as it entered the twentieth century Emile Durkheim the great French theorist of consensus who continued Auguste Comte's quest for a science of society and a scientific validation of morality Vilfredo Pareto the Italian neo Machiavellian who mocked traditional morality and humanitarian pretensions and emphasized the oligarchic or elitist character of all societies and the German sociologist Max Weber who reflected continuously on the relationship between science and action filled with deep foreboding about the prospects for human freedom in an age marked by bureaucratization and rationalization Aron presents rich portraits of these three thinkers drawing from them what remains of enduring worth even as he distances himself from Durkheim's project for a science of society Pareto's exaggerated critique of humanitarianism and Weber's tragic pessimism Aron's book is essential for clarifying his profound indebtedness to and crucial divergences from the thought of Max Weber the sociologist par excellence in Aron's view Together with volume 1 which treats the work of Montesquieu Comte Marx and Tocqueville it forms the definitive survey of the great social thinkers to date Yet as Daniel J Mahoney and Brian C Anderson explain in their introduction *Main Currents* is more than a survey it is above all a challenge to contemporary social science to retain the ambition of an older philosophically informed sociology to present an interpretation of modern society and to reflect on the meaning of universal history

*Main Currents in Sociological Thought* Raymond Aron, 1990 **Main Currents in Sociological Thought** Raymond Aron, 1999 In this second volume of *Main Currents of Sociological Thought* Raymond Aron continues the analysis begun in the first volume of the great doctrines of historical sociology Aron explores the work of three figures who profoundly shaped sociology as it entered the twentieth century Emile Durkheim the great French theorist of consensus who continued Auguste Comte's quest for a science of society and a scientific validation of morality Vilfredo Pareto the Italian neo Machiavellian who mocked traditional morality and humanitarian pretensions and emphasized the oligarchic or elitist character of all societies and the German sociologist Max Weber who reflected continuously on the relationship between science and action filled with deep foreboding about the prospects for human freedom in an age marked by bureaucratization and rationalization Aron presents rich portraits of these three thinkers drawing from them what remains of enduring worth even as he distances himself from Durkheim's project for a science of society Pareto's exaggerated critique of humanitarianism and Weber's tragic pessimism Aron's book is essential for clarifying his profound indebtedness to and crucial divergences from the thought of Max Weber the sociologist par excellence in Aron's view Together with volume 1 which treats the work of Montesquieu Comte Marx and Tocqueville it forms the definitive survey of the great social thinkers to date Yet as Daniel J Mahoney and Brian C Anderson explain in their introduction *Main Currents* is more than a survey it is

above all a challenge to contemporary social science to retain the ambition of an older philosophically informed sociology to present an interpretation of modern society and to reflect on the meaning of universal history      *Main Currents in Sociological Thought: Volume 2* Raymond Aron, 2018-10-03 This is the second of Raymond Aron's classic two volume survey of the sociological tradition arguably the definitive work of its kind Aron explores the work of three figures who profoundly shaped sociology as it entered the twentieth century mile Durkheim who continued Auguste Comte's quest for a science of society and a scientific validation of morality Vilfredo Pareto the Italian neo Machiavellian who emphasized the oligarchic or elitist character of all societies and the German sociologist Max Weber who reflected critically on the prospects for human freedom in an age marked by bureaucratization and rationalization Aron presents rich portraits of these three thinkers drawing out the enduring insights that remain in their work At the same time he reflects critically on Durkheim's project for a science of society Pareto's critique of humanitarianism and Weber's tragic pessimism Above all the book is remarkable for demonstrating Aron's lifelong indebtedness to and divergence from the thought of Max Weber the sociologist par excellence in Aron's view This Routledge Classics edition includes an introduction by Daniel J Mahoney and Brian C Anderson      **Main Currents in Sociological Thought: Durkheim, Pareto, Weber** Raymond Aron, 1970 Considers the ideas and accomplishments of the great sociologists Emile Durkheim Vilfredo Pareto and Max Weber within a historical context

anticipating Durkheim in its elevation of social unity and consensus and the Marxists who posited the struggle between classes and placed their faith in historical necessity In his customary clear and penetrating prose Aron argues that each of these schools offers its own theory of the diversity of societies and that each is inspired both by moral convictions and by scientific hypotheses This Routledge Classics edition includes an introduction by Daniel J Mahoney and Brian C Anderson
