Mainstreaming Gender And Development In The World Bank Progress And Recommendations:

Mainstreaming Gender and Development in the World Bank Caroline O. N. Moser, Annika Tornqvist, Bernice van Bronkhorst, 1999 *Extrait de l'introduction* This report presents the main findings of a recently completed desk study undertaken for the Social Development Family of the World Bank's Environmentally and Socially Sustainable Development ESSD Network. The primary objectives of the review are to a) identify the current rationale, language and underlying policy approach to Gender and Development GAD adopted by the World Bank b) evaluate the extent to which these are shared across the institutions and c) make recommendations concerning future steps toward mainstreaming gender in the World Bank. Although the origins of the review relate to needs specifically identified by ESSD, the issues raised go beyond social development and are relevant to all Bank staff concerned with mainstreaming gender and development into World Bank lending and nonlending operations at the policy program and project level.

A Guide to the World Bank, 2003 The World Bank Group works in more than 100 developing economies and is one of the world's largest sources of development assistance. In 2002 the institution provided US \$19.5 billion in loans to its client countries. This guide reviews the organisation's history, objectives and operations and looks at the five institutions that make up the World Bank Group: the International Bank for Reconstruction and Development IBRD, the International Development Association IDA, the International Finance Corporation IFC, the Multilateral Investment Guarantee Agency MIGA and the International Centre for Settlement of Investment Disputes ICSID.

Mainstreaming Gender in Environmental Assessment and Early Warning, 2005 **Mainstreaming Men Into Gender and Development** Sylvia H. Chant, Matthew C. Gutmann, 2000 Based on research commissioned by the World Bank, this book's primary focus is on incorporating men in gender and development interventions at the grass roots level. It draws attention to some of the key problems that have arisen from male exclusion as well as to the potential benefits of and obstacles to men's inclusion.

Geographies of Development in the 21st Century Sylvia H. Chant, Cathy McIlwaine, 2009-01-01 This is an excellent book and should prove to be a valuable text for geography and development studies students. Hedley Knibbs *Geography* *Geographies of Development in the 21st Century* provides a very accessible and comprehensive account of a broad spectrum of key contemporary issues of concern to geographers and development studies specialists the world over. I am sure that this excellent volume will be widely read and appreciated. Professor Andrea Cornwall, University of Sussex, UK. Uneven, contradictory and complex is how Sylvia Chant and Cathy McIlwaine describe the processes of development that constitute the subject of this distinctive and lively introductory text. Seeking to comprehend let alone portray with any degree of accuracy the burden of these three adjectives with reference to the sheer diversity within what is sometimes called the majority world is a daunting challenge. Chant and McIlwaine draw on their first-hand experience on the ground in several

countries spread across all the major continents of the global South stretching well beyond conventional academic research into NGOs social movements and major international agencies Students will find the blend of accessibly written broad survey and case study very helpful In addition to lists of important websites further reading and learning outcomes the text is interspersed with focused activities to foster active learning Professor David Simon Royal Holloway University of London UK Written by two widely published academics with many years experience in university teaching research and consultancy Geographies of Development in the 21st Century provides a concise yet informative introduction to development in the contemporary Global South Incorporating field research from Mexico Costa Rica Guatemala Colombia El Salvador the Philippines Botswana and The Gambia Sylvia Chant and Cathy McIlwaine bring alive a body of fascinating subject matter extending across gender family poverty employment household livelihoods the informal economy housing migration civil society conflict and violence Reflecting both authors enduring interests in the academic policy interface the book is also informed by assignments they have undertaken for various international organisations such as the World Bank Inter American Development Bank UNDP UNICEF ILO and the Commonwealth Secretariat This timely and engaging volume will be an essential companion for undergraduate students taking introductory courses in development and globalisation as well as a useful reference and repository of teaching and learning ideas for those lecturing on the subject Students will not only find this resource refreshingly accessible and user friendly but will be able to further their knowledge guided by annotated readings key internet sources and a range of learning activities

Land Tenure, Gender and Globalisation Dzodzi Tsikata, Pamela Golah, 2010 Drawing from field research in Cameroon Ghana Vietnam and the Amazon forests of Brazil Bolivia and Peru this book explores the relationship between gender and land revealing the workings of global capital and of people s responses to it A central theme is the people s resistance to global forces frequently through an insistence on the uniqueness of their livelihoods For instance in the Amazon the focus is on the social movements that have emerged in the context of struggles over land rights concerning the extraction of Brazil nuts and babacu kernels in an increasingly globalised market In Vietnam the process of de collectivising rights to land is examined with a view to understand how gender and other social differences are reworked in a market economy The book addresses a gap in the literature on land tenure and gender in developing countries It raises new questions about the process of globalisation particularly about who the actors are local people the

state NGOs multinational companies and the shifting relations amongst them The book also challenges the very concepts of gender land and globalization

Developing Partnerships Kate Bedford,2009 A nuanced critique of how the World Bank encourages gender norms through its policies *Developing Partnerships* argues that financial institutions are key players in the global enforcement of gender and family expectations By combining analysis of documents produced and sponsored by the World Bank with interviews of World Bank staffers and case studies Kate Bedford presents a detailed examination of gender and sexuality in the policies of the world s largest and most influential development institution Looking concurrently at economic and gender policy Bedford connects reform of markets to reform of masculinities loan agreements for export promotion to pamphlets for indigenous adolescents advising daily genital bathing and attempts to strengthen institutions after the Washington Consensus to efforts to promote loving couplehood in response to economic crisis In doing so she reveals the shifting relationships between development and sexuality and the ways in which gender policy impacts debates about the future of neoliberalism Providing a multilayered account of how gender aware policies are conceived and implemented by the World Bank *Developing Partnerships* demonstrates as well how institutional practices shape development

The New Poverty Strategies P. Mosley,2002-12-17 The contributors to this collection examine the progress and impact of the new poverty strategies which have governed the policies of development agencies over the past decade While in some areas progress has been impressive in others it has been hampered by persisting inequalities civil conflict institutional gaps and turbulence in the international financial system In light of this *The New Poverty Strategies* proposes a range of new policies and donor initiatives designed to achieve greater success in poverty reduction in the new century

Development and Human Rights Joel E. Oestreich,2017-04-03 In 2003 the United Nations adopted a common rights based approach to development in their efforts to promote an international standard of human rights throughout the world The approach

emphasizes economic social and cultural rights but plays down the role of civil and political rights in development Intergovernmental and non governmental agencies operate only at the invitation and sufferance of their hosts and states retain full sovereignty and control over their territory and the direct promotion of civil and political rights by foreign organizations has seemed beyond the ability of multilateral development agencies But as Development and Human Rights shows UN agencies have begun to take on a remarkable set of development priorities that while carefully circumscribed and defined constitute greater involvement in a state s internal affairs than anyone would have considered in the past In this book Joel E Oestreich presents the first full length study of how international agencies evaluate the rights situation in a single country and the first study to look at both the good and the bad in a rights based approach It looks particularly at the human rights challenges faced in India considering the work of five UN agencies UNICEF the UN Development Programme the World Bank the UN Fund for Population Activities and UN Women Over the course of the book Oestreich summarizes how the UN navigates this difficult political terrain and how effectively these policies are being implemented Development and Human Rights ultimately considers how rights based approaches fit in the traditional discourse on human rights and the ability of these agencies to initiate meaningful change on state behavior in the rights arena *Struggles for Social Rights in Latin America* Susan Eva Eckstein, Timothy P. Wickham-Crowley, 2012-11-12 This is a collection of original essays focusing on social rights in Latin America covering four areas in particular subsistence labor gender and race ethnicity within the original framework of human rights Topics covered include the environment AIDS workers rights tourism and many more

Feminist Economics and the World Bank Edith Kuiper, Drucilla Barker, 2006-05-02 In this book an international team of contributors including Diane Elson Suzanne Bergeron and Cheryl Doss provide an assessment of the World Bank Human Capital in Gender and Development Sydney Calkin, 2018-05-11 Human Capital in Gender and Development addresses timely feminist debates about the relationship between feminism neoliberalism and international development The book engages with human capital theory a labour economics theory associated with the Chicago School that now animates a wide range of political and economic governance The book argues that human capital theory has been instrumental in constructing an economistic vision of gender equality as a tool for economic growth and girls and women of the global South as the quintessential entrepreneurs of the post global financial crisis era The book s critique of human capital theory and its role in Gender and Development gives insights into the kinds of development interventions that typify the Gender Equality as Smart Economics agenda of the World Bank and other international development institutions From the World Bank to NGOs and private businesses discourses about the economic benefits of gender equality and women s empowerment underpin a range of development interventions that aim to unlock the untapped potential of the world s women Its implications are both conceptual and material producing more interventionist forms of development governance increased power by private sector actors in development and de politicization of gender equality issues Human Capital in Gender and Development will be of

particular interest to feminist scholars in Politics International Relations Development Studies and Human Geography It will also be a useful resource for teaching key debates about feminism neoliberalism and international development
