Entering Kindergarten is an exciting passage for children however some may be apprehensive as to what to expect Read along with little Maisy as she helps them experience a fun day at school      *The Magic Toy Shop* Peter King,2024-01-05 The book is a children s fairy tale about toys with magic powers A toy shop hidden in an old village deep in the countryside is rumoured to have magic powers Every toy that enters the toy shop either to be mended or sold is given the power to move and talk to other toys But the magic power only happens when children and adults are not around The children that live in the village somehow know that that is true without having any real proof All the parents are convinced that it is the children spreading the rumours until they experience strange happens with their children s toys Many of the toys have their own story to tell including dolls robots and unicorns as well as the children who own them and Nancy and Tom the shop owners Michael s dad is determined the find out the truth about these magic powers and secretly sets up a video camera in his son s play room during the night with the story ending with a surprising twist      **Outnumbered by Daughters** Peter King,2023-03-03 The book is an adult fictional novel based on a young man s struggle with sadness tragedy complicated romances and family life He attempts to bring up twin girls and an older stepdaughter as a single parent through their middle school years He encounters all sorts of problems that readers could relate to in their own personal life involving mixed emotions and hardship including his own complicated and failed romances on his journey through this stage of parenthood He has to deal with embarrassment and overcome all sorts of new experiences as he tries to understand the problems and needs that young girls have to face as they grow up The girls teenage years present him with a completely different set of problems but he does at least have better success with romance resulting in a wife new daughter and stepdaughter finally completing his family      *Learning Relations (Routledge Revivals)* Doreen Grant,2014-05-01 Dissatisfied with the effects of schooling on children from low income families Doreen Grant left her post as head of a secondary school in Liverpool and turned to research for solutions to this perennial social problem This is a popular account of her involvement with under privileged Glaswegian parents and children and her attempt to address the problem of underachievement from the perspective of the home rather than the educational establishment Combining the theory of international scholars such as Brofenbrenner Bruner Donaldson and Freire with practical experience Doreen Grant indicates the improvements in children s active learning when parents participate fully in the process of education *Learning Relations* first published in 1989 describes the creation of a coherent learning environment in the inner city as parents gain confidence in their personal vocation as natural educators it becomes clear that they are not only willing but fully capable of improving their children s chances of success      *Maisie's Merry Christmas* Nina Rhoades,1911      **Radio Girls** Sarah-Jane Stratford,2016-06-14 The
