Kister, Bruce Hawkins, 2006-05-10 This is a hands on reference guide for the maintenance or reliability engineer and plant manager As the third volume in the Life Cycle Engineering series this book takes the guiding principles of Lean Manufacturing and Maintenance and applies these concepts to everyday planning and scheduling tasks allowing engineers to keep their equipment running smoothly while decreasing downtime The authors offer invaluable advice on the effective use of work orders and schedules and how they fit into the overall maintenance plan There are not many books out there on planning and scheduling that go beyond the theory and show the engineer in a hands on way how to use planning and scheduling techniques to improve performance cut costs and extend the life of their plant machinery The only book that takes a direct look at streamlining planning and scheduling for a Lean Manufacturing Environment This book shows the engineer how to create and stick to effective schedules Gives examples and templates in the back of the book for use in day to day scheduling and calculations      *Maintenance Planning, Scheduling, and Coordination* Don Nyman, Joel Levitt, 2001 Well planned properly scheduled and effectively communicated jobs accomplish more work more efficiently and at a lower cost This work will disturb operations less frequently and be accomplished with higher quality greater job satisfaction and higher organizational morale than jobs performed without proper preparation Maintenance Planning Scheduling Coordination focuses on and deals specifically with the preparatory tasks that lead to effective utilization and application of maintenance resources It is a vital training document for planners an educational document for those to whom planners are responsible and a valuable guide for those who interface with the planning and scheduling function and are dependent upon the many contributions of planning and scheduling operational excellence      *Handbook of Maintenance Management and Engineering* Mohamed Ben-Daya, Salih O.
